**Comments:**

The experience was great!  
 A few school districts didn't show  
 Thanks for having this, it was really helpful!  
 Due to limited number of representatives that were supposed to be present and did not arrive.  
 Very informative and helpful to future career options.  
 Great I wish we had one at our school.  
 The Career Expo was really nice. The vendors were not only offering full-time jobs to graduate students but part-time jobs to undergraduates.

**Recommendations:**

More school districts  
 Not enough school districts of the four advertised only two are represented here. Future educators are not benefiting from two school districts.  
 Better variety of jobs for different interests.  
 More education fields.  
 Need a variety of companies and even places that provide housing.  
 More medical related companies should be presented.

**Comments:**

This was a great event

Great Exposure!

Looking forward to attending more career fairs here at STATE and other places.

To many tables with no attendance.

The Career Expo gave me opportunities that do not usually come about and being a college student with a variety of opportunities gives me a step

above the rest.

The Career Expo was really nice. The vendors were not only offering full-time jobs to graduate students but part-time jobs to undergraduates.

### Recommendations:

More jobs for other majors

Wish I had a map

It seems as if the Career Fair is focused on certain majors, like education, engineering, health, and people in Criminal Justice.

More variety needed.

More companies for Fashion Merchandising.

More companies for Criminal Justice majors.

As a Physical Education major I would like to see jobs we can relate to or have interest in from different people who can offer us opportunities.

More health related people are needed.

Should offer more varieties to cover every field offered at the school.

Please have more legal and business opportunities.

Need more nursing and medical facilities.

**Comments:**

The Career Fair was great. It's nice to have SC State, Claflin, & OC-Tech all in one for the Career Fair.

Lunch was wonderful!

Thank your for the opportunity, I look forward to a good working relationship in the future very accomodating and friendly staff.

Today's experiance was nice.

We will see you next year.

Thank you for the opportunity to participate.

Very well organized, need better signage for building where event is held, maybe a campus map with directions to SC State.

**Recommendations:**

Please have students wear name tags with: name, year of student, and major.

Inadequate seating at lunch

The introduction for the start was a little to long. The students were well dressed; I would like for them to come with a knowledge base of the appropriate questions to ask.

Shorten the introduction.

Many people coming through seemed to be more interested in obtaining giveaway items rather than the company. While many business students were dressed professionally, there were some that did not give a good impression. For especially seniors, it should be reiterated that students are meeting potential employers and should dress appropriately.

The overall length of the fair was too long, four hours would be long enough. I felt the fair was drowned out more than it needed to be. There was a lot of down time where employees was just sitting around.
