This major presents students with an opportunity to match career goals and course selection. The foundation that is provided by the Family and Consumer Sciences core, content, and business courses will advance competencies for a variety of career choices. This professional area incorporates selected concepts from the fields of business, management, communities, equipment, and family and consumer economics. Most courses selected from other disciplines or those completed prior to the selection of this major are in the human sciences or applied sciences. Personal characteristics needed include business orientation, self-motivation, energy, organizational skills, and the ability to mobilize innovation and change.
