INSTITUTIONAL ACCREDITATIONS

South Carolina State University is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools (1866 Southern Lane, Decatur, Georgia 30033-4097: telephone number 404-679-4501) to award the bachelor’s, master’s, specialist, and doctorate degrees.

Academic Programs are accredited by the following national accrediting bodies:

• Accreditation Board for Engineering and Technology, Inc. (TAC/ABET)

Address: Accreditation Director for Engineering Technology, Technology Accreditation Commission Accreditation Board for Engineering and Technology, Inc., 111 Market Place, Suite 1050, Baltimore, Maryland 21202

• American Dietetic Association

Address: American Dietetic Association, 216 W. Jackson Blvd., Chicago, IL 60606-6995, 312/899-5400

• American Association of Family and Consumer Sciences
• Association to Advance Collegiate Schools of Business International (AACSB)
• Commission on Collegiate Nursing Education
• Computing Accreditation Commission of the Accreditation Board for Engineering and Technology (CAC of ABET).
• Council for Accreditation of Council and Related Education Programs
• Council on Rehabilitation Education
• Council on Social Work Education
• National Association of Schools of Music
• National Council for Accreditation of Teacher Education
• The bachelor’s (B.A.) and master’s (M.A.) education program in speech-language pathology at South Carolina State University are accredited by the Council on Academic Accreditation in Audiology and Speech-Language Pathology of the American Speech-Language-Hearing Association.

In addition, the Counseling and Self-Development Center is accredited by the International Association of Counseling Services, Inc. and the Child Development Learning Center is accredited by the National Academy of Early Childhood Programs (a division of the National Association for the Education of Young Children (NAEYC).

NOTE: Accreditation documents are on file in the Miller F. Whittaker Library and may be inspected after submitting an official request to the dean of Library and Information Services. Requests will be honored during normal business hours of the library.

NOTICE
South Carolina State University reserves the right to add or drop programs and courses, to change fees, to change the calendar which has been published and to institute new requirements when such changes appear desirable. Every effort will be made to minimize the inconvenience such changes might create for students. Suitable substitutions will be allowed for required courses which have been withdrawn. This catalog, subject to any amendments, additions or deletions, shall be effective from Fall 2006 to Spring 2007.

THE CAMPUS

HISTORY

MISSION

ADMINISTRATION

South Carolina State University offers equal opportunity to its employment, admissions and educational activities in compliance with Title IX and other civil rights laws.
THE UNIVERSITY

CAMPUS

South Carolina State University, located in the city of Orangeburg which is 40 miles east of the state capital at Columbia, is only a five-minute walk from the heart of the city.

The University owns 160 acres of land. An additional 286 acres are located at Camp Daniels in Elloree, South Carolina. This property, however, is not included in the total amount of land owned by South Carolina State University.

HISTORY

The Constitutional Convention of 1895 enacted provisions authorizing the Legislature to create the College by a severance of the state’s interest from Claflin University. In pursuance of such authorization, the General Assembly in 1896 enacted statutes providing for the establishment of a normal, industrial, agricultural and mechanical college. The same Legislature provided for the appointment of a Board of Trustees, an administration, a faculty, and for the adoption of rules and regulations to govern the operation of the College.

Pursuant to this organization, a faculty composed of 13 South Carolinians was chosen by Dr. Thomas E. Miller, a former Congressman from South Carolina, who had been appointed as the first President of the College; and on September 27, 1896, the doors of the institution were opened to a land-grant college. The College plant consisted of 135 acres, eight small buildings, a small dairy herd, and a few farm animals. Because of the meager facilities, academic instruction was mostly given on logs hewn from the campus wilderness, in the tradition of the Mark Hopkins ideal college. These logs were later made into lumber for the first dormitory and classroom buildings.

In 1911 Robert Shaw Wilkinson, a native of Charleston and a former Professor of Physics at the College, was elected President. Under his administration, the income of the College was increased from both federal and state sources, and a federal appropriation for extension work was added.

After 21 years of sincere service, Dr. Wilkinson passed; and on March 15, 1932, the presidency of the College was undertaken by Miller F. Whittaker, who at that time was Director of the Mechanical Department. Some of the outstanding activities that marked President Whittaker’s administration were the establishment of a Law School, Extension School units in 15 South Carolina communities, and a Reserve Officers’ Training Corps Infantry Unit.

President Whittaker gave 18 years of dynamic service to the College, and in 1949 he died with a firm faith that: “The College is serving the people of this state as never before. The worth of the institution is best expressed in the community relationship which it maintains and the improvement of rural and civic life which it promotes through its graduates, its faculty, and its extension agencies. The College has exhibited its economic, civic, and social worth to the Commonwealth of South Carolina.”

In 1950 Benner C. Turner, Dean of the School of Law was elected President of the College. He retired in 1967 after 17 years of service. Under President Turner’s administration the College’s growth was tremendous, both in academic activities as well as in physical and human resources. Outstanding changes included the rapid growth of both undergraduate and graduate enrollments; increases in the number of faculty and staff; increases in the number holding doctoral degrees, the reorganization of the administrative and instructional areas of the College; major improvements in the physical plant which included the renovation of buildings and the construction of many new buildings; among which were a new academic building, and dormitories for both men and women, a cafeteria, walkways, drives, roads and attractive landscaping; all of which have added to the comfort and beauty of the campus.

The legal and official name of the institution was changed to South Carolina State College, by the act of the General Assembly of 1954.

Upon the retirement of Dr. Turner, the Board of Trustees appointed Dr. M. Maceo Nance, Jr., Vice President of Business and Finance, as Acting President of the College to serve until a successor to the former president could be chosen. The appointment became effective June 24, 1967. Dr. Nance was elected President by the Board on June 23, 1968, and was inaugurated November 27, 1968. Under President Nance’s administration, the College experienced unprecedented growth in academics, students, faculty, staff and physical facilities. Twenty degree programs were established including the doctorate in Educational Administration. The majority of the qualified faculty held doctoral degrees. Many academic programs received professional accreditation, while the College maintained its regional accreditation. Scholarship programs and faculty chairs were enhanced and initiated to promote the pursuit of knowledge. In keeping with the land-grant mission of the College, the 1890 Research and Extension program (United States Department of Agriculture), through its services and research, assisted in improving the quality of life for the citizens of South Carolina. In recognition of the need for additional school-community interaction, an Adult and Continuing Education unit and a comprehensive college-community relations program were established and promoted. National and international awards were bestowed on many academic programs and extracurricular activities. Dr. M. Maceo Nance, Jr., retired June 30, 1986 after serving as President for 19 years.

The Board of Trustees appointed Dr. Albert E. Smith the Sixth President of South Carolina State College, effective July 1, 1986. Dr. Smith, with a theme of “New Directions,” immediately advanced a set of institutional goals which included the development of a strategic plan, renewed emphasis on academics, the improvement of student life, the strengthening of enrollment, fiscal management efficiency and improved relations with all college constituencies.

In five-and-one-half years, the Smith administration increased student enrollment to more than 5,000; established an Office of Research and Grants Administration which resulted in a dramatic increase in research-related funding; initiated a division of Development and Institutional Relations which stimulated significant growth in alumni support; implemented a computerized integrated on-line system in the library; instituted a new Honors Program and Student Exchange Program; brought on board a Master of Arts degree in teaching and expanded the Post RN completion program for beginning students; created a School of Freshman Studies; initiated plans for the funding and construction of a Fine Arts Center, a new dormitory on campus,
and a Convention Center at Camp Harry Daniels; secured initial accreditation and reaccreditation for all programs submitted to accrediting agencies between August 1986 and January 1992. One of the most profound changes of the Smith administration was the development of plans and strategy, which resulted in the Institution’s name designation being changed from College to University in 1992.

Dr. Smith served as President of South Carolina State University from July 1, 1986, to January 5, 1992.

On January 6, 1992, the Board of Trustees named Dr. Carl A. Carpenter, a professor in the School of Education and former Vice President for Academic Affairs, as Interim President. Dr. Carpenter served in this capacity until a new president was named in September 1992.

On September 30, 1992, the Board of Trustees elected Dr. Barbara R. Hatton as the first woman to assume the presidency of South Carolina State University. Beginning her duties on January 4, 1993, Dr. Hatton was inaugurated seventh President of the University on November 13, 1993. As a result of her vision and leadership, significant steps were taken to move the institution toward becoming the inclusive university of the twenty-first century. Among the steps were: restructuring to reduce the number of administrative positions and increase the number of faculty positions; aligning and renaming academic departments and schools; achieving full accreditation status for programs in music, nursing, social work, speech pathology and audiology in addition to reaccreditation of teacher education programs; initiating legislation which allowed engineering technology graduates to sit for the engineering licensure examination in South Carolina, and opening an Office of State and Community Relations in Columbia. Capital improvement projects included the Oliver C. Dawson Bulldog Stadium, the Student Center Plaza and acquisition of the Dawn Center.

On June 13, 1995, the Board of Trustees named Dr. Leroy Davis, Vice President for Student Services, as interim President. Immediately following his appointment, Dr. Davis initiated a number of changes which resulted in significantly improved constituent support and confidence in the University’s management of its resources. These changes included new management policies and procedures, increased faculty hiring, and increased faculty participation in University governance. On April 10, 1996, after a national search, the Board of Trustees elected Dr. Leroy Davis as the eighth President of South Carolina State University. Prior to serving as Interim President and being elected President, Dr. Davis served the University in several capacities including Professor of Biology, Vice Provost for Academic Administration, and Vice President for Student Services. After his appointment to the presidency, Dr. Davis initiated plans to establish Centers of Excellence in each of the five academic schools; increased scholarship support to recruit more academically talented freshmen, designated tuition and fee revenues for program accreditation, improvement of information technology services, faculty salary equity increases, and increased student activities support: implemented a new tenure and promotion policy; established the first University Staff Senate; increased University partnerships and collaborations; and implemented new community service programs in the areas of health care and economic development and construction of a Fine Arts Building; restructured academic and administrative support programs; reaffirmed the accreditation of several academic programs; reorganized the President’s Cabinet and established the University Council and the President’s Advisory Board. Dr. Davis retired from the University on June 30, 2002 after serving as president for six years.

On July 1, 2002, following the retirement of Dr. Davis, the Board of Trustees appointed Ernest A. Finney, Jr., former South Carolina Supreme Court Justice, as Interim President of the University to serve until a successor to the former president could be chosen.

On May 16, 2003, the Board of Trustees elected Dr. Andrew Hugine, Jr. to serve as the ninth president of South Carolina State University.

**MISSION STATEMENT**

South Carolina State University, a senior comprehensive teaching institution, is committed to providing affordable and accessible quality undergraduate and graduate degree programs. This public university with a student population between 4,000 and 5,000 is located in Orangeburg, an area that has a traditional rural, agricultural economy which has expanded to include a business and industrial focus that is national and international in scope. South Carolina State University’s 1890 land-grant legacy of service to the citizenry of the state is ensured through its collaborative efforts with local, rural, and statewide businesses, public education, colleges and industry. This symbiotic relationship provides a catalyst that spurs a reciprocal economic and social growth for the University, state, nation and the international community-at-large.

South Carolina State University, founded in 1896 as a historically Black co-educational institution, embraces diversity among its students, faculty, staff and programs. While maintaining its traditional focus, the University is fully committed to providing life-long learning opportunities for the citizens of the state and qualified students of varied talents and backgrounds in a caring and nurturing learning environment.

South Carolina State University, through instruction, research and service activities, prepares highly skilled, competent, economically and socially aware graduates to meet life’s challenges and de-
mands that enable them to work and live productively in a dynamic, global society. The University offers sixty baccalaureate programs in the areas of applied professional sciences, engineering technology, sciences, arts, humanities, education and business. A small number of programs are offered at the master’s level in teaching, human services and agribusiness, and the educational specialist and doctorate programs are offered in educational administration. Faculty and students participate in research that stimulates intellectual growth, enhances and facilitates student learning and adds to the scientific knowledge base of the academy. Service activities, which are provided through programs related to agriculture, adult and continuing education, research, cultural arts, small business development and other special interest areas, are designed to enhance the quality of life and promote economic growth. These efforts, supported by various applications of technology, are achieved in a climate of mutual trust and respect through methods of scholarly inquiry and scientific research.

The South Carolina State University Mission Statement was approved by its Board of Trustees on December 2, 1997.

**ADMINISTRATIVE ORGANIZATION**

The authority and responsibility for the governance of South Carolina State University is vested in the Board of Trustees. The Board of Trustees, directly or through its authorized committees, establishes general policies of the University and formulates its board program of educational activities. The Board elects the president of the University to whom it delegates full authority and responsibility for the detailed administration of the institution.

The faculty, subject to the review by the President and Board of Trustees, has legislative powers in all matters pertaining to the standards of admissions, registration, requirements for and the granting of degrees earned in courses, the curriculum, instruction, research extra curricular activities, the educational policies and the standards of the University, and all other matters pertaining to the conduct of faculty affairs, including the discipline of its own members.
BOARD OF TRUSTEES AND SENIOR ADMINISTRATORS

BOARD OF TRUSTEES
The Honorable Mark Sanford ~ Governor

Dr. Rita Teal ~ Interim Vice President, Academic Affairs/ Executive Director for Institutional Effectiveness
Dr. Valerie S. Fields ~ Interim Vice President, Student Affairs
Mr. John E. Smalls ~ Senior Vice President, Financial Affairs and Management Information Systems
Dr. Jackie Epps, ‘69 ~ Interim Vice President, Institutional Advancement
Dr. Leonard A. McIntyre ~ Interim Vice President, Research and Economic Development
Mrs. Charlene M. Johnson, ‘80 ~ Athletics Director
Dr. Carl E. Jones, ‘76 ~ Executive Director for Student Success and Retention Programs
Attorney Edwin D. Givens, ‘85 ~ Special Assistant to the President for Legal Affairs

SENIOR ADMINISTRATORS
Dr. Christine R. Boone, Interim Associate Vice President for Academic Affairs
Dr. Learie Luke, Interim Associate Vice President for Faculty and Programs
Mr. Joseph Pearman, Assistant Vice President for Fiscal Affairs
Vacant, Vice President for Student Affairs
Mr. Elbert Malone, Interim Assistant Vice President for Sponsored Programs
Dr. Rodell Lawrence, Assistant Vice President for Alumni Relations
George E. Cooper, Ph.D.
President
Hilton Head Management Seminar
GRADUATE STUDIES PROGRAM

BRIEF HISTORY

The South Carolina General Assembly authorized South Carolina State College to offer graduate work in 1946. Stemming from its strong 1890 land-grant tradition, a Graduate Division grew into a School of Graduate Studies, which produced its first degree graduate in 1948 with a Master of Science in Mathematics Education. In 1959, when the M.S. program was redesignated the Master of Education (M.Ed.) program, more than half of the sixteen subject-matter areas were directly related to agriculture and agronomy. Since that time, the School of Graduate Studies has expanded to offer 19 different subject-matter emphases which comprise 15 degree programs: an Ed.D. and an Ed.S. in Educational Administration, two M.A. programs, one M.A.T, two M.B.A., four M.Ed., and four M.S. programs. In 1994, the School of Graduate Studies was reorganized into the Graduate Studies Program under the direction of the associate vice president for Research and Graduate Studies. In 1997, the unit was renamed School of Graduate Studies.

Until 1972, when the M.A. degree in Rehabilitation Counseling was approved, all programs and courses were designed for teacher preparation and subsequent certification by the South Carolina State Department of Education. Additional variety was added in 1974 with approval of the M.A. program in Speech Pathology and Audiology. Although professional in nature, these new programs brought a renewed emphasis on field inquiry methods in research.

The most rapid period of program growth in the School of Graduate Studies was from 1979 to 1983 when the Master of Science degree programs in Nutritional Sciences, Agribusiness, and Individual and Family Development were approved and the Ed.D. advanced degree program was added. The advent of these research-oriented programs significantly altered the goals and directions of graduate education at South Carolina State University, and they were measurable influences in its advancement to university status.

OBJECTIVES

The purposes of the School of Graduate Studies are as follows:

1. To develop strong and comprehensive graduate programs with the most highly qualified and experienced faculty from the departments offering each program;
2. To recruit, support and graduate South Carolina graduate students of exceptional academic promise and ability;
3. To promote diversity of race, culture, ethnicity, gender and age among faculty and student applicants through vigorous recruitment throughout South Carolina, the nation and the international community;
4. To maintain and seek new professional accreditation standards in all graduate programs;
5. To aid those in disadvantaged communities to attain knowledge useful in improving those communities; and
6. To provide continuing education opportunities and regular graduate courses for area adults and for selected regional populations as needs arise.

College/School: (BAPS) Business & Applied Professional Sciences; (EHSS) Education, Humanities & Social Sciences; (SMET) Science, Mathematics & Engineering Technology
ADMISSION REQUIREMENTS AND PROCEDURES

General. Graduate study is significantly different from undergraduate study, particularly in its focus on independent inquiry and scholarly pursuit of new knowledge in highly specialized fields of study. It is considerably more than a mere continuation of undergraduate study, but successful completion of an undergraduate degree from a regionally accredited college or university is the first minimum requisite for admission to the School of Graduate Studies. Therefore, graduate admission is primarily dependent upon the applicant’s demonstrated ability to pursue academic study, research, and writing at the rigorous level required in advanced study. The Admissions and Retention Committee of the School of Graduate Studies is responsible for reviewing the application file of each applicant for recommendation to the Dean of the School of Graduate Studies admission to “Full” or “Conditional” standing or non-admission. The recommendations of the committee are based on, but not limited to, completeness of required documentation, undergraduate academic record, relevance of past undergraduate and/or graduate study to proposed area of study, English Proficiency Examination, GRE, MAT, Praxis, or GMAT (degrees in business only) test scores, and professional recommendations. Applicants are eligible to register and pursue graduate courses within the limits of their admissions status only after receiving official notification of the recommendation(s) of the committee in a letter signed by the dean of the School of Graduate Studies.

Admission Levels. All applicants for graduate study, regardless of level or category—doctoral, master’s, specialist or non-degree—must first be admitted to the School of Graduate Studies and then into a program of study. This sequenced, two-tiered admissions process must be pursued by each degree-seeking applicant until receipt of two admissions letters—one from Graduate Studies and one from the department where the degree is to be earned. All applications must be submitted formally and in writing on the prescribed forms, and graduate credit cannot be awarded unless the applicant receives a letter of admission signed by the Dean of the School of Graduate Studies. The University reserves the right to deny admission to any applicant who, in the judgment of the Graduate Admissions and Retention Committee or the Dean of the Graduate School, may not benefit from its educational programs or whose presence or conduct may impact negatively on its program.

Admission Standards: Master’s Programs. Each applicant for Full Admission to the School of Graduate Studies for purposes of pursuing any master’s degree program must submit: (a) a completed application form with a written section which clearly and satisfactorily explains the applicant’s career and graduate degree objectives; (b) official transcripts of a baccalaureate degree earned at a regionally accredited institution showing requisite study for the proposed master’s degree program with a cumulative GPA of 2.50 or higher on a 4.00 scale; (c) official Graduate Record Examination (GRE) General Test (Verbal, Quantitative, and Analytical) score reports (Scores at or above the 25th percentile are preferred) (d) two letters of recommendation from professional educators, preferably former professors; and (e) a passing score on the English Proficiency Examination (EPE). Official Miller Analogies Test (MAT) scores may be filed in lieu of the GRE except for applicants to the degree programs in Transportation and Business. The Graduate Management Admission Test (GMAT) is preferred for the M.S. in Agribusiness and the M.B.A. degree programs.

English Requirement. July 1, 1987, a passing score on the English Proficiency Examination became an admission requirement for all master’s-level degree programs. Persons who do not pass the examination must pass the examination on a subsequent administration. A passing score on the English Proficiency Examination is required for admission to any master’s degree program. The examination is scheduled three times per year and announced in the official university calendar. Persons should plan to take the examination at least one full semester before applying for admission.

Note: The EPE requirement may be met by any applicant submitting a GRE Verbal score of 425 or higher (35th percentile) or an MAT score of 394 or higher, which also is at approximately the 35th percentile. An applicant for any master’s degree program may choose this alternative means for meeting the EPE requirement for admission to the School of Graduate Studies before the graduate admissions filing deadlines (see Filing Deadlines). [An applicant who previously earned a master’s degree at an accredited institution may also exempt the EPE.]

Admission Standards: Advanced Programs. Applications for advanced-level degree programs (Ed.D. and Ed.S.) may be submitted once per semester, on or before the deadline, to be considered for admission for the following semester. Standard graduate application forms are available from the School of Graduate Studies. Minimum credentials required are (a) a completed School of Graduate Studies application form, (b) official transcripts of all undergraduate and graduate work, (c) Graduate Record Examination (GRE) General Test or Miller Analogies Test (MAT) scores, and (d) three letters of recommendation from professional educators, preferably former professors. Note: Items (a)—(d) must be submitted directly to the Graduate School on or before the deadline.

An applicant for the Doctor of Education degree program who has submitted (a)—(d) above and meets all the standards below will be admitted to the School of Graduate Studies in full admission status, pending acceptance and approval by the Department of Educational Leadership:

1. A combined Verbal/Quantitative GRE score of 1,000 or a MAT score of 410;
2. A GPA of 3.50 on all previous graduate work; and
3. At least five years’ teaching experience, K-12 supported by a letter from the applicant’s principal or superintendent.

Applicants for the Educational Specialist degree program who have submitted all required credentials will be admitted to the School of Graduate Studies in full admission status if they meet the following minimum standards:

1. A combined Verbal/Quantitative GRE score of 850 or a MAT score of 391;
2. A GPA of 3.25 or higher on all previous graduate work; and

3. Three years’ teaching experience, K—12 supported by a letter from the applicant’s principal or superintendent.

**Standard Admissions Form.** Persons applying for doctor-al, specialist, or master’s-level degree programs use the same School of Graduate Studies application.

**Application Fee.** A non-refundable fee of $25 is required with all applications to the School of Graduate Studies. A cashier’s check or money order should be submitted with each application for admission made payable to “South Carolina State University.”

**Admissions and Retention Committee.** A committee of six persons shall be recommended by the Dean of the School of Graduate Studies to the Graduate Studies Admissions and Retention Committee from graduate faculty who are representative of the various graduate programs. The appointments approved by the Graduate Studies Council shall be for four-year terms with vacancies being filled by immediate recommendation and appointment to four-year terms. The Dean of the School of Graduate Studies shall serve as an ex officio Committee Chair and, is responsible for coordinating and supervising the collection, collation, and referral to the Committee the official application credentials for all degree-seeking students.

**Committee Procedures.** The Graduate Services Coordinator will assemble all completed applications and notify committee members of review sessions called by the Dean of the School of Graduate Studies, as needed, but not less than three times per academic session. Not less than four committee members must review each degree applicant’s file, and a simple majority is needed for approval, disapproval, or “conditional admission.” Individual committee member’s votes are guided by the above minimum standards, with the following recommendations possible:

**Full Admission.** This status is limited to applicants who have applied to work toward a master’s degree and who have provided sufficient evidence of their ability to complete a degree program. Each fully admitted student must follow carefully all sequential steps leading to degree candidacy in order to maintain good standing, the first of which is to apply for admission to the chosen degree program in accordance with that program’s admission requirements. This procedure must be initiated by the student, in writing, within 30 days from the date of the admissions letter to the School of Graduate Studies and not later than 10 days prior to the scheduled registration date for the initial enrollment. Eligibility for Financial Aid is dependent upon prompt receipt of the departmental letter of admission.

**Temporary Non-degree Admission.** Applicants for Full Admission who file the standard application form and official degree transcripts on or before the deadline but are unable to furnish all other required credentials on time may be admitted in non-degree status for one semester only to allow limited additional time to complete their application files. All such Temporary Non-degree students should (a) determine in person when all official credentials have been received by the Graduate Services Coordinator in the Graduate Studies Office and (b) provide a letter of degree intentions to the Graduate Services Coordinator at that time, but no less than 45 days before the end of the first semester enrolled.

**Conditional Admission.** This status is allowed with a recommendation from the Graduate Admissions and Retention Committee when an applicant for a degree program is disapproved for Full Admission but shows good academic potential. Any applicant with a GPA below the minimum 2.50 but who (a) performed well in the last two undergraduate years, and (b) earned a GPA not less than a 2.35, may be considered for “Conditional” status by the Committee. The nature, extent, and number of conditional courses and examinations to be met by each conditional student will be determined by the Graduate Admissions Committee and communicated to each conditional student. Successful completion of all conditions set by the Admissions and Retention Committee is considered the equivalent of an earned undergraduate GPA of 2.50, and the applicant is automatically awarded full admission to the School of Graduate Studies when the final condition is met. All conditions must be met as specified; courses taken in this status must be earned with a B or higher grade; and all conditions must be completed within three consecutive academic sessions unless otherwise specified by the Committee in writing. Failure to meet one or more conditions as specified will result in immediate dismissal from graduate study, subject to appeal to the Graduate Studies Council. Failure on a second attempt to meet a condition or the failure of two or more of the conditions may not be appealed for one full calendar year from the date of dismissal. The Dean of the School of Graduate Studies will serve as advisor for all “conditional” students.

**Non-degree Admission.** This status is provided for non-degree-seeking students who earned bachelor’s degrees from regionally accredited institutions with cumulative undergraduate GPA of 2.35 or higher and who wish to pursue limited graduate study. Non-degree students may pursue an unlimited number of 500- and 600-level graduate courses so long as they maintain good academic standing and otherwise meet any course prerequisites or requirements. If a non-degree student later meets all requirements for admission to a degree program, he or she may apply in writing to the Admissions and Retention Committee. If an applicant with a cumulative undergraduate GPA of less than 2.50 is admitted in non-degree status, he or she must later attain the 2.50 minimum or its equivalent to become eligible for any master’s degree program. In addition, a maximum of 15 semester hours of graduate credit earned in non-degree status may be approved for transfer to any graduate degree program.

**Readmission.** All students in good standing who have not enrolled for one or more semesters, all non-degree students, and all conditional students must file an Application for Readmission with the Graduate School not less than 20 working days before the opening date of registration.

**Filing Deadlines.** All degree applicants are responsible for following the detailed instructions on the Application for Graduate Admission available through the Graduate Admissions Office, School of Graduate Studies, South Carolina State University, Orangeburg, SC 29117. The application for admission and all required credentials must
be submitted to this office, on or before **June 15** for the fall semester, **November 1** for the spring, and **April 1** for the summer sessions.

**Note 1:** For all degree applicants, appropriate **program** application procedures will be provided by individual departments only on the presentation of a copy of the applicant’s letter of Full Admission signed by the Dean of the School of Graduate Studies. Therefore, potential applicants should not request program admission until first being admitted to the School of Graduate Studies in full admission status.

Applicants may not enroll in program courses without next completing the departmental admissions process and receiving a letter of admission to the applicable program, signed by the departmental chair.

**Note 2:** Applications are considered not to have met prescribed deadlines if any supporting credential is not received by the School of Graduate Studies, on or before the deadline dates. Individual applicants are solely responsible for lost time, money, and/or credit resulting from materials mailed to other offices or otherwise lacking the proper address. However, the Graduate Admissions Specialist, available at (803) 536-8419, is happy to assist any applicant inquiring about admissions materials. The School of Graduate Studies Office staff is also available at Room 205, B-Wing, Turner Hall, or 536-7064, to help applicants who need assistance. In all cases, DO NOT direct application materials to individuals or offices. Send **ONLY** to: The School of Graduate Studies, South Carolina State University, Box 7098 - 300 College Street, NE, Orangeburg, SC 29117-0001.

**International Student Admission.** The School of Graduate Studies at South Carolina State University believes that a vital international student population in its graduate programs benefits both U.S. and non-U.S. students and the pro-grams, as well. Therefore, the school is very interested in encouraging qualified applicants from a broad array of other countries and cultures. International students planning to enter the United States on non-immigrant student visas or who wish to transfer from other U.S. institutions are required to meet certain language and financial requirements as well as the same academic standards as U.S. applicants. In meeting these requirements, the international student applicant should write directly to the Dean of the School of Graduate Studies, at least nine months prior to the planned date of enrollment.

For graduates of non-English-speaking universities, a minimum TOEFL (Test of English as a Foreign Language) score of 550 (paper) or 213 (computer-based), GRE General Test Score reports with a verbal score not less than 425, official degree transcripts, a statement of financial support, and all supporting credentials must be received before admission will be granted.

**GENERAL DEGREE REQUIREMENTS**

**Program of Study.** All fully admitted graduate students seeking to earn a master’s degree must submit an approved Program of Study signed by their advisor after completing nine hours of graduate study at South Carolina State University in good academic standing, **i.e., Grade Point Average (GPA) not less than 3.00.** Program of Study forms are available in the School of Graduate Studies.

**Educational Leadership Students.** Persons admitted to either the doctoral or educational specialist program should obtain a current copy of the Department of Educational Leadership **Policies and Procedures Manual** and follow all instructions therein, along with directions published in this catalog and in the **School of Graduate Studies Policies and Procedures Manual.** The latter publication and the current Graduate Catalog are the governing references in case of conflicts in interpretation, scheduled deadlines, program requirements, etc.

**Grading Policies and Required Grade Point Average (GPA).** A student must have a grade-point average of not less than 3.00 in order to be listed as a candidate for graduation. A grade-point average is determined by dividing total quality points earned by total hours pursued at the University, using the standard of 4.00 quality points for each A, 3.00 for each B and 2.00 for each C. Grades of D or F do not accrue quality points. Grades for courses transferred will not be used in computing GPA. Any graduate student who earns less than a 3.00 cumulative GPA for nine or more graduate semester hours pursued will be placed on academic probation. Failure to restore the cumulative GPA to at least 3.00 within nine additional semester hours of graduate work, including repeated hours, will result in academic dismissal from further graduate study. In addition, advanced-level degree students (Ed.S. and Ed.D.) automatically attain dismissal status if they earn more than three Cs in courses at this university.

**Academic Good Standing.** In order to be considered in Academic Good Standing, each graduate student—degree or nondegree, master’s or advanced—is expected to maintain a GPA of no less than 3.0 after completion of the first nine hours of graduate course work at South Carolina State University

**Continuous Enrollment.** All advanced-degree (doctoral or specialist) candidates and master’s-level candidates who have enrolled in the first dissertation/thesis-preparation course must maintain continuous enrollment for each fall and spring semester until the Program of Study is completed. Failure to enroll for at least one semester will result in suspension from the degree program, unless the individual student receives advance written approval to interrupt enrollment from the departmental chair and the Dean of the School of Graduate Studies. In any case, program resumption is not permitted until the student submits to the School of Graduate Studies a receipt for registration fees amounting to the rate of one semester hour for each academic session missed unless the absence was excused in writing in advance.

**Student Load.** A full student load consists of nine to 15 semester hours during regular semesters and nine to 12 for summer sessions. Registration for more than 12 semester hours for a summer session or for more than 15 semester hours for a regular semester must be approved in writing by the student’s advisor and the Dean of the School of Graduate Studies. Student load for students working as graduate assistants is defined as not less than 6 hours for regular semesters and not less than 3 hours for each summer session.

**Residence Requirements.** The minimum residence requirement for master’s degree candidates is two full academic semesters of approximately 18 weeks, each with a full student load, or three summer school sessions each with a full load. The residence requirement for
Comprehensive Examinations. Comprehensive written examinations must be passed by the approved degree candidate. The professional examination is designed to measure accomplishment of content objectives from the 3-4 professional area courses for M.Ed. candidates only. Subject-matter examinations are designed to measure content objectives for all master’s degree programs. The Dean of School of Graduate Studies will designate one filing and one examination date in each semester and summer term for both comprehensive examinations. Each student has a maximum of three opportunities to pass each examination. Since failure of an examination implies needed preparation, sitting at the next regularly scheduled administration is the earliest possible reexamination. Special administration of any comprehensive examination is possible only under the direst of circumstances involving documented hardship(s) which preclude regular sitting. Since the examinations are offered on a regularly scheduled basis, once per academic session, justification of such hardships must necessarily be thorough and exacting.

Cancellation of a scheduled comprehensive examination by the student or simple failure to report for a scheduled examination does not affect the student’s record negatively, but does require rescheduling.

1) Professional Comprehensive Examination. To be eligible to take this examination, applicants must be approved degree candidates in academic good standing who have completed, or are enrolled in, their last professional course(s).

2) Subject-Matter Comprehensive Examination. To be eligible to take this examination, applicants must be approved degree candidates in academic good standing who have completed or are enrolled in their last required subject-matter course(s).

Time Limits for Completing Requirements for Degree. All required course work and comprehensive examinations for the master’s degree must be completed within six years. Any required course that has been completed beyond six years must be repeated or revalidated before the degree will be conferred. Doctoral and Educational Specialists candidates must complete all requirements within eight years of admission to either degree program.

Course Revalidation. Regular graduate students enrolled in South Carolina State University degree programs may revalidate an over-age course taken at the University or taken at another university and approved for transfer credit toward a degree by securing written permission to revalidate the course through examination. The student’s program advisor, the departmental chair responsible for the course to be revalidated, and the Dean of the School of Graduate Studies must provide their written approval or disapproval on a form secured by the student from the School of Graduate Studies. A non-refundable fee of $15 for each course to be revalidated is required before administration of an examination. The nature and content of the revalidation examination in each case will be determined by the departmental chair concerned, with concurrence by the Dean of the School of Graduate Studies. Failure of the revalidation examination leaves successful repeat-ing of the entire course the only remaining alternative for revalidation of over-age courses.

Application for Graduation. Graduate students who have completed all other degree requirements may choose either of three periods during the academic year to file for graduation, with filing deadlines for each provided in the University Calendar. Diplomas and academic caps and gowns will be ordered for each applicant, based on information furnished on the form. Failure to clear for graduation will require reapplication and payment of another fee for the next subsequent convocation. Application forms are available only through the Office of Records and Registration. Application for Graduation is a university degree requirement and is not considered completed until the fee is paid and the form is returned to Records and Registration. Since filing is a degree requirement, failure to file in a timely manner may affect clearance eligibility.

Graduate Student Exit Survey. Each applicant for clear-ance to graduate is required to apply in person at the School of Graduate Studies (Room 205, B-Wing, Turner Hall) for a copy of the Graduate Student Exit Survey and to complete and return this extremely important evaluation document to the School of Graduate Studies not less than fifteen calendar days from the scheduled date for degree completion. Completion of the Exit Survey is a “degree requirement” as described in the section above entitled Application for Graduation and else-where under the major section General Degree Requirements.

Checklist for Degree Aspirants. Since the course work for any degree is absorbing and distracting from the more mundane, but necessary, regulations and deadlines needed to provide organization and order, the following checklist is provided to help each degree-seeking graduate student more easily avoid frustration and delay:

1. Gain a Full Admission status letter signed by the Dean of the School of Graduate Studies (a) before the end of the first session of enrollment or (b) before earning 15 hours of graduate credit in nondegree status.

2. Secure a letter of admission to the degree program from the program chair within 30 days of Full Admission to the Graduate Studies program.

3. Schedule a meeting with your assigned official advisor immediately upon receiving the letter of admission.

4. Maintain academic good standing.

5. Study the University Calendar and anticipate all filing deadlines.

6. File a Program of Study (P.O.S) through your official advisor immediately after earning the first nine semester hours (after passing the Comprehensive Examination for Ed.D. and Ed.S. degrees).

7. Schedule and pass the comprehensive examination(s).

8. Complete the approved P.O.S. and all other degree requirements before expiration of the six-year time limit (eight years for Ed.S. and Ed.D.).

9. Submit a completed thesis, if required in the P.O.S., or dis-sertation (Ed.D. only) to the committee chair well before Ready for Binding deadlines.
10. Schedule the oral thesis or dissertation defense at least 14 days before the Ready for Binding deadline.

11. File for graduation and pay appropriate fees before the posted deadline during the semester in which graduation is planned.

12. Submit the Ready for Binding thesis or dissertation copies on or before the posted deadline.

ACADEMIC REGULATIONS

General. These academic regulations are designed to assist each student with problems of a special or one-time nature. Although University policy stresses that graduate students are responsible, capable adults, the intent is to provide collaborative, cooperative support from advisors and faculty with a greater experience base. New graduate students would be wise to review these and all other requirements with their advisors early in the program after a reasonable scan of this Graduate Catalog. Policies not specifically addressed in this document will be handled in accordance with the policies in the undergraduate student handbook.

Student Responsibility. Graduate students are responsible for the proper and timely completion of all requirements of their degree programs and for satisfying the general regulations of the University and the School of Graduate Studies as stated in this Catalog and other official publications of the University. To assist the student in meeting this responsibility, the University provides individual copies of the catalog through the School of Graduate Studies. In addition, degree-seeking students will be assigned an academic advisor by the departmental chair who administers their degree program. The advisor will assist the student in understanding degree requirements, program planning, sequencing, scheduling, registration, etc.; however, the student has final responsibility for fulfilling all degree requirements.

The Dean of the School of Graduate Studies will serve as advisor for all “Conditional” and certain “Nondegree” students. Only the official advisor is authorized to sign course request forms and other required registration materials. Violations of this policy will result in delay and possible cancellation of enrollment. All requests and appeals from individual students should be executed in written form, from the student, with any needed documentation attached, and provided to the responsible school official (advisor, dean, etc.). Oral agreements are unofficial and will not be accepted as bases for official actions. Note: Deadlines for filing for examinations, clearances, etc., will be posted prominently on the bulletin boards adjacent to the School of Graduate Studies, and students are responsible for complying with them.

Enrollment in Graduate Courses. Admission to graduate courses is always subject to approval by individual departments and the Dean of Graduate Studies. Undergraduate students may not enroll in graduate courses without the permission of their advisor and the Graduate Dean. Courses may be used to meet the requirement for the bachelor’s degree; however, they may not be counted later toward any advanced degrees at the University.

Thesis and Dissertation Requirement. (a) All candidates for the Doctor of Education (Ed.D.) degree must submit and defend a dissertation in the field of educational administration that exhibits evidence of scholarship in accordance with the Educational Leadership Policies and Procedures Manual. (b) All candidates for the M.S. and M.A. degrees who elect the thesis option are required to present an acceptable thesis on a subject germane to the major field of study. In fulfilling this requirement, students will enroll in both thesis preparation courses (600 and 601, prefixed according to the department in which the degree program is housed), in lieu of six semester hours of elective course work from the non-thesis curriculum. Prior to enrolling in the thesis courses, candidates should discuss their chosen topics with the chair of their subject-matter area who will appoint the thesis committee chair and at least two other persons in the department as committee members. Approval of thesis topic, outline, and committee by the departmental chair and the Dean of the School of Graduate Studies constitutes permission for the student to enroll in three to six semester hours of thesis preparation course work. The School of Graduate Studies will furnish general thesis regulations to students when their thesis topic and outline are approved. To complete graduation requirements, including a thesis, students must submit the final draft of the thesis to their committee chair not less than 60 days prior to the end of the academic session in which they are enrolled. On receipt of three copies of the final (corrected) copy signed by all committee members and a paid receipt for binding costs, the Dean of the School of Graduate Studies will clear the student for the thesis portion of the degree requirements. Both doctoral and master’s degree candidates are cautioned to comply strictly with the Ready for Binding Deadlines below.

Defense of Thesis or Dissertation. All candidates for degrees requiring a thesis or dissertation are also required to make oral defense of their research report before their officially assigned committee in a public forum. To permit arrangement of limited space for attendance by other interested scholars, committee chairs are required to make written notice to the Dean of the School of Graduate Studies at least fourteen days in advance of a scheduled defense along with two copies of the thesis or dissertation.

Thesis and Dissertation Guidelines. The basic guideline for student use in preparing research reports for binding is the School of Graduate Studies publication General Requirements for Master’s Theses and Doctoral Dissertation. Copies are available from the Graduate School. In addition, all research reports must follow the stylistic guidelines set forth in the Publication Manual of the American Psychological Association, Fourth Edition. Copies are available for purchase from the Campus Bookstore.

Ready for Binding Deadlines. Final corrected, approved, signed, copied, and collated copies of each thesis or dissertation must be delivered in person by the degree candidate to the School of Graduate Studies in clearly identifiable envelopes on or before the publicized deadlines to be eligible for degree completion during the May, July, or December cycles, respectively:

- March 31—May cycle
- July 1—July cycle
- November 1—December cycle
Submission after these deadlines will automatically advance to the next subsequent clearing cycle and the candidate will be notified to re-file for the next graduation cycle. To avoid disappointment, all degree candidates and their committee chairs are requested to schedule defenses at least three full weeks prior to the above deadlines to allow final reading, editing, correcting, and packaging.

Transfer of Credit. Requests for transfer of graduate credit earned at other institutions must be initiated by the student concerned as part of the application for a Program of Study (P.O.S). A maximum of 12 semester hours of graduate credit may be transferred by candidates for any master’s degree as electives or for required courses subject to the review and approval of the student’s advisor, departmental chair, and the Dean of the School of Graduate Studies. Of the twelve hours, no more than three semester hours in the Subject-Matter, Pro-fessional Core, or Cognate for the M.Ed.; or Subject-Matter courses for the M.A. or MS, programs may be approved. The same limits apply to inter-program transfer of credit (i.e., from one State University program to another). Transferred credit hours must not reduce the minimum residence period of two full academic terms and are subject to the time limit requirements for the degree. Only courses passed with a B or higher from regionally accredited institutions are acceptable for transfer. All transferred credits are subject to the time limits of the school.

Course Substitution Requirements. Any substitution of a course and/or other requirements of the School of Graduate Studies or of any graduate program must be requested in writing by the student and approved by the student’s advisor, the departmental chair, the Dean of the School of Graduate Studies, and the Vice President for Academic Affairs. The approval of a substitution will be subject to careful review at each approval level to ensure program integrity, course equivalence, compliance with accreditation standards and certification requirements.

Transient Credit. After acceptance into a graduate degree program at South Carolina State University, a student may earn credit toward that degree at another institution only under the following conditions: (a) each course must be approved in advance and in writing by the advisor, the departmental chair, and the Dean of the School of Graduate Studies; (b) courses the same as or equivalent to courses previously taken at South Carolina State University are not acceptable for transfer; and (c) each course transferred must be passed with a B or higher grade. The student wishing to take a course in transient status is responsible to ensure that the other institution is regionally accredited; to secure the Transient Application Form from the Graduate Office; and to hand-carry the form through all approving offices. Each student is cautioned to make all necessary arrangements with the granting institution in advance, and to ensure that the latter provides an official transcript of credit earned to the School of Graduate Studies. Transient courses to be counted toward the degree should be scheduled for completion at least one full semester before the final semester of graduation to avoid delay in clearance for graduation. Most institutions are unable to provide the required official transcript before the May or December convocation dates at South Carolina State University. Therefore, if the course is taken during the spring or fall semester, clearance to graduate may not be possible.

Note: If a course to be taken in transient status is intended as a substitute for a required course, the student and advisor must also ensure compliance with the Course Substitution Requirements.

Directed Independent Study. A degree-seeking fully admitted student desiring to meet the requirements for a particular graduate course by means other than scheduled class procedures may submit a written application for Directed Independent Study (DIS) through the instructor and departmental chair and the Dean of the School of Graduate Studies, providing necessary details and documentation to justify the request. As a minimum, the student should (a) establish that a genuine hardship would arise if the DIS were not approved, (b) document past scheduling conflicts which prevented regular scheduling of the course, (c) have earned no more than three semester hours for degree credit through DIS, (d) be in academic good standing, and (e) be enrolled concurrently in no other DIS course. Upon approval of a DIS application, the instructor and student will file in the School of Graduate Studies a written contract, signed by them clearly delineating the conditions, requirements, expectations, course objectives, grading standards, and task completion deadlines. DIS is an unusual process designed to meet the Graduate School as well as student needs and will be approved only after careful review of other alternatives. Except in instances where DIS is necessary because of the cancellation of a course by the University after registration has begun, all requests for DIS must be filed with the Dean of the School of Graduate Studies, complete with all required signatures and details, no less than three working days before the first day of scheduled registration.

Credit For Portfolio-Based Experiences. The University does not award graduate credit for any portfolio-based learning which occurs prior to matriculation at the institution.

Teacher Certification Requirements. Requirements for teacher certification are set by individual State Departments of Education (SDE) and other agencies and are not always the same as the M.A.T. and M.Ed. degree requirements as outlined in this catalog. Admission to the Master of Education programs in elementary, secondary, and special education requires that the applicant already hold a teaching certificate at the baccalaureate level. The M.Ed. program in Counselor Education does not require undergraduate teacher certification, but completion of this program or any of the other three MEd programs meets the South Carolina Department of Education requirements for an advanced-level teaching certificate. The MAT degree program meets all of the requirements for initial certification in the specified options. Other students who plan to seek teacher certification should consult with the appropriate division of the state Department of Education in their state(s) at a very early point in program planning.

Right of Appeal. Any decision or action by an instructor or administrator which is believed by students to be prejudicial to their progress in completing graduate degree or course requirements may be appealed, in writing, to the Graduate Student Appeals Committee, and students may choose to appear before the Committee when it deliberates their cases. Any graduate student dismissed for academic reasons may also petition the Appeals Committee. In addition, an academically dismissed student may apply for readmission for a dif-
different program of study after six calendar months or for the same program after 12 calendar months from the date of dismissal. Only courses with a grade of B or higher may be counted for degree credit in any new program. In all appellate cases, the student is responsible for the clarity, accuracy, and applicability of all information and materials presented to the Committee. Undocumented assertions, uncorroborated accusa-tions, and appeals of an essentially emotional nature for appellate action will be returned without action as incomplete, unwarranted, or frivolous. Written appeal must be received by the Graduate Student Appeals Committee within 30 calendar days of the official notification date of the matter subject to appeal, except as noted above for applications for a different degree program. Meeting of the Graduate Studies Council or other action indicated by the appeal must be taken up by the next regularly scheduled Council meeting, but in no case will be sooner than 10, nor greater than 60, calendar days from the official date of receipt of the appeal. Written petitions and all supporting documents should be addressed to Chair, Graduate Student Appeals Committee, South Carolina State University, P.O. Box 7098 - 300 College Street, NE, Orangeburg, SC 29117-0001.

EDUCATIONAL TECHNOLOGY SERVICES

Except for the Ed.S. and Ed.D. degree courses, the Department, in consultation with the Graduate School, is responsible for planning and administering all South Carolina State University courses offered to audiences at sites away from the main campus to include graduate courses. Graduate faculty and administrators are encouraged to discuss departmental capabilities with school districts, private industry, and other potential planners for service, but the Educational Technology Services should be a part of early planning and must be involved in the approval process. This is facilitated by the off-campus course request form, which must be requested from the Educational Technology Services, 30 days before the planned delivery of services. Approval signatures of the departmental chair, dean of the college, Interim Director for Educational Technology Services, Dean of the School of Graduate Studies, and the Vice President for Academic Affairs must be obtained.

The Department also provides comprehensive educational experiences that enhance the quality of life, empower individuals and organizations, and improve professional practices. Using traditional outreach methods and the latest technology, the Department is prepared to provide its constituents with anytime, anywhere learning experiences. For both nontraditional and traditional students, the Department arranges for course delivery on and off the main campus, and delivers a wide range of courses in the evening and on weekends.

Special Topics Courses. In order to meet the graduate study needs of the public schools, other agencies, and private industry, the School of Graduate Studies is called on to develop substantive graduate study experiences which are not included in regular graduate course offerings. These courses are designated with the appropriate departmental prefix and the number 699 (or 799 for Educational Leadership special courses). Normally, the course title and syllabus for a special-topics course are used one time only, with the Office for Adult and Continuing Education responsible for maintaining record copies of course syllabi and titles. Any department needing to offer a special-topics course should contact the Office of Adult and Continuing Education for information, procedures, and approval forms. Note: Special topics courses may not be used as substitutions for required courses, but as many as six semester hours may be used as electives if approved by the advisor and department.

Distance Education. Distance Education is a means by which South Carolina State University extends its resources in the areas of instruction, research, and service to the citizens of the state of South Carolina. A number of technological vehicles have been employed to deliver educational information. Students may enroll in courses taught via compressed video, satellite, the Internet, videotape, and multiplatform delivery.

There are no qualitative distinctions among credit courses that are transmitted using various modes of technology. Issues that relate to academic credit, transferability of course credit, and the evaluation of course effectiveness are based on the characteristics of the course itself. The University engages in collaborative efforts with other four-year and two-year institutions of higher learning, with public school districts, with the business community, and with state and private agencies. Currently, South Carolina State University offers the Master of Education degree, which incorporates National Board Certification Standards, and other graduate courses that meet professional development, certification, recertification, and licensure requirements.

FINANCIAL AID

NOTE: Conditional and any other Nondegree students are ineligible for all forms of financial aid.

Graduate Assistantships. The graduate assistantship program is designed to:

1. Provide full-time degree-seeking graduate students with an opportunity for academic growth and development; and
2. Provide financial assistance to the best qualified degree-seeking full-time graduate students to facilitate their academic pursuits.

Eligibility Requirements. To be eligible for a graduate assistantship, new graduate students must be fully admitted (as opposed to conditionally admitted) to the Graduate School. For continuing graduate students, the student applicant must be in academic good standing. All graduate assistants must be enrolled in at least six semester hours during the fall and spring semesters and three semester hours during each term of the summer session. All exceptions to the above eligibility requirements must have the written approval of the Dean of the School of Graduate Studies.

Students receiving federal financial aid cannot receive support from the Graduate Assistantship Program in excess of their “unmet need” as established through the Financial Aid Office.

Application Procedures. Completed assistantship applications, available in the School of Graduate Studies, must be submitted to the departmental chair in whose department the student wishes to work. Applications will be returned to the requesting supervisor if the applicant fails to meet the above eligibility requirements.
**Fellowships/Scholarships.** Limited research fellowships and scholarships are available through the School of Graduate Studies for students who demonstrate outstanding academic potential. Among these are the Graduate Incentive Scholarship, targeted for white scholars, as minorities on this campus, and as part of the state’s higher education Access and Equity Plan. The degree programs with fellowships and scholarships vary from year to year. Interested scholars should direct inquiries to the Dean of the School of Graduate Studies, who serves as Graduate Fellowship/Scholarship Director.

**Other Financial Aid.** Traditional financial aid in the form of loans, student work-study jobs, and other assistance is available for graduate students admitted to a degree program, enrolled full-time, and in academic good standing, by timely application to the Director of Financial Aid. Student work-study jobs, and other assistance is available for graduate students as voting members of the Graduate Studies Council. The names of student representatives and other assistance for graduate students are available in the Graduate Office.

**South Carolina Teacher Loans.** To entice talented and qualified students into the teaching profession, the state of South Carolina has made available a loan program to assist with college expenses which can be cancelled by teaching in South Carolina public schools in an area of critical need. Interested persons may pick up the forms and information from the Financial Aid Office.

**Graduate Student Personnel Services.** Most of the services provided to undergraduate students, such as health care, placement, financial aid, student organizations, etc., are available to graduate students through the same offices and/or agencies described in the Undergraduate Catalog. In addition, four graduate students are annually elected by their peers to represent all of the degree program students as voting members of the Graduate Studies Council. The names of student representatives and other assistance for graduate students seeking information regarding a particular student personnel service are available in the Graduate Office.

**Identification.** Graduate students enrolled full-time are provided an identification card which must be presented for the library, health center, and other services. Part-time students do not receive an identification card and must present a copy of their fee assessment sheet for the current semester when identification is required.

**REGISTRATION, FEES, AND EXPENSES**

**Enrollment.** All graduate students, whether full-time or part-time, must register in person on registration dates designated. A Schedule of Classes and Campus Guide will be available at the time of registration, but may be acquired in advance by calling (803) 536-8175 or 536-7064. The Schedule contains complete and up-to-date information for enrollment, registration, fees, the University Calendar, and other items of policy and procedure extracted from this Catalog in a convenient format. Timely procurement and careful attention to its simple instructions are essential to a smooth and orderly registration.

**Registration.** No person will be allowed to register for graduate study unless formal admission has been granted. Every person who has been formally admitted will have received notice of the status of her or his admission and the name of her or his official advisor. To register properly, newly admitted persons should allow sufficient time to contact the advisor, schedule an office visit, and secure the advisor’s signature on a University course request form. No other University faculty or administrator should be requested to provide this advisor only signature. (The Dean of the School of Graduate Studies is authorized to temporarily “sign for” the official advisor but only in genuine emergencies during the scheduled day of registration.)

**Late Registration.** Students unable to initiate advance and registration during the scheduled date(s) of registration may complete all necessary procedures during the scheduled late registration period. Late registrants will be assessed an additional $100 late fee. Persons seeking initial admission and enrollment after the admission deadlines should expect (a) to register during the dates and times scheduled for late registration and (b) to pay the late fee.

**Semester Fees and Expenses.** All fees and expenses must be paid in full at the beginning of the semester (or summer session) as a condition of admission to classes. Only money orders and cashier or certified checks are acceptable in payment for any University expenses.

**Refund Policy.** Refunds of overpayments for any reason will be made after the first 30 working days following the first day of class. All Financial Aid/scholarships must be received at the University before any refunds are made. Where payment was not actually made, but credit was granted based upon anticipated financial aid or income, no refunds will be made until all anticipated financial aid or income is received by the University.

**Refund of charges will be made as follows:**

**General Academic Fee (College and Tuition) Refunds**—In the event of withdrawal from the University, reduction of course load, or withdrawal from courses, refunds may be granted to students in accordance with refund schedule on file in the Office of Accounts Receivable, Basement of Wilkinson Hall. Academic refunds are prorated on the basis of the following schedule for fall and spring semesters:

<table>
<thead>
<tr>
<th>OFFICIAL WITHDRAWAL DATE</th>
<th>Percentage of Refund</th>
</tr>
</thead>
<tbody>
<tr>
<td>Before end of 1st week of classes</td>
<td>100%</td>
</tr>
<tr>
<td>Before end of 2nd week of classes</td>
<td>75%</td>
</tr>
<tr>
<td>Before end of 3rd week of classes</td>
<td>50%</td>
</tr>
<tr>
<td>Before end of 4th week of classes</td>
<td>25%</td>
</tr>
</tbody>
</table>

After the third week of classes, students withdrawing from the University under disciplinary action are ineligible for a refund.

**Laboratory Fees are Nonrefundable**—Tuition charges paid from grants or loans are restored to those funds on the same prorated basis.

**Board**—A prorated portion of the fees paid for board will be refundable if a student officially withdraws from school. Refunds will not be made for periods of less than one week.

**Room Rent**—Refundable only upon written approval of the Vice President for Student Affairs. Such written request must be received prior to August 1, for the first semester or December 1 for the second semester.
Room Deposit—Refundable only if the University is unable to assign housing.

Medical Withdrawals—Students withdrawing for medical reasons during the first fourteen calendar days after the first day of class will be granted a full refund. Withdrawals on the fifteenth day and thereafter will be based on the above refund policy.

Application Fee—Not refundable

Acceptance Fee—Not refundable

Other Fees—Not refundable, except in the instances where it can be shown that an error in such charges occurred. (Fees paid for traffic violations, library fines, athletic equipment, etc. are not refundable.)

Process of Refunds—Refunds due are computed from the date of official withdrawal from the University, official reduction of course load, official withdrawal from courses, or official withdrawal from housing. No refund due is guaranteed until 30 days after the first day of classes each term.

Note: The fees and expenses listed in this catalog are those in effect at the time of publication. They are subject to change at any time by action of the South Carolina State University Board of Trustees or the South Carolina Legislature.

University Fee and Tuition—Refundable only if a student withdraws within 14 calendar days after the first day of class, except for the sum of $10 to cover the cost of enrollment. On the 15th day following the first day of class, all fees are considered earned and no refunds will be made. Students withdrawing from the University under disciplinary action are ineligible for a refund.

Note: These charges are basic for full-time students and do not include books and other necessary charges graduation, etc., which must be determined on an individual basis.

Overload

All students officially enrolled in 12 hours or more (to include credit by exam, cross registration, audit, etc.) will be required to pay per credit hour for all hours in excess of 12 hours at the in-state/out-of-state rate.

The above fees are applicable beginning August 2005, for the 2005-2006 academic year.

Withdrawal from Classes. Withdrawal from graduate coursework follows the general policy of the University. During the first week of the semester on designated days for registration changes, a student may withdraw from a course according to procedures outlined in the current Schedule of Classes and Campus Guide. From the first through the fourth week of the semester, a student withdrawing from a course will receive a grade of W (withdrawn). Withdrawal from a class after the fourth week of the semester will be accepted only when there are extenuating circumstances such as illness (supported by a physician’s statement) or death in the immediate family. A grade of WF or WF will be awarded by the instructor for courses withdrawn after the fourth week, but before the last six weeks of a semester depending upon the individual student’s grade at the time of withdrawal. A grade of WF is awarded for any course dropped during the final six weeks.

The student who contemplates withdrawing from a course should discuss the situation with the instructor and with the advisor. Having done this, if the student still wishes to withdraw, he or she should proceed as directed in the current Schedule of Classes and Campus Guide and submit the Request for Honorable Withdrawal Form obtainable at the Office of Records and Registration in Wilkinson Hall. Grades of UF will be awarded for courses from which a student withdraws without proper permission. UF and WF grades affect academic good standing in the same way as a final grade of F in a completed course.

POLICIES AND PROCEDURES MANUAL

All graduate programs at South Carolina State University are administered by the Dean of the School of Graduate Studies through the chairs of the departments and deans of the colleges in which the programs are housed. Policies and procedures to facilitate that administration are detailed in the Graduate School Policies and Procedures Manual, as approved by the Graduate Studies Council and the University. Any questions which arise out of differences in interpretation or of actual content are governed by the Policies and Procedures Manual. Deviations from policy requirements not permitted by the latter may be petitioned in writing by students or faculty to the Graduate Studies Council.

ENGLISH FLUENCY POLICY

In order to “ensure that the instructional faculty whose second language is English possess adequate proficiency in both the written and spoken English language,” South Carolina State University has taken the following actions:

A. Amended the Recruitment and Selection of Faculty Policy (see Faculty Handbook). Section Six now contains the following statements:

“In the event the candidate is a foreign national, student and/or staff must be included in the interview process. Students/staff will be asked to assess the candidates proficiency in oral communication. In addition,
the candidate will be asked to write a short essay on a subject to be determined by the department chair. The chair and the dean shall evaluate the writing sample which is to be submitted along with the employment checklist.

B. Modified the course evaluation form, which is used by all students to evaluate all courses in which they are enrolled, to include a question pertaining to each instructors proficiency in oral communications. Chairs will then identify problem areas and counsel faculty with communicative difficulties to take advantage of the Universitys language remediation opportunities.

C. Established an English Fluency Grievance Procedure. The English Fluency Grievance Procedure is designed to provide a remedy for students who enroll in classes instructed by faculty with excessive English language difficulties.

Procedures

1. Any student who feels that he/she is unable to understand the spoken English of a particular instructor may petition in writing the dean of the College in which the instructor works to convene an Ad Hoc English Fluency Grievance Committee for the purpose of investigating the students complaint.

2. Such a petition must be filed by the end of the third week of classes.

3. The dean may do a preliminary investigation and attempt to address the complaint informally.

4. If this does not result in a satisfactory resolution to the student, the dean shall convene the Committee. The Committee shall be comprised of three faculty members from the college involved, three undergraduate students from the same college and one Speech Art faculty member.

5. The Committee shall conduct an investigation/hearing to determine the instructors relative proficiency in oral communication. This investigation may include audio/video tapes of the instructors class.

6. By majority voice, the committee shall communicate its findings and recommendations to the dean of the College implementation.

7. Should the Committee recommend some type of language remediation for the instructor, the dean should arrange for such remediation with the chair of the Department of Communications and Languages who shall be responsible for developing and coordinating all “English as a Second Language” remediation.

8. “English as a Second Language Remediation” strategies/opportunities are more fully addressed in the Faculty Handbook.

</table>
The Department of Educational Leadership offers two (2) degree programs in educational administration: the Educational Specialist (Ed.S.) degree and the Doctor of Education (Ed.D.) degree. The programs were implemented at South Carolina State University in August 1983 and strive to produce graduates who possess the knowledge, skills and dispositions required to produce and maintain high academic achievement in the public schools through effective performance, reflective decision-making and humanistic practice.

In June 1986, the South Carolina Department of Education, using standards developed by the National Association of State Directors of Teacher Education and Certification (NASDTEC), approved the Ed.S. and the Ed.D. degree programs for granting elementary and secondary principal and superintendent certification. In December 1986, the Southern Association for Colleges and Schools (SACS) granted Level IV accreditation to South Carolina State University because of the quality of the Ed.D. degree program in Educational Administration.

The Ed.S. degree program of study requires a minimum of 45 semester hours of graduate study beyond the masters degree to complete requirements for the degree as well as principal and superintendent certification.

The Ed.D. degree program of study is designed to give students a broad conceptual framework in leadership theory and research. The program requires a minimum of 75 semester hours of coursework beyond the masters degree to qualify for principal and superintendent certification in South Carolina. All students admitted into the Ed.D. degree program with an Ed.S. degree in educational administration and principal and superintendent certification are required to complete a minimum of 30 semester hours at South Carolina State University.

ADMISSION REGULATIONS

Applications for advanced-level degree programs (Ed.D. and Ed.S.) may be submitted once per semester, on or before the deadline, to be considered for admission for the following semester. The deadlines are: April 1 (for Fall Semester admission) and November 1 (for Spring Semester admission). Standard graduate application forms are available from the School of Graduate Studies and online at www.scsu.edu. Minimum credentials required are (a) a completed School of Graduate Studies application form, (b) an up-to-date resume, (c) official transcripts of all undergraduate and graduate work, (d) Graduate Record Examination (GRE) General Test or Miller Analogies Test (MAT) scores, (e) three letters of recommendation from professional educators and (f) a copy of a valid teaching certificate. Note: Items (a)(f) must be submitted directly to the School of Graduate Studies on or before the deadline.

ELIGIBILITY REQUIREMENTS FOR ED.D. DEGREE APPLICANTS

Applicants must satisfy the following requirements to be eligible for admission to the Ed.D. degree program:

- Score a minimum of 1000 on the GRE verbal and quantitative sections or 1,500 on the GRE verbal, quantitative and analytic sections; or 50 on the MAT.
- Present evidence of a 3.50 or better grade point average (on a 4.0 grading system) for all graduate work completed.
- Present evidence of a minimum of five (5) years certified contractual teaching experience.
- Complete an interview and writing examination.

Satisfaction of the requirements listed above does not guarantee admission to the program. Only a limited number of places exist in the Ed.D. degree program, and selection is competitive. Admission is based on the faculty's assessment of each applicant's potential for success in the program considering the criteria and the number of available positions.

DEGREE REQUIREMENTS

Students must meet the following requirements to receive the Ed.S. degree in educational administration:

Program of Study A completed program of study form must be submitted in the first semester after admission. The form must be approved and signed by all program advisory committee members, the Chairperson of the Department of Educational Leadership and the Dean of the School of Graduate Studies. The form must include all courses to be completed as part of the program.

Grade Requirements The student must earn a grade point average of 3.0 or better on all courses in the students approved program of study.

Time Limitation All courses listed on the program of study form must be completed within six (6) years from the date of graduation from the program.

Residency Requirement Students must be in residence for a combination of two regular academic semesters and/or summer sessions. This requirement is normally satisfied by enrollment in the one Hilton Head seminar session.

Students must meet the following requirements to receive the Ed.D. degree in educational administration:

Program of Study A completed program of study form must be submitted in the first semester after admission. The form must be approved and signed by all program advisory committee members, the
Chairperson of the Department of Educational Leadership and the Dean of the School of Graduate Studies. The form must include all courses to be completed as part of the doctoral program.

**Grade Requirements**  The student must earn a grade point average of 3.0 or better on all courses in the students approved program of study.

**Time Limitation**  All courses listed on the program of study form must be completed within eight years from the date of graduation from the program. Students who do not remain in continuous enrollment after reaching the dissertation phase will be dropped from the program.

**Residency Requirement**  Students in the Ed.D. degree program must be in residence for a combination of three regular academic semesters and/or summer sessions. This requirement is normally satisfied by enrollment in the two Hilton Head seminar sessions.

**Doctoral Committees**  With the assistance of the major advisor, students in the Ed.D. degree program must appoint two committees which assist in the supervision and examination of program completion requirements. These committees include:

- A Program Advisory Committee, consisting of three or more members, including the major professor and a qualified member from outside the educational leadership department. This committee approves the students program of study and administers the written and oral portions of the comprehensive examination.

- A Dissertation Committee, consisting of three or more members, at least one of whom must be from outside the educational leadership department. This committee approves the students research proposal, reviews the dissertation and administers the oral defense of the research study.

**Comprehensive Examination**  The purpose of the comprehensive examination is to assess the students knowledge of the coursework in his/her program of study. The examination includes a written portion that requires nine (9) hours over two (2) days and an oral portion. The examination is usually administered during the students final semester of coursework. The oral portion is administered only after the student has successfully completed the written portion. Grades assigned are “Pass” or “Fail”. In the event a student fails the examination, the student may request one additional opportunity to retake the examination.

**Dissertation**  Every candidate for the Ed.D. must successfully complete and defend a dissertation. Prior to preparing the dissertation, a proposal must be written, presented to, and approved by, the students dissertation committee. Dissertations must meet all requirements established by the School of Graduate Studies. Once completed, the dissertation must be presented to, and approved by, the students dissertation committee.

### PROGRAMS OF STUDY

The programs of study illustrated below reflect requirements for both the respective degree and level of administrator certification.

**Ed.S. Degree Program of Study (For students who have a masters degree and no administrative certification. This program leads to principal and superintendent certification.)**

MASTER’S DEGREE
PROGRAMS OF STUDY

MASTER OF ARTS

The Master of Arts (M.A.) degree is offered in two areas of study: Rehabilitation Counseling and Speech Pathology and Audiology. The minimum hours are as prescribed on the following pages, with a total of 48 semester hours required for Rehabilitation Counseling and 36 for Speech Pathology and Audiology. Substitution of any required course must be approved prior to enrollment in the course or as a transfer credit.

REHABILITATION COUNSELING

The Rehabilitation Counseling Program is fully accredited by the Council on Rehabilitation Education (CORE) and implements its curriculum in accordance with these standards. The curriculum emphasizes the development of strong counseling skills as well as the acquisition of a broad spectrum of information needed to assist persons with severe disabilities in reaching their full potential.

Mission

The mission of the Rehabilitation Counseling Program is to train effective rehabilitation counselors who can function effectively as counselors and service coordinator/consultants for persons with disabilities. These two complementary functions must be performed effectively with persons who present a wide variety of disabling conditions, treatment and/or training needs and vocational goals. The functions must be performed effectively within a full spectrum of differences with regard to age, culture, ethnicity, race and gender. In keeping with this mission, there are certain core beliefs that guide the RCP at South Carolina State University: 1. We believe that the option to work should be available to every adult including persons with disabilities. 2. We believe that the option to work takes many forms and is shaped by many forces. In today’s technology driven, pluralistic society, the profession of rehabilitation counseling must be constantly alert to assure that equality of opportunity to pursue work of their choice if always available to persons with disabilities. 3. We believe that the RCP at South Carolina State University has a special contribution to make to the profession of rehabilitation counseling in the area of training African American rehabilitation counselors to function effectively in a multicultural, pluralistic society and to serve as resource persons as majority race rehabilitation counselors struggle to come to terms with new and emerging pluralistic equations.

Objectives

The Rehabilitation Counselor Program seeks to develop skills in its students that will enable them to:

a. Offer comprehensive, goal-directed and effective rehabilitation counseling services to individuals with disabilities who represent the full spectrum of diversity,

b. Including age, race, ethnicity and gender from the earliest feasible age as it relates to vocational goals through the age span to where independence is no longer a feasible goal.

c. Offer culturally sensitive and appropriate vocation/independent living services to individuals with disabilities.

d. Offer treatment and/or training to individuals with disabilities that reflect the best and most effective methods available.

e. Offer the full spectrum of independence/vocational services as appropriate to individuals with disabilities that will enable them to achieve their goals.

f. Service as a coordinator and/or consultant for services offered by other human services agencies that are appropriate for individuals ranging from pre-school to older adults for persons with disabilities.

The Rehabilitation Counseling Program is designed to be flexible so that it may meet the needs of individual students. Students may choose to emphasize their interests through the Field Experience, Practicum and selection of elective courses. Judicious use of the three elective courses will allow the student to focus on such areas as rehabilitation of persons with mental illness, mental retardation or persons in the criminal justice system. The program also offers a certificate in Orientation and Mobility (O&M) to allow students to acquire skills in working with persons who are blind or visually impaired. The O&M option is recognized by the Association of Education and Rehabilitation for Persons who are Blind or Visually Impaired (AER).

Program graduates with appropriate experiences are eligible to take the examination to become a Certified Rehabilitation Counselor (CRC). Course work in the program also provides graduates with the knowledge and skills necessary to begin the process for other counseling specialties for which they may qualify.

Persons desiring admission to the Rehabilitation Counselor Program must: (1) meet all requirements for full admission to the School of Graduate studies; (2) complete a Rehabilitation Counseling Program application, which includes a writing sample; (3) successfully pass an interview conducted by the program’s Admission and Retention Committee; and (4) must have a 2.8 cumulative undergraduate GPA. While applicants with prior training and/or experience in the Human Services are preferred, others will be considered. In order to meet the requirements of the program’s accrediting agencies, it is sometimes necessary to restrict admission to the program for a given semester.

To complete the program successfully in addition to the School of Graduate Studies requirements, candidates must have a cumulative grade point average of 3.00 or better in the Subject Matter courses (Section II below) and report a grade of B or better in each of the practicum and internships courses.
The masters degree (MA) program in speech-language pathology is accredited by the Council on Academic Accreditation in Audiology and Speech-Language Pathology of the American Speech-Language-Hearing Association (ASHA). The program is designed to provide the academic and practicum experiences that will develop clinical competence in the management and assessment of speech, hearing and language disorders. The academic program consists of a minimum of 36 semester hours based on the students needs and the requirements of the profession.

Admission to the speech-language pathology graduate program will depend upon (1) full admission to the School of Graduate Studies, (2) strong letters of recommendation from two former professors, and (3) minimum undergraduate cumulative average of 3.0 on an A = 4.00 scale, and (4) approval of the admission application by the programs (SPA) Graduate Admissions Committee (GAC). Admissions are limited to fall semesters only.

An undergraduate degree in speech pathology is desirable, but students with other undergraduate majors will be admitted. Students without the undergraduate degree in speech pathology must complete 18 semester hours of prerequisite courses before proceeding with the graduate program. The prerequisite preparation should include at least one course in each of five areas: phonetics, speech and language development, anatomy and physiology of the speech and hearing mechanism, audiology, and the nature of speech and language disorders.

Only students who have been fully admitted to the School of Graduate Studies will be permitted to take courses in speech-language pathology and audiology. Students who are not seeking a degree, but have been accepted by Graduate Studies for recertification purposes only, will be permitted to take a course as availability of class space permits.

The program offers the experiences that will enable the student to meet the academic and practicum requirements for certification by the American Speech-Language-Hearing Association (ASHA) and licensure by the South Carolina State Board of Examiners in Speech Pathology and Audiology.

Two program options are available; students may or may not elect to write a thesis. All students must complete a minimum of 36 semester hours of course work. Graduation also requires the satisfactory completion of a comprehensive examination.

Any grade below B in a major course will be considered a deficiency. If the grade is C, it will have to be balanced by a grade of A in another major course; practicum courses cannot be used to balance academic course deficiencies and vice versa. When a student earns one grade of D or below or two grades of C in major courses, his/her program will be reviewed, with his/her participation, relative to continuation in the degree program.

A student will be discontinued in the degree program if he/she earns two grades of D or lower or three grades of C in his/her major courses.

The graduate program consists of the interlocking components of academic course work and supervised clinical practicum. To ensure the integration of these two components in their education, students will be involved in them simultaneously. The specific guidelines are described in the Clinical Procedures Manual and in the Graduate Student Handbook.
Each student must have obtained at least 400 clock hours of supervised clinical practicum prior to graduation. At least twenty-five hours must have been spent in clinical observation and at least 375 clock hours must have been spent in direct client/patient contact. A minimum of 325 clock hours of clinical practicum must be completed at the graduate level.

The aforementioned policies on academic course work and the clinical practicum are updated periodically in accordance with guidelines established by the American Speech-Language-Hearing Association and the state of South Carolina regarding accreditation, certification, and licensure. All current changes will be listed in the SPA Graduate Student Handbook.

Prerequisite Courses — 18 Semester Hours

SPA 505  Introduction to Communication Disorders
SPA 511  Anatomy and Physiology of Speech/Hearing
SPA 514  Introduction to Phonetics
SPA 520  Speech and Language Development
SPA 560  Introduction to Audiology
SPA 581  Principles of Clinical Procedures

Professional Courses — Required 21 Semester Hours

SPA 500  Graduate Study in Speech Pathology
SPA 522  Child Language Disorders
SPA 530  Articulation Disorders
SPA 540  Stuttering
SPA 550  Disorders of Phonation
SPA 572  Adult Language Disorders Or
SPA 573  Neuropathologies of Speech and Language Impairments (a.k.a. Motor Speech Disorders)
SPA 590  Diagnostic Procedures in Communication Disorders

Subject-Matter Courses — Electives 9-15 credit hours

SPA 501  Clinical Report Writing
SPA 505  Introduction to Communication Disorders
SPA 510  Psychology of Speech
SPA 511  Anatomy and Physiology of Speech and Hearing
SPA 514  Introduction to Phonetics
SPA 516  Speech and Hearing Science
SPA 517  Instrumentation in Speech and Hearing Science
SPA 520  Speech and Language Development
SPA 521  Cultural Language Variations
SPA 560  Introduction to Audiology
SPA 561  Diagnostic Procedures in Audiology
SPA 562  Psychology of the Hearing Impaired
SPA 563  Rehabilitation of the Hearing Impaired
SPA 564  Pediatric Audiology
SPA 565  Clinical Audiology
SPA 566  Advanced Audiological Evaluation
SPA 567  Clinical Practicum in Audiology
SPA 568  Audiological Problems in Environmental Noise Control
SPA 569  Seminar in Audiology
SPA 570  Cerebral Palsy
SPA 571  Cleft palate
SPA 572  Adult Language Disorders
SPA 573  Neuropathologies (Motor Speech Disorders)
SPA 574  Communication Problems of Aging
SPA 580  Speech and Hearing Therapy in the Schools
SPA 581  Principles of Clinical Procedures
SPA 591  Advanced Clinical Practicum - Observation
SPA 592  Advanced Clinical Practicum
(01-Articulation; 02-Diagnostics; 03-Hearing; 04-Language; 05-Organics; 06-Stuttering)
SPA 593  Seminar in Speech Pathology
SPA 594  Differential Diagnosis of the Non-Verbal Child
SPA 595  Introduction to Manual Communication
SPA 596  Intermediate Manual Communication
SPA 600  Thesis I
SPA 601  Thesis II
SPA 699  Special Topics in Speech Pathology & Audiology

Approved Electives — 0-6 Semester Hours

The courses in this section may be recommended by the student advisor on the basis of perceived needs or selected by the student on the basis of interest. Semester hour credits from this area, added to credit hours in the “required program” and “subject-matter courses,” must equal at least 36 semester hours.

MASTER OF ARTS IN TEACHING

Overview

The Master of Arts in Teaching degree program is designed for two categories of applicants. Applicants in Category one are those students who hold a baccalaureate degree in a field other than teacher education, with a major in an area not taught in grades K12. Examples of such majors are: criminal justice and social welfare. Applicants in Category two are those students who hold a baccalaureate degree in a field other than teacher education, but have a major in an area taught in K12 schools. Such majors include: art, English, health, mathematics, science, social studies, speech pathology and audiology, physical education, and foreign language. However, regardless of the students academic major at the bache-lors degree level, he/she is free to pursue any option in the MAT program.

The Master of Arts in Teaching degree program permits the student in Category one to earn the degree and recommendation for initial certification in early childhood education, grades K3, and in elementary education, grades 18. The program permits students in Category two to earn the degree and recommendation for initial certification to teach the following secondary school subjects: English, mathematics, and science. Likewise, students in Category one may also pursue any one of these latter options, given their willingness to earn additional required credits mandated for initial certification.

The degree is particularly attractive to the first category of candidates who, after working in other human services arena, have developed an interest in teaching in grades KS. The proposed degree is equally attractive to the latter category of students who have developed an interest in teaching in secondary schools after devoting their undergraduate years to the pursuit of knowledge in their discipline.

The Master of Arts in Teaching degree program has been developed according to Standards for Program Approval by the South Carolina Department of Education. Additionally, it meets all of the requirements for initial certification in the specified options, and it provides the knowledge base and develops the competencies needed.
by program graduates to fulfill the teaching roles for which they are to be prepared.

**Objectives**

The revised Teacher Education Conceptual Framework is the Professional Educator as an Effective Performer, Reflective Decision-maker and Humanistic Practitioner. The major objective of the Outcome-Based Master of Arts in Teaching degree program is to provide a route for initial certification at the graduate level. Beyond this, the program is designed to provide the mature students with: a sound foundation in the principles and techniques of teaching in grades K12; and a mastery of the structure, skills, concepts, ideas, values, facts, and methods of inquiry that constitute their fields of specification. Further course work; the practicum, and internship that comprise the curricula for the various certification options in the MAT program are designed to develop teachers/scholars for the appropriate grade level. Program graduates will have the following characteristics:

1. A knowledge of historical and philosophical bases influencing curriculum design and instruction in grades K12.

2. An understanding of the psychology of learning and the process of cognitive development in K 12 students and a regard for individual differences in ability, learning style, and effect as they impinge upon curricular and methodological decision-making in the classroom.

3. A mastery of a variety of strategies and techniques for teaching concepts, principles, skills, and problem-solving processes to learners.

4. An appreciation for the ways in which social/political/ economic forces interact with the discovery of new ideas and the overall structure of content to guide curriculum decisions.

5. An understanding of the fundamental principles and long-range potential of instructional computing as a means for developing in students a capacity and facility for critical thinking and problem-solving.

6. A familiarity with the range of instructional technology equipment and materials and the variety of professional resources available for use in the classroom.

7. An awareness of the special abilities and learning characteristics of exceptional children.

8. Skills in the judicious use of a variety of methods and materials appropriate for students with diverse language backgrounds.

10. Exposure to research and literature in area of specialization.

11. A supervised experience in teaching in a real-life school setting.

**ADMISSION REGULATIONS**

Applicants for the Master of Arts in Teaching degree must hold a bachelors degree from an accredited institution. Applicants must present a completed portfolio to be eligible for the interview conducted by the Screening and Admission Committee. The completed portfolio must be presented prior to the specified deadlines. Portfolio contents, admissions regulations and other pertinent information are presented below.

1. Application portfolio that is complete, consisting of the following elements:

   **Graduate Admission:** Letter of Full Admission to the School of Graduate Studies from the Dean of the School of Graduate Studies.

   **Application:** Letter of application for admission to the MAT program specifying the certification option.

   **Goal Statement:** A logically developed statement of career goals and plans attached to the resume.

   **Transcripts:** To be forwarded by the School of Graduate Studies.

   **Letters of Recommendation:** Three letters using the form provided by the University.

   **Certification:** The applicant must not hold certification to teach in South Carolina or any other state.

2. Minimum GPA 2.50 on a 4.00 grading system for all undergraduate work completed and 3.00 on all graduate work completed.

3. GRE minimum 800 (V/Q; 1,200 (V/Q/A) or MAT 35.

4. Letter of full admission to the School of Graduate Studies.

5. For mathematics only, successful completion of the following SCSU courses or their equivalents:

   - M 153 Quantitative Reasoning: Calculus I 3
   - M 163 Calculus II 3
   - M 237 Calculus III 3
   - M 238 Calculus IV 3
   - M 208 or M 309 Statistics 3
   - M 207 or M 305 Geometry 3
   - M 306 or M 314 Algebra 3
   - M 404 Real Analysis 3
   - A high-level computer programming language course 3

   Semester hour total 27

**Admission to Directed Teaching Internship**

1. GPA of 3.00 on all prerequisite MAT course work.

2. Completion of prerequisites for Directed Teaching Practicum in the MAT Certification option.

3. Physical examination, including TB test.
4. Passing score on Praxis II & PLT examination before Directed Teaching Internship.
5. Interview by faculty of the Master of Arts in Teaching program.
6. FBI and SLED Clearance

Exit Requirements

Exit criteria include the following: completion of degree and certification requirements with minimum GPA of 3.00, successful completion of the student teaching semester, Exit Interview Report, Praxis II and PLT Specialty Area score, samples of any published or scholarly work, induction into the teaching profession, and a personal résumé.

well informed and reflect original thought. It should discuss pedagogical issues and explicitly address both state and NCATE standards.

Topics should relate issues in English studies to issues in pedagogy. For instance, some sample topics might be:
- Teaching awareness of race and class to high school students.
- Bringing Milton to contemporary classes.
- Revision and rhetoric in the middle school classroom.
- Tom Morrison: “The Bluest Eye” and contemporary culture.
- “Getting It Right”: strategies for teaching grammar revision.

Each presentation should include appropriate AV material, a short narrative of the research and conclusions, and a bibliography of useful print, electronic, and other resources.

Each English Program graduate student (M.A.T./M.Ed.) will be responsible for making a presentation to a panel of graduate professors and students on a topic related to English and English Education. This presentation should be
Grading will be P/F, with honors awarded to the top three.

**MASTER OF BUSINESS ADMINISTRATION (MBA) DEGREE PROGRAM**

The Master of Business Administration Program, with tracks in Agribusiness and Entrepreneurship, at South Carolina State University is designed to prepare students to meet today's challenges and expectations as well as those of the future. It is a full-time degree...
program that offers the opportunity to enhance learning, knowledge and skills by providing business professionals with groundbreaking theories, case studies, and technological skills in practical real-world contexts. Moreover, the foundation of the MBA Program is built on a flexible schedule, offering intensive and interactive learning, delivered by a faculty using “leading edge” technology.

Students undergo a thorough preparation in fundamental business skills in the areas of marketing, finance, accounting, economics and management and may choose tracks in either agribusiness or entrepreneurship.

**Graduates with an MBA degree** in Agribusiness or Entrepreneurship are prepared to begin successful careers in various industries including the agribusiness sector, financial institutions, real estate firms, insurance and investment companies, as well as in federal and state government. In addition to becoming successful managers in corporate America, graduates, are also trained to become successful business owners.

**Curriculum Requirements**

**Candidates for the MBA degree** must complete a total of thirty-six (36) credit hours and may select from two concentrations: Agribusiness and Entrepreneurship. The MBA core business courses, common to both concentrations, consist of fifteen (15) semester hours. Additionally, twenty-one (21) semester hours must be completed in one of the concentrations, including six (6) hours of electives in the chosen concentration.

Students are required to have completed prerequisite course in accounting, economics, finance, marketing, statistics, and management. Candidates with non-business undergraduate degrees will be required to satisfy these requirements by taking courses in residence or successfully completing the College Level Examination Program (CLEP).

**Admission**

Admission to the MBA Program is open to all prospective students with a Bachelor's degree in any major; however, applicants must complete prerequisites in accounting, economics, statistics, finance, marketing and management to qualify for admission to the MBA program. Students lacking the prerequisites may be granted conditional admission. The prerequisite courses may be taken simultaneously with regular MBA courses on the approval of the MBA Director. Upon completion of the prerequisite courses, students must reapply for full admission to the MBA program.

Admission to the MBA program is a two-step process. Entering students must apply for admission to the School of Graduate Studies as well as to the MBA program. The MBA Admissions Committee will consider the following factors in determining eligibility for full admission:

- Undergraduate GPA,
- GMAT Score,
- Prerequisite Courses
- Letters of Recommendation
- Official Transcripts
- Work Experience.

**Applications** are due by May 1 for Fall admission and by October 1 for Spring Admission. A complete application package consists of the following:

- Application for admission to Graduate School
- Application for admission to MBA Program
- Transcripts of all previous college-level work
- Three letters of recommendation
- GMAT Scores
- Application fee

Application forms are available on-line at [http://www.belcherscsu.edu](http://www.belcherscsu.edu)

The application package should be mailed to the School of Graduate Studies at the address shown below.

School of Graduate Studies
South Carolina State University
300 College Street, N.E., P.O. Box 7098
Orangeburg, SC 29117
Phone: (803) 536-7064
MASTER OF EDUCATION
DEGREE PROGRAMS

Admission Regulations

Applicants for the four Master of Education degrees must hold a bachelors degree from an accredited institution. Applicants must present a complete portfolio to be eligible for the interview conducted by the Screening and Admission Committee. The portfolio must be presented prior to the specified deadline (July 25, November 25, and May 15 for fall, spring or summer admission, respectively) if the applicant is to be considered for admission the following academic semester. Portfolio contents, admissions regulations and other pertinent information are presented here.

The applicants portfolio should be complete and consist of the following:

Graduate Admission: Letter of Full Admission to the School of Graduate Studies from the dean of the School of Graduate Studies.

Application: Completed application for the specific MEd. program of choice (Elementary Education, Secondary Education, Special Education or Counselor Education).

Goal Statement: A logically developed statement of career goals and plans attached to the program application.

Transcripts: Copies of all undergraduate and graduate transcripts.

Certification: Evidence of having met state certification standards (required for admission to all programs except Counselor Education).

Assessment Data: GRE or MAT score, English Proficiency Examination score, undergraduate GPA and graduate GPA, all transcripts and Admission Interview Report.

Samples of Any Published Materials or Scholarly Work.

Admission Interview.

Letters of Recommendation: Three letters, using the form provided.

Eligibility Requirements

Regular Admission
1. Letter of full admission to the School of Graduate Studies from the Dean of Graduate Studies.
2. Minimum GPA of 2.50 on a 4.00 grading system for all undergraduate work completed. (This requirement is waived for certified teachers.)
3. GRE - minimum 800 (V/Q); 1,200 (V/Q/A) or MAT - 388-393.
4. Praxis I PPST-Reading and Writing scores. Minimum: 175 - Reading and 173 - Writing or Teaching Certificate or Masters Degree.
5. Admissions Interview.

Alternate Admission for M.Ed. Programs
1. Professional teaching certificate and at least one year of contractual teaching experience (if applicable).
3. Minimum GPA of 2.5 on a 4.00 grading system for all undergraduate work completed.
4. Letter of full admission to the School of Graduate Studies.
5. Evidence of having taken the required test but earned below standard score as follows:
   a. MAT score below 35
   b. GRE score below 800 (V/Q)
7. Grade of “B” or better in EDCI 599-General Knowledge and Curriculum Enhancement Seminar.

Goals and Objective of the Masters Programs in Education.
The new conceptual framework for Education is “The Professional Educator as an Effective Performer, Reflective Decision-maker and Humanistic Practitioner.” The overall goals of the M.Ed. Programs are (a) to produce elementary and secondary teachers and counselors competent in their academic specialties and/or teaching areas and (b) to imbue all graduates with a thorough understanding of the historical, philosophical, developmental, humanistic, research, and quantitative bases of public education. To meet subject-matter objectives, graduates of the various subject-matter areas, applicable to their particular disciplines, will be able to do the following:

1. Teach or perform effectively in the areas of specialty to the range of students in a multicultural society;
2. Carry out the role and function of a secondary of elemen-tary teacher or specialist in the subject-matter areas;
3. Apply the basic concepts of human development and individual differences in providing for the individual needs of the broad array of students in their settings;

4. Interpret and use properly the results of standardized measures of academic achievement in their classrooms and in the overall school environment;

5. Apply the methodology of the subject-matter area in planning, designing, and delivering classroom instruction;

6. Apply the principles of effective educational measurement in diagnosing and meeting student needs and in evaluating individual and group performance in the school setting;

7. Demonstrate fundamental laboratory techniques where applicable;

8. Demonstrate skill in applying scientific methodology and research findings to a particular subject matter;

9. Apply the principles of effective classroom management and discipline in a democratic environment involving, appropriately, parents, students, and administrators; and

10. Use reflective decision making in order to perform at the highest scholarly and professional levels expected of holders of the Master of Education degree.

COUNSELOR EDUCATION

The MEd. program in Counselor Education is designed to attract individuals intending to serve as school counselors. The primary purpose of this program is to produce individuals well qualified personally and professionally to perform effectively as counselors in elementary and/or secondary schools.

Program graduates are eligible to apply for initial South Carolina state certification provided they meet specified State Department of Education requirements.

III. OPTIONS

A. Elementary School Counseling
   CED 512 Elementary School Guidance | 3 |
   CED 519 Basic Counseling Practicum/Elem. | 3 |
   Restricted Elective | 3 |
   CED 530 Adv. Counseling Practicum/Elem. | 3 |
   CED 550 Internship in Elem. School Counseling | 6 |

B. Secondary School Counseling
   CED 513 Basic Practices of Guidance Services | 3 |
   CED 520 Basic Counseling Practicum/Sec. | 3 |
   Restricted Elective | 3 |
   CED 531 Advanced Counseling | 3 |
   CED 551 Internship in Sec. School Counseling | 6 |

Total credit hours required | 48 |

Elementary majors seeking K-12 certification must also complete CED 513, CED 520, CED 531, and one (1) credit hour of CED 551.

Secondary majors seeking K-12 certification must also complete CED 512, CED 519, CED 530, and one (1) credit hour of CED 550.

Each credit hour in CED 550/551 requires 100 clock hours of field-based experience.

ELEMENTARY EDUCATION

The M.Ed. program in Elementary Education is designed for the advanced preparation of in-service elementary school teachers (grades K-5). The two purposes of this program are to provide instruction, appropriate classroom practice, seminars, microteaching, and other teaching-learning experiences to masters degree-seeking students for the purpose of assisting them in strengthening, extending, and integrating their knowledge and skills in foundations and professional education, research and writing, as well as the content area(s); and to assist them in obtaining mastery of systematic ways of utilizing instructional technology to bring about effective instruction.

This program offers options in elementary education, early childhood education, and reading education.

II. PROFESSIONAL CORE
   ED 523 Curriculum Development in the
The Master of Education, Option in Elementary Physical Education is designed to prepare Master Teachers in elementary physical education. Students will be exposed to scientific and applied research-based study in pedagogy physical education. The master’s option in elementary physical education focuses on the study of processes, which influence teaching, motor skill learning, and performance. Research emphases include developmental foundations of motor skill learning with application to physical education and sport setting, and the curricular and instructional processes, which influence the acquisition of motor skills. The developmental foundation area focuses on the cognitive, social, and growth factors that influence motor skill learning.

Students seeking admission into the Master of Education, Option in Elementary Physical Education or Secondary Education curriculum must possess a minimum cumulative grade point average of 2.5 (on a 4.00 scale), three letters of recommendation, South Carolina initial teacher certification in physical education, and successfully complete an admissions interview. Students must maintain a cumulative grade point average of 3.0 while enrolled in the program. In order to graduate from the program, students must have a cumulative grade point average of 3.0 (on a 4.00 scale) and at least a “C” grade in each specialized course.

**PROGRAM REQUIREMENTS**

**Foundation Core (All three courses must be completed)**
- ED 508: Instruction to Data Analysis
- ED 501: Understanding Educational Research
- ED 545: Learning Theories

**Professional Core (15 hours of the following approved by advisor)**
- ED 523: Curriculum Development in Elementary School
- ED 528: Advanced Methods of Teaching
- ED 530: Instructional Technology
- ED 602: Research Project

**Specialized Core (All three courses must be completed)**
- PE 503 Leadership Issues and Trends in PE & Sport
- PE 503: Leadership Issues and Trends in PE & Sport
- PE 507: Measurement & Tech. Applications in PE

**The Specialized Electives (3 hours of the following approved by advisor)**
- PE 501: Curriculum and Supervision in Physical Education
- PE 505: Administration in Physical Education & Sport
- PE 510: Scientific Principles of Physical Education
- PE 512: Principles of Motor Learning & Motor Performance
- PE 514: Principles and Admin. of Wellness Programs
- PE 516: Developmental & Adapted Physical Education
- PE 602: Research Project

**Exams To Be Completed:**
- Professional Comprehensive Examination—upon completion of foundation core
- Subject Matter Comprehensive Examination—semester prior to graduation
- English Proficiency/English III

**Available Options**

**A.** Must complete the following:
- *PE 503: Leadership Issues and Trends in PE & Sport*
- *PE 507: Measurement & Tech. Applications in PE*

**B.** One of the following:
- PE 501: Curriculum and Supervision in Physical Education
- PE 505: Administration in Physical Education & Sport
- PE 510: Scientific Principles of Physical Education
SECONDARY EDUCATION

The M.Ed. program in Secondary Education is designed for the advanced preparation of in-service secondary school. The two purposes of the program are to provide instruction, appropriate classroom practice, seminars, microteaching, and other teaching-learning experiences to masters degree-seeking students for the purpose of assisting them in strengthening, extending, and integrating their knowledge and skills in foundations and professional education, research and writing, as well as the content area(s); and to assist these teachers in realizing an awareness that this view of the world is not universally shared.

This program offers options in biology, business, chemistry, English, industrial education, math, physical education, science, social studies.

Approved Electives 3 - 6
Sc Ed 509: The Teaching of Science, and any courses approved by the academic advisor.

B. Business 12

| Improvement of Instruction in Stenographic Subjects | Improvement of Instruction in Non-Stenographic Subjects |
| BE 501 | BE 502 |
| Principles and Practices in Business Education | Analysis of Office Occupations |
| BE 511 | BE 512 |
| Office Organization and Management | Report Writing and Research in Business Education |
| BE 513 | BE 515 |
| Current Issues in Business Education | BE 516 |
| Seminar in Business Education | BE 517 |
| Curriculum Construction in Business Education | BE 521 |
| Administration and Supervision in Business Education | BE 524 |

Approved Electives 0 - 6
Any courses from the above approved by the academic advisor.

C. Chemistry 13

| Advanced Inorganic Chemistry | Advanced Analytical Chemistry |
| C 501 | C 502 |
| Seminar Laboratory | Advanced Analytical Chemistry |
| C 503 | C 504 |
| Theoretical Chemistry for Secondary School Teachers | C 505 |
| SC Ed 509: The Teaching of Science | Modern Chemistry I |
| Modern Chemistry II | C 509 |

Approved Electives 3 - 6
Sc Ed 509: The Teaching of Science, and any courses approved by the academic advisor.

D. English 12

| Backgrounds of Literature | Shakespeare |
| E 500 | E 503 |
| History of the English Language | Milton |
| E 505 | E 506 |
| Literature for Adolescents | E 507 |

Approved Electives 6
ED 511 Methods of Teaching English
ED 532 Grammar for Teachers

Each English Program graduate student (M.A.T./M.Ed.) will be responsible for making a presentation to a panel of graduate professors and students on a topic related to English and English Education. This presentation should be well informed and reflect original thought. It should discuss pedagogical issues and explicitly address both state and NCATE standards.
Topics should relate issues in English studies to issues in pedagogy. For instance, some sample topics might be:

- Teaching awareness of race and class to high school students.
- Bringing Milton to contemporary classes.
- Revision and rhetoric in the middle school classroom.
- Tom Morrison: “The Bluest Eye” and contemporary culture.
- “Getting It Right”: strategies for teaching grammar revision.

Each presentation should include appropriate AV material, a short narrative of the research and conclusions, and a bibliography of useful print, electronic, and other resources. Grading will be P/F, with honors awarded to the top three.

### SPECIAL EDUCATION

The M.Ed. program in Special Education is designed for the advanced preparation of personnel to coordinate programs and manage the learning environments of special-need learners (grades K-12). The purpose of the program is to provide foundations in professional education, content areas, research and writing skills, classroom practices, instructional technology; and to extend knowledge and skills in the teaching-learning process to masters-degree-seeking students.

This program offers options in educable mentally disabled, trainable mentally disable, severely/profoundly mentally disable, learning disabilities, and emotionally disabled.

Special Program for Certification in Reading Education. Graduates who wish to qualify for a certificate in Reading Education must become thoroughly familiar with the requirements outlined by the South Carolina Department of Education. The requirements for Teacher Education and Certification. Students desiring to satisfy the requirements for a Reading Teacher should include the following courses in their graduate program:

RED 507 Advanced Teaching of Reading in the Elementary School
RED 508 Diagnosis and Correction of Reading Difficulties
RED 510 Practicum in Reading
RED 513 Reading Methods and Materials
RED 516 Advanced Teaching of Language Arts in the Elementary School
RED 517 Advanced Teaching of Reading in the Secondary School
RED 522 Teaching Reading in the Middle School
RED 530 Organization and Supervision of Reading Programs

MASTER OF SCIENCE DEGREE PROGRAMS

The Master of Science (M.S.) degree is offered in four areas of study: Agribusiness, Individual and Family Development, Nutritional Sciences, and Transportation. The minimum number of program hours is outlined in Parts I, II, and III below, with a total of 37 semester hours for Agribusiness and 36 for the other two programs. Substitutions of any required course or courses must be approved by the students advisor, the departmental chair, the dean of the School of Graduate Studies, and the Vice President for Academic Affairs.

AGRIBUSINESS

The masters degree program in agribusiness attempts to combine academic and applied learning experiences. It is designed for students who wish to pursue either professional management positions in agricultural business or advance into graduate studies at institutions leading to a Ph.D. in agribusiness or agricultural economics. The program stresses mastery of advanced economic theory, financial and marketing analysis, methods of quantitative decision analysis, statistics, research methodology, and the application of these methods to the problems of agribusiness. The emphasis of the program is on the preparation of candidates for problem-solving and decision-making management positions in agricultural firms. Students are prepared for a wide range of professional employment opportunities in management, agricultural marketing, finance, sales, research, administration, public service, etc.

The program offers two options: (1) a non-thesis option designed for students interested in management and leadership positions in agribusiness; and (2) a thesis option designed for students with a research orientation and interested in pursuing a Ph.D. degree in agribusiness or agricultural economics.
Admission Standards and Procedures. A prospective candidate for admission to the masters degree program in agribusiness must have: (1) an undergraduate cumulative grade-point average of at least 2.80 on a 4.00 scale, (2) satisfactory scores on the Graduate Record Examination or Graduate Management Aptitude Test, and (3) two strong letters of recommendation from persons acquainted with the applicants academic capabilities. When the indicator used is the GMAT-total, candidates should obtain a total of at least 950 points based on the formula: 200 times the overall GPA plus the GMAT-total score; or at least 1,000 points on the formula: 200 times the upper-division GPA plus the GMAT-total score.

The Graduate Studies Admissions Committee in the Department of Agribusiness and Economics is responsible for reviewing the application file of each applicant who has been accepted in the School of Graduate Studies in full admission standing, and for recommending to the departmental chair admission in “Full” or “Conditional” standing in the program.

To be eligible for full admission to the masters degree in agribusiness program, a candidate must meet the admission requirements of the School of Graduate Studies, the basic departmental requirements as described above, and have preparation (formal undergraduate courses or equivalent experience) in the following areas (examples of acceptable courses at South Carolina State University are given in parentheses): Principles of Accounting (ACCT 207 and ACCT 208), Statistics (BA 213 and BA 214), Microeconomics (ECON 301), Macroeconomics (ECON 302), and Production Operations Management (BA 312), or Mathematical Economics (ECON 411).

Conditional Admission to the masters degree program in agribusiness will be given to prospective students satisfying all requirements for full admission except the above course prerequisites.

The course prerequisites may be satisfied by any of the following methods: (a) by taking the courses or their equivalent in residence; (b) by College Level Examination Program (CLEP) proficiency examinations; (c) by taking courses through correspondence. All conditions must be earned with a grade of B average or higher, and must be completed within three academic semesters from time of enrollment in the School of Graduate Studies, unless otherwise specified by the departmental chair in writing. The prerequisite courses can be taken simultaneously with regular MS agribusiness degree courses on the approval of the departmental chair. Satisfactory completion of the identified prerequisites will change the students admission status from conditional to full.

INDIVIDUAL AND FAMILY DEVELOPMENT

The Master of Science degree in Individual and Family Development (IFD) focuses on the individual, the family and the respective developmental issues and cultural perspectives that define our rapidly changing society. The academic program consists of a minimum of thirty-six (36) semester hours. Emphases are placed on family science principles, family dynamics, human development, and resources. A comprehensive subject matter examination and Thesis (or Problem in Lieu of Thesis) are integral program requirements.

The IFD curriculum is designed to prepare professionals for leadership positions in human resources and personnel divisions in business, industry, the social services, a variety of educational settings and for doctoral study. The program also provides students with competencies to empower individuals and families to enhance self-worth, strengthen human relationships and maintain essential family roles throughout the life span.

Refer to Graduate Studies Program information on previous pages. You are accountable for adhering to these regulations. The IFD program offers a certificate in Human Development Consultant in addition to the Master of Science degree. Please refer to the section, Graduate Certificate Programs, in the catalog.

Undergraduate Pre-Requisites: Completion of twelve (12) semester hours in a human sciences discipline, i.e., family and consumer sciences, psychology, sociology social work, elementary or early childhood education, criminal justice.
The interdisciplinary Master of Science degree in Transportation (MST) is planned in concert with the collaborative strengths within the University to provide appropriate education, research, and practical experiences for graduates of the program. The MST requires applicants who do not have undergraduate preparation in one or more of the above areas will be required to complete preparatory courses prior to full admission to the masters degree program.

The interdisciplinary Master of Science degree in Transportation (MST) is planned in concert with the collaborative strengths within the University to provide appropriate education, research, and practical experiences for graduates of the program. The MST requires
completion of thirty-six (36) credit hours. Specifically, core subjects of eighteen (18) credit hours address the common required element of the program. A Subject-Matter Comprehensive Examination is required upon satisfactory completion of all core courses for the Master of Science degree in Transportation. Each student has a maximum of three opportunities to pass the examination. Options for specialized preparation [nine (9) credit hours] are included in four (4) areas: Business, Transportation Planning, Modal Systems, and Intelligent Transportation Systems. The Transportation Capstone has two components; the thesis and the seminar/internship. Six (6) credit hours are devoted to a research thesis requirement, and three (3) credit hours are included as the seminar/internship requirement. The Transportation Capstone is structured to embrace the integration of research, thesis completion, and seminar/intern experience exchanges that will ensure the production of graduates who are leaders and are thoroughly prepared to address transportation related challenges.

TOTAL 36

GRADUATE CERTIFICATE PROGRAMS

The graduate certificate is awarded for successful completion of a set of departmentally approved courses (usually not to exceed 18 semester hours) and approved by the Graduate Studies Council. Students who are admitted to a specific graduate certificate program are advised by the faculty in the department offering the certificate.

The certificate is not a degree; however, the student may apply credits earned (up to 12 credit hours) into a degree program subject to review and approval by the department and graduate dean. All current graduate academic and programmatic regulations apply to students enrolled in certificate programs of study.

Currently, there are three certificate programs:
1. Environmental Monitoring and Restoration
2. Human Development Consultant
3. Orientation and Mobility Specialist

Program descriptions, curriculums, eligibility and admission requirements are delineated below. For further information and applications to the certificate programs, contact:

Graduate Admissions Certificate Programs
School of Graduate Studies
South Carolina State University

ENVIRONMENTAL MONITORING AND RESTORATION

Background

South Carolina State University founded the Savannah River Environmental Sciences Field Station in 1996 and has since used it in undergraduate education. The Field Station currently teaches under-
graduate courses in environmental studies, natural resources management, and environmental engineering technology. SCSUs Field Station has won two national awards, the National Hammer Award from the Office of the Vice President of the United States and the Government Seamless Award from the USDA, Forest Service, Southeastern Region, for its ability to weave together a collaboration between universities and the public and private sectors in students education. In the last three years, SCSU has championed undergraduate education in environmental studies, natural resource management, and environmental engineering technology for minority students. SCSUs Field Station now includes 26 colleges and universities in its membership. Students, especially minority students are recruited from the member institutions for training at the Field Station.

SCSU wants to expand this opportunity to include a graduate certificate program in Environmental Monitoring and Restoration. The program will help position the students for recruitment by the DOE, EPA, DHEC and other employers that are interested in skilled human resource. The program will emphasize the application of basic and applied sciences in environmental monitoring and restoration. Classroom academic work will be at the Field Station classrooms and labs at the Savannah River Site. In addition, each student in the program will be involved in a long-term internship with the DOE, Westinghouse or other environmental organizations for field real-life and hands-on experience.

The Program

The graduate certificate program in Environmental Monitoring and Restoration is designed for:

a) persons with the Bachelor of Science degree and who require advanced technical skills in environmental monitoring (pre-service applicants); and

b) persons with the Bachelor of Science degree who already work for an environmental organization and require advanced training in environmental monitoring and restoration to further their careers (in-service applicants)

The Curriculum

The program consists of 18 semester hours of coursework selected from the following:

- ENV 510 Patterns and Processes in Environmental Pollution and Remediation
- ENV 550 Environmental Policy and Law
- ENV 600 Ground Water Monitoring and Remediation
- ENV 610 Environmental Restoration Technology
- ENV 635 Directed Report Writing
- ENV 636 Advanced Report Writing

Eligibility

To become eligible for the certificate, all applicants must:

a) Hold the Bachelor of Science degree;

b) Meet all SCSU graduate school admission requirements;

c) Be involved in long-term internship if pre-service;

d) Be employed by an environmental organization if in-service; and

e) Complete all certificate program coursework

HUMAN DEVELOPMENT CONSULTANT

The Program

The graduate certificate program for Human Development Consultant is designed for learners:

a) Currently enrolled in Individual and Family Development or a related graduate degree program at SCSU; or

b) Who previously earned a graduate degree in a related discipline from an accredited institution. Competencies acquired help to prepare for careers in a broad range of positions that focus toward the normal stages of human development with emphases on family as the core.

The Curriculum

The certificate program for Human Development Consultant consists of 15 semester hours of coursework, the equivalent of five courses, all of which must be selected from the following:

- IFD 501 Family Life Education
- IFD 515 Family: Middle & Later Years
- IFD 516 Individual & Family Development
- IFD 520 Advanced Child Development
- CED 511 Child Growth & Development
- CED 518 Consultation

Eligibility

To be eligible for the Human Development Certificate, applicants (without exception) must meet the following criteria:

a) Completion of a related masters degree

b) Completion of certificate coursework

c) GPA minimum of 3.0

d) Adherence to Universitys Graduate Studies regulations.

ORIENTATION AND MOBILITY

The Program

The graduate certificate program in Orientation and Mobility is designed for students:

a) Who are currently enrolled in Rehabilitation Counseling or a similar program at South Carolina State University, or

b) Who currently hold a graduate degree in a related discipline from a regionally accredited institution.
This section contains a listing of courses by colleges and departments.

The following information is provided about each course: the course number, the title, the credit in semester hours, the number of required clock hours per week, a brief course description, and a statement of prerequisites or other restrictions on enrollment.

The first figure immediately following the title of a course indicates the number of hours in semester credits given for the course; the second and third figures enclosed in parentheses (if given) indicate the number of lecture and laboratory hours normally scheduled each week for one semester in the course. For example, 3(2,3) means that the course carries three semester hours and meets two lecture hours and three laboratory hours each week. For field experiences, internships, professional clinical experiences, and independent study courses, no numbers are given within the parentheses.

Courses are also coded to indicate the semester in which they are customarily offered. The schedule is as follows:

- F: Fall Semester
- S: Spring Semester
- F,E: Fall Semester, even-numbered years
- F,O: Fall Semester, odd-numbered years
- S,E: Spring Semester, even-numbered years
- S,O: Spring Semester, odd-numbered years

On demand, provided the enrollment is 15 or more students.

NOTE: The numbering of graduate courses begins at 500; all course numbers below 500 indicate undergraduate credit courses. Courses beginning with 700 are limited to persons holding a completed masters degree or above. The 800-level courses are limited to doctoral students.
DEPARTMENT OF ACCOUNTING, AGRIBUSINESS, AND ECONOMICS

ACCOUNTING

ACCT 501 Foundations of Accounting. 3(3,0). This course is designed to enable students to understand the fundamental concepts of financial accounting with an emphasis upon the interpretation and use of financial accounting information for making strategic business decisions. Students will learn how to solve problems and provide information to managers and external parties. Both financial and managerial topics will be discussed.

ACCT 509. Advanced Managerial Accounting. 3(3,0). This course emphasizes the use of accounting information and techniques for managerial planning, control and evaluation. It includes an examination of the use of accounting principles in managing an organization, cost determination and analysis, economic decision making, and business planning and control of operations and property (F.)

ACCT 510. Accounting for Business Decisions. 3(3,0). Using the case method approach, this course emphasizes financial reporting from a user perspective. It is designed to prepare students to deal with complex financial issues that managers must understand. Prerequisite: Survey of Accounting or undergraduate financial and managerial accounting courses.

ACCT 520. Tax and Legal Issues for Small Businesses. 3(3,0). This course is designed to prepare managers to be able to recognize and understand major taxes and legal issues they will confront in business. The various aspects of taxes and law will be introduced through comprehensive reading, class discussion, and case analysis. Areas covered will include the impact of various taxes (e.g., income, employment, sales, property (tangible and intangible) and law (e.g., selection of the right business form, protection of intellectual property, and contracts).

AGRBUSINESS

AGBU 501. Environment of Agribusiness. 3(3,0). This course provides an overview of the field of agribusiness and focuses on issues that affect the environment of the food and fiber sector. It includes, among other topics, analysis of the market structure under which the agribusiness industry operates; identification and analysis of current and budding issues in agribusiness; analysis of the different forces that mold the environment of agribusiness.

AGBU 505. Business Research and Communication. 3(3,0). This course is designed to provide students with the philosophy and techniques of scientific methods in agribusiness research and communication. Emphasis is placed on problem identification, data collection and organization, model building, analysis and communication. (S.)

AGBU 510. Market and Price Analysis in Agribusiness. (3,0). This course involves the application of economic theory and statistical methods to the analysis of agricultural price and marketing of agribusiness products. Topics covered include but are not limited to current developments affecting market structure, government policies and regulations; price forecasting; relationships among farm prices, marketing costs, and retail prices. Emphasis is given to the use of market and price information in making managerial decisions. (S)

AGBU 530. Applied Financial Management in Agribusiness. 3(3,0). This course is intended to provide the application of the concepts of finance to the solutions of agribusiness problems. The course emphasizes risk analysis, financial intermediation, basic valuation concepts and cost of capital. The focus is on a firm's strategic long-term decisions, which include capital structure, capital budgeting, working capital policy and management. Case studies, where students will apply the tools and concepts they have learned will be used.

AGBU 535. International Agricultural Trade. 3(3,0). This course emphasizes trade and theory and its application to agricultural trade. It includes review of the fundamental international trade theory, changing structure of international trade markets, U.S. trade policies for agriculture, and the role of international commodity trading agreements. (S)

AGBU 541. Agribusiness Firm Management. 3(3,0). This course is designed for students who are planning to be agribusiness managers, or agribusiness management consultants. It involves a detailed application of production economics, finance concepts, management principles, and decision-making techniques in the organization, operation and administration of agribusiness firms, especially under situations of risk and uncertainty. (S)

AGBU 542. Advanced Financial Management. 3(3,0). This course is intended to provide the application of the concepts of finance to the solutions of agribusiness problems. This course emphasizes risk analysis, basic valuation concepts and cost of capital. The focus is on a firm's strategic long-term decisions, which include capital structure, capital budgeting, working capital policy and management. Case studies where students will apply the tools and concepts they have learned will be used. (F)

AGBU 543. Agribusiness Marketing Management. 3(3,0). This course introduces the concept of agribusiness marketing management as it relates to overall organizational goals. The issues involving marketing policies and strategy, organization, demand analysis, product planning, pricing, distribution, and promotion are discussed from a managerial viewpoint. (S)

AGBU 545. Supply Chain Management in Agribusiness. 3(3,0). This course is designed to provide an understanding of the principles, operations, functional relationships, and strategic role of supply chain management in the area of agribusiness. The purpose of the course is to help students develop necessary skills to analyze and evaluate agribusiness chains in terms of value creation and supply chain management.

AGBU 555. Agribusiness Strategy. 3(3,0). This course is designed to be a capstone course that captures agribusiness management, agribusiness marketing and finance principles. Students are expected to analyze and solve problems that are facing the modern agribusiness manager. Case studies and simulation games are used. (S)

AGBU 560. Quantitative Methods of Agribusiness Decisions. 3(3,0). This course develops expertise in quantitative problem-solving techniques necessary for decision-making in agribusiness. Emphasis will be placed on the formulation and solution of business problems using selected quantitative tools such as linear programming, simulation, game theory, inventory models, Markov analysis, transportation models, and queuing theory. Extensive use of computers to evaluate feasible and optimal alternatives to the firm. (F)
AGBU 561. Advanced Statistics. 3(3,0). This course involves the application of statistical analysis to agricultural problems. Specific topics include hypothesis testing; sampling theory; simple and multiple regression, and other relevant topics as dictated by student interest and demand. (F)

AGBU 580. Agricultural Policy Analysis. 3(3,0) This course provides an advanced analysis of the role of agriculture in the general economy and of the economic, political and social forces, which affect the development of agricultural policy. The specific topics include the development of policies and programs, identification of relevant issues, alternative means of attaining desired goals, and the review of criteria for evaluating action programs. (S)

AGBU 590. Agribusiness Internship. 3(3,0). A student must earn on-the-job experience with an agribusiness firm, a farm or a ranch, a governmental agency, or an educational or a research institution. Prior approval of the departmental chairperson is required. (S)

AGBU 599. Technical Writing. 3(3,0) Students working toward the Master of Science in Agribusiness who have opted to pursue the non-thesis option of the program study selected topics under the guidance of a major professor. The end result of this process is the writing of a paper on one of the topics. The paper should be of the quality of a departmental working paper, and in the format of a refereed journal article.

AGBU 600/601. Thesis. (6). Student must write a thesis under the supervision of a designated faculty member. (F,S)

ECONOMICS

ECON 501: Foundation of Economics 3(3,0). This course is designed to present a rigorous analysis of macro and microeconomics theories. The course will emphasize the issues of resource allocation, production, inflation, unemployment, economic growth, money creation and financial institutions. Special attention will be given to the examination of fiscal and monetary policies as they impact the business environment.

ECON 515. Advanced Managerial Economics. 3(3,0). This course is a rigorous examination of those elements of microeconomic theory that relate to decision making by a firm. The emphasis is to bridge the gap between theory and application of analysis to the problems of businesses and other economic institutions. Some of the topics emphasized are demand theory and estimation, production and cost theory, empirical cost analysis, forecasting methods, capital budgeting, risk analysis and decision theory. (S)

DEPARTMENT OF BUSINESS ADMINISTRATION

MANAGEMENT

BA 501. Foundations of Statistics 3(3,0). This course is a fundamental course in the application of statistics. It includes the basic understanding of the concepts and application of descriptive statistics, probability distributions, hypothesis testing, time series and index numbers, and basic linear regression.

BA 519. Statistics for Business Decisions. 3(3,0). This course will allow students to examine the application of statistical analysis in business decision-making. It will focus on the utilization of statistical methods as applied to business problems and operations. Included are descriptive statistics, probability, hypothesis testing, sampling, statistical inference and statistical quality control.

BA 563. Global Business Perspective. 3(3,0). This course covers the essential concepts and tools of international business. Areas to be covered include environments of international business, theories of international business, international financial institutions multinational corporations, country evaluations and selection, international strategy and management.

BA 590. Experiential Learning in Entrepreneurship. 3(3,0). This three-credit course involves building marketable employment skills in a supervised work environment in which a variety of entrepreneurial business-related skills are taught. These skills may include, but are not limited to, accounting, supervising, managing, selling and overall leadership. This course emphasizes goal setting, establishing functional networks and enhancing communication skills.

BE 501. Improvement of Instructions in Stenographic Subjects. 3(3,0). A course designed for in-service teachers and full-time graduate students in business education and related disciplines. Emphasis in the course is on teaching strategies used in teaching the skill of business subjects. (F,S)

BE 502. Improvement of Instructions in Non-Stenographic Subjects. 3(3,0). An overview of the philosophy of business education, the development of the basic business movement, and the relationship of business education to general education are emphasized. Attention is given to the what and how of teaching basic business content subjects. Emphasis is placed on planning, teaching techniques, and supplementary materials. (F,S)

BE 503. Improvement of Instructions in Business Education-Data Processing. 3(3,0). This course is designed to provide the student with an introduction to philosophical and psychological concepts as they relate to data processing and computer programming. The content of the course will provide the student the opportunity to develop instructional materials, select teaching styles and strategies, identifying grading procedures, and construct evaluative techniques for use in secondary and post-secondary schools. (F,S)

BE 511. Principles and Practices in Business Education. 3(3,0). A foundation course for graduate students in business education. It examines the basic philosophy of business education in terms of its historical development, objectives, principles and practices, and trends. (F,S)

BE 512. Analysis of Office Occupations. 3(3,0). A detailed analysis of office occupations in terms of job classifications, job requirements and/or qualifications and job training is made relative to office workers in the modern business organizations. (F,S)

BE 513. Office Organization and Management. 3(3,0). Emphasis in this course is placed on the scientific approach to office organization and management including office layouts, facilities, equipment, office operations, and employing and training office workers. (F,S)

BE 515. Report Writing and Research in Business Education. 3(3,0). A study of recent research reports to evaluate methods of research and report techniques; evaluation of the usefulness of the results in improving business education and reporting techniques in office and classroom work. (F,S)

BE 516. Current Issues in Business Education. 3(3,0). The social, economic, and political issues in the field of business education are identified, analyzed, and discussed in terms of their impact on the future of business education. (F,S)
MGT 514. Small Business Operations: Management and Marketing. 3(3,0). This course is focused on a survey of the theory, tools and strategies used in marketing and management of small businesses. It will include topics such as customer needs analysis, concept generation, product design, market planning, market forecasting and testing. The course considers the important role of new products in growth of an organization.

MKT 575. New Product Development. 3(3,0). This course examines the new product development process from ideas generation to final product. It will include topics such as customer needs analysis, concept generation, product design, market planning, market forecasting and testing. This course considers the important role of new products in growth of an organization.

DEPARTMENT OF FAMILY AND CONSUMER SCIENCES

FCS 500. Teaching Strategies and Technologies in Family and Consumer Sciences. 3(3,0). This course deals with the utilization of performance-based instructional strategies and materials, sex bias and sex role stereotyping and basic skills in family and consumer sciences subject matter.

FCS 502. Curriculum Planning in Family and Consumer Sciences. 3(3,0). This course is designed to help individuals analyze the processes of curriculum planning, to examine the basic elements that constitute the determinants of an educational program, and to describe the principles and procedures that should guide the direction and nature of change in the family
and consumer sciences curricula of the elementary, middle and secondary schools in the future.

**FCS 503. Evaluation in Family and Consumer Sciences. 3(3,0).** This course is designed to identify and to assess current issues and trends in evaluation. The philosophy and the underlying psychology of measurement and evaluation are critiqued in relation to their roles in improving instruction and providing a basis for guidance in strengthening and upgrading the overall effectiveness of family and consumer sciences programs.

**FCS 504. Interior Design. 3(3,0).** This course is designed to provide additional training for in-service teachers in the creation and maintenance of home and work interiors that are aesthetically appropriate.

**FCS 507. Apparel and Textiles. 3(3,0).** This course is designed for in-service teachers and extension professionals. It points up trends and developments in the area of apparel and textiles as they affect the consumer and assist students in forming some basis for dealing with problems growing out of the rapid changes and developments in the area. The study includes identification, selection, test, care and use of various textiles.

**FCS 509. Advanced Apparel Design and Construction. 3(1,4).** This course consists of designing, fitting and construction of apparel and accessories of wool, cotton or linen, silk or synthetic fabrics with emphasis on judgment in use of finish in relation to design.

**FCS 511. Advanced Meal Management. 3(1,4).** Advance study and practice in menu planning, preparation and serving of meals. Special study on management techniques; designed for teaching secondary nutrition and culinary arts.

**FCS 513. Housing, Design and Environment Problems 3(2,2).** Attention is given to problems affecting home planning, financing and legal information in regard to housing and the physical, psychological, and social development of family members.

**FCS 514. Marriage and Family Relationships. 3(3,0).** This course is a study of factors and influences affecting adjustments after marriage, divorce, desertion and other family crises. Attention is given to marriage laws, customs, responsibilities and privileges of families as legal entities of the nation.

**FCS 517. Adult Education in Family and Consumer Sciences. 3(3,0).** This course is the study of developmental needs of adults and changes in society affecting families as a basis for developing adult programs in family and consumer sciences education. Time is provided for the construction, use and evaluation of teaching resources.

**FCS 518 Family and Consumer Sciences Workshop. 3(3,0).** This course is concentrated group study of teaching problems in a particular phase of family and consumer sciences such as nutrition, clothing, home experiences, adult education, and family life. Areas emphasized vary according to the needs and interests of in-service teachers and extension professionals.

**FCS 520. Occupational Education in Family and Consumer Sciences. 3(3,0).** This course is designed to provide an orientation to occupational family and consumer sciences education programs. Emphasis is on teacher competencies needed to prepare secondary students for entry-level employment.

**FCS 521. Problems in Family Resource Management. 3(3,0).** This course is an analysis of human, economic and environmental resources and their effective utilization. Attention given to experimental problems in work-simplifications in work-family environments.

**FCS 522. Performance-Based Instruction in Vocational Education Programs. 3(3,0).** This course is designed for competency development in the utilization of performance based instructional strategies and materials, class-room management and organization techniques.

**FCS 530. Supervision and Administration of Programs for Young Children and Families. 3(3,0).** This course stresses purpose, principles and procedures of effective supervision of programs for young children, oriented toward professional work with the individual, family or community; examination of research pertaining to supervision and techniques for guidance and evaluation.

**FCS 590. Early Childhood Education Practicum. 3(3,0).** This is a course designed to provide prospective preschool teachers with laboratory experiences in guiding and supervising preschool children under the supervision of a qualified classroom teacher. Emphasis will be placed on application of theories, basic equipment and play materials.

**FCS 599. Special Problems in Family and Consumer Sciences.** This course is designed to provide graduate students with the opportunity to participate in indepth study and pursue action-oriented research on contemporary problems or particular interest as related to their professional responsibilities.

**FCS 699. Special Topics in Family and Consumer Sciences. 3(3,0).** In this course, topics are selected from various areas in Family and Consumer Sciences including trends, methods, and other applicable approaches. Special topics may be repeated for a maximum of six credits provided the content is different. Prerequisite: Approval of faculty.

**INDIVIDUAL AND FAMILY DEVELOPMENT**

**IFD 501. Family Life Education. 3(3,0).** This course examines the nature and dynamics of family centered education. Definitions, historical and theoretical perspectives, diversity of programs, and clientele are examined. Pro-grammatic effects of research, legislation, ethics and policy are inherent for each developmental stage. (F).

**IFD 503. Cultural Foundations of Family Life. 3(3,0).** Present is a broad view of the American family, past and present. Cultural influences, the-oretical approaches, social class, racial, ethnic, and religious variations; values, traditions, and folklore related to family interaction and sociopolitical perspectives are emphasized. (F).

**IFD 506. Human Sexuality. 3(3,0).** The multidisciplinary approach focuses on research information and demographic data related to the total concept of human sexuality. The course is designed for elementary, middle and high school professionals and other educators. It addresses teaching strategies for planning, developing and implementing instruction at various levels.

**IFD 515. The Family: Middle and Later Years. 3(3,0).** This course focuses on middle age and aging, including biological changes, gender roles, marital adjustment, affective needs, retirement, life long learning, grand-parenting, and death. (F)

**IFD 516. The Individual and Family Development. 3(3,0).** An analysis of adult behaviors and self actualization within families of origin context. Emphasized are historical perspectives, psychosocial paradigms, and assessment of personal traits and states. (F).

**IFD 519. Infants and Toddlers. 3(3,0).** This course is a multidisciplinary approach to the study of the theoretical, research and practical factors relating to the first three years of life. It explores the mode of information of
various developmental processes such as parent-child relationship, early socialization patterns, peer-relationships and styles of cognitive growth.

**IFD 520. Advanced Child Development. 3(3,0).** Current research of developmental and behavioral characteristics of children from infancy to ado-lescence. Impacts of environment and family upon the developing child are woven through societal paradigms. Heuristic analyses of trends and policies from inter-disciplinary perspectives. (S).

**IFD 525. Contemporary Aspects of Education for Parenthood. 3(3,0).** Preparation of Family Sciences professionals to optimize development of child-rearing through a parenting process workshop is the central focus. Addressed are decisioning, parental roles and responsibilities, cultural diversities, professional and parental ethics, societal influences, and policy awareness. (S).

**IFD 600 3(3,0) and IFD 601-01 3(3,0). Thesis Writing.** In these courses, candidates conduct entry level independent research culminating in the writing and oral defense of a thesis. Outlines for thesis must be presented and approved in IFD 600. (S, F).

**IFD 601-02. Thesis Continuation 1(1,0).** A one credit hour course to facilitate the requirement for continuous enrollment, including summer, until degree is completed. Applicable each term when not fully enrolled and/or when necessary to delay the thesis writing and/or study process. A grade of SP/NP will be assigned until all requirements are met.

**IFD 602 3(3,0) and IFD 603-01 3(3,0). Problem in Lieu of Thesis.** This option to a thesis enables students to demonstrate professional and scholarly competencies. Activities include, but are not limited to: in-depth research paper; development and implementation of creative project; summarization of data for a designated problem; or a supervised practicum. A grade of SP/NP will be assigned until all requirements are met. (six credits). (S, F).

**IFD 603-02. Problem in Lieu of Thesis Continuation 1(1,0).** A one credit hour course to facilitate the requirement for continuous enrollment, including summer, until degree is completed. Applicable each term when not fully enrolled and/or when necessary to delay continuous problem in lieu of thesis preparation and/or study process. A grade of SP/NP will be assigned until all requirements are met.

**NUTRITIONAL SCIENCES**

**NS 516. Nutrition and Health. 3(3,0).** This course focuses upon nutri-tional requirements for individuals of different age; special emphasis on diges-tion, metabolism, vitamins and minerals and their relationships to other food components. World health problems are emphasized.

**NS 518. Food Science. 3(1,4).** This is a course in accelerated laboratory experiences, testing fundamental principles of food preparation and recent advances in food; evaluating products and establishing standards for foods. The development of an independent research problem is required.

**NS 530. Integrated Nutrition. 3(3,0).** In this course, students study the physiological and biochemical aspects of the nutrition of higher animals and man, with special emphasis on digestion, utilization, metabolism of each nutrient and their relationship to each other. Prerequisite: C 308.

**NS 531. Advanced Nutrition Laboratory. 3(3,0).** The focus of this course is upon theory and application of biochemical laboratory techniques, anthropo-metric and dietary data and their relationship to research in human biological sciences. Computerized nutritional assessment and statistical analysis included. Prerequisite: C 308.

**NS 532. Nutrition Seminar. 3(3,0).** This course consists of discussion of current trends, issues and problems in nutrition. Written and oral presenta-tions of technical reports are required.

**NS 533. Therapeutic Nutrition. 3(2,2).** This course includes the applica-tion of the principles of normal nutrition on planning diets for special and patho-logical conditions.

**NS 535. Community Nutrition. 3(3,0).** Basic information in the applica-tion of nutrition principles and food practices and selections of individuals and groups of people in communities. Consideration will be given to existing social, cultural, and economic conditions.

**NS 536. Clinical Experience in Dietetics. 3(1,8).** This course includes planned educational experiences in selected health-care facilities applying prin-ciples of nutrition to disease. Prerequisite: NS 533.

**NS 537. Maternal and Child Nutrition. 3(3,0).** This is a course in appli-cation of principles of prenatal, infant and child nutrition. It includes clinical experiences and special lectures.

**NS 538. Nutrition and Aging. 3(3,0).** This is a course in nutritional prob-lems of the aging population. Emphasis is on nutritional requirements, dietary intake and diet records and the effect of nutrition on the rate of biological aging. Social and psychological problems of the aging population are discussed. Field experiences with elders included.

**NS 539. Nutrition in Mental Retardation and Developmental Disor-ders. 3(3,0).** This course is an orientation to observation of and participation in the interdisciplinary diagnosis and treatment of mentally disordered indivi-duals. Emphasis is placed on the role of the dietitian/nutritionist in controlling and maintaining optimal health. Clinical experiences are an integral component. Prerequisite: C 308.

**NS 600. Thesis Writing. 3(3,0).** In this course, candidates will do in-depth research of subject area project, review the literature and complete an annotat-ed bibliography and an outline. The study must be approved by the major pro-fessor and thesis committee.

**NS 601-01. Thesis Writing. 3(3,0).** In this course, research culminating in the writing of a thesis is implemented. A grade of SP/NP will be assigned until all requirements are met.

**NS 601-02. Thesis Writing Continuation 1(1,0).** A one credit hour course to facilitate the requirement for continuous enrollment including summer, until degree is completed. Applicable each term when not fully enrolled and/or when necessary to delay the thesis writing and/or study process. A grade of SP/NP will be assigned until all requirements are met.

**NS 602. Problem in Lieu of Thesis. 3(3,0).** Topics will be selected from various nutrition and health areas for indepth research/term papers and/or projects according to the individual students interest and need.

**NS 603. Problem in Lieu of Thesis. 3(3,0).** Topics selected from vari-ous nutrition and health areas for indepth research/term papers and/or projects according to the individual students interest and need will be finalized. A grade of SP/NP will be assigned until all requirements are met.

**NS 603-02. Problem in Lieu of Thesis Continuation. 1(1,0).** A one credit hour course to facilitate the requirement for continuous enrollment, including summer, until degree is completed. Applicable each term when not fully enrolled and/or when necessary to delay continuous problem in lieu of thesis preparation and/or study process. A grade of SP/NP will be assigned until requirements are met.
CHILD DEVELOPMENT

CD 501. Infants and Toddlers. 3(3,0). This course is a multidisciplinary approach to the study of the theoretical, research and practical factors relating to the first three years of life. The course explores the mode of

HEALTH AND PHYSICAL EDUCATION

PE 501. Curriculum and Supervision in Physical Education K-12. 3(3,0). This course is designed to provide information and experiences in planning, implementing, and evaluating quality physical education programs and activities for middle school and high school students. In addition to the curriculum itself, emphasis is also placed on using a variety of teaching styles and on supervising and evaluating the teaching-learning process of teachers at all stages of development. Professional students, student teachers, physical education specialists, and teacher educators in a variety of settings.

PE 502. Curriculum Planning and Development for Early Childhood/Elementary Health and Physical Education. 3(3,0). This course is designed to provide experiences in organizing, planning and implementing health education, physical education activities and safety practices.

PE 503. Leadership Issues and Trends in Physical Education and Sport. 3(3,0). This course will examine issues and trends concerning the cultural, social, and scientific foundations of physical education and sport. It will also present and discuss the important issues and trends that have shaped and guided the profession of physical education. Students will examine the impact of past and current decisions in physical education. Special emphasis will also be placed on discussing future issues and trends in physical education and their impact on students, schools and the society.

PE 505. Administration in Physical Education & Sport. 3(3,0). This course is designed to present principals, concepts, information and experiences for the effective administration and management of physical education and sport programs. This course will prepare individuals for leadership roles. It includes aspects of administration pertaining to planning, programming, personnel, technology, budgeting, equipment, facilities, safety, community relations, extra curriculum programs and legal concerns.

PE 507. Measurement and Technological Applications in Physical Education. 3(3,0). Study the theory, selection, construction, administration, and interpretation of appropriate instruments in the field of physical education for the assessment of students, programs, and the teaching-learning process. Class activity will include study of, discussion about, and practical experience with selected tests: application, scoring, interpretation, and construction. Emphasis will be also placed on use of computers and other technology for administrative, instructional, and analytical purposes.

PE 510. Scientific Principles of Physical Education. 3(3,0). This course is designed to cover the major concepts in biomechanics and exercise physiology. It will focus on an anatomical, physiological, and mechanical analysis of human movement.

PE 512. Principles of Motor Learning and Motor Performance. 3(3,0). This course is designed to investigate the underlying mechanisms of motor control at both psychological and neurological levels of analysis. It will attempt to explore the principles governing both the control and the learning of movements.

PE 514. Principles and Administration of Wellness Programs. 3(3,0). This course is designed to cover principles of fitness and nutrition that develop wellness. It will focus on techniques used to develop healthy lifestyles. The latest trends and issues will be discussed.

DEPARTMENT OF HEALTH SCIENCES

PE 516. Developmental and Adapted Physical Education. 3(3,0). This course examines the program needs of special populations within the school system for adapted physical education experiences. Advanced students are exposed methods, materials, programs, legislation and new technologies that are utilized to teach physical education to special populations. A growth and development perspective and motor skills assessment provides a basis for the study of program development for physically, mentally and emotionally challenged populations.

PE 602. Research Project. 3(3,0). This course will review research processes in physical education, sport and health education. Students will research a topic and write a research report centered around some topic in the area of the candidates teaching or administrative responsibilities.

SPEECH PATHOLOGY AND AUDIOLOGY

SPA 500. Graduate Study in Speech Pathology and Audiology. 3(3,0). Course designed to acquaint the entering graduate student with advanced study in speech-language pathology and audiology. Emphasis is on student selection of the appropriate designs for research on normal and abnormal communication. Each student must develop either a clinical or laboratory research proposal. (F)

SPA 501. Clinical Report Writing. 3(3,0). Interviewing techniques; information organization; preparation of the various types of clinical reports.

SPA 505. Introduction to Communication Disorders. 3(3,0). Classification and etiology of speech disorders; associated problems of the communicatively handicapped; general practices employed in the diagnosis and treatment of persons with speech and hearing disorders. (F)

SPA 510. Psychology of Speech. 3(3,0). Basic psychological principles involved in speech development; function of speech in social adjustment, mental activity and social function; application of psychological principles to the communicative process.

SPA 511. Anatomy and Physiology of Speech and Hearing. 3(3,1). Study of the structure and function of the human mechanisms by which speech sounds are produced and received. (F)

SPA 514. Introduction to Phonetics. 3(3,1). Introduction to the study of English phonemes and the laws that govern their patterning. Acoustic and physiologic features of English phonemes are emphasized. Course includes practice with the International Phonetic Alphabet to develop speech transcription skills and the exploration of current research in phonetics through critical reviews of the literature. (S).

SPA 516. Speech and Hearing Science. 3(3,1). Introduction to the scientific study of speech production and speech perception; study of the acoustic characteristics of speech and electrical signals; review of analog and digital recording and analysis techniques. Course includes systematic exploration of selected topics in speech and hearing science through individualized projects and literature reviews. (F)

SPA 517. Instrumentation in Speech and Hearing Science. 3(3,1). This course will provide instruction on the application of various laboratory equipment, e.g., audio and video recorders, oscillators, oscilloscopes,
wave analyzers, sound spectrographs, etc.) To the management of speech and hearing behaviors. Basic electronic and acoustic concepts (impedance, Ohms law, volt-age, bandwidth, etc.) will be discussed. Prerequisite: SPA 516

SPA 520. Speech and Language Development. 3(3,0). Course emphasizes the study of normal language acquisition, processes, and related linguisti-c theory. Students learn basic norms and descriptive procedures for language development as a basis for diagnosis. (S)

SPA 521. Cultural Language Variations. 3(3,0). Study of the dialectal and linguistic variations of normal language as a function of cultural, envi-ronmental, and social differences. (S).

SPA 522. Child Language Disorders. 3(3,0). Systematic exploration of procedures and techniques used in the identification, diagnosis and manage-ment of language disorders in infants, toddlers, children, and adolescents. Pre-requisite: SPA 520 or permission of the instructor. (S)

SPA 530. Articulation Disorders. 3(3,0). Detailed study of the nature, diagnosis and treatment of articulation disorders, with emphasis on phono-logical process development and remediation. Current literature is reviewed. Projects are designed to meet individual student needs. (F)

SPA 540. Stuttering. 3(3,0). Study of the theories and therapies basic to the management of fluency disorders in children and adults. (S,Su)

SPA 550. Disorders of Phonation. 3(3,0). Comprehensive study of the etiology and characteristics of organic, functional and psychogenic voice disorders. Emphasis is on instrumentally based assessment and interven-tion procedures. (S)

SPA 560. Introduction to Audiology. 3(3,1). Survey of the disorders of hearing; emphasis on techniques and interpretation of pure-tone audiometric measurements; introduction to speech audiometry. (F)

SPA 561. Diagnostic Procedures in Audiology. 3(3,1). Advanced study of audiological techniques used in assessing rehabilitative needs; emphasis on audiological tests used in the differential diagnosis of auditory impairments. Clinical practicum is required.

SPA 562. Psychology of the Hearing Impaired. 3(3,0). Study of the intellectual development, personality characteristics, emotional adjustment, and associated problems of the severe to profoundly hard-of-hearing. Prerequisite: SPA 560 or equivalent.

SPA 563. Rehabilitation of the Hearing Impaired. 3(3,1). Study of the theories and procedures used in the rehabilitation of the deaf and hard-of-hearing. Emphasis is on the comprehensive rehabilitation of moderate to severely hearing impaired individuals. Prerequisite: SPA 560 or equivalent. (S)

SPA 564. Pediatric Audiology. 3(3,1). Current audiological testing tech-niques for infants and young children. Course includes conditioned orienting-reflex audiometry, play audiometry, pure tone screening, and BSER. A review of etiologies of hearing loss and philosophies and methodologies of classical conditioning are also included in the course. Prerequisites: SPA 560 and 561 or equiv-alent.

SPA 565. Clinical Audiology. 3(3,1). Theory and practice of the basic audiological batter; interpretation and application of test results; operation and performance of hearing aids, and calibration procedures. Prerequisites: SPA 560 and 561 or equivalent.

SPA 566. Advanced Audiological Evaluation. 3(3,1). Advanced tech-niques for assessing audiologic function and the contribution of these tech-
ADULT EDUCATION

AED 550. Teaching Strategies for Adult Basic Education. 3(3,0). This course is designed to provide a sound background from research data about the principles, methodology, and instructional competencies which underlie the areas referred to as adult education. These areas include (a) teaching the basic skills to adults; (b) teaching adults to develop new insights, attitudes, values, and skills; (3) teaching adults to help themselves develop positive attitudes toward and acceptance of aging, illness, and death; and (d) teaching adult citizens skills of thinking and learning, group and intergroup dynamics, functional democracy, and human geography.

AED 551. Introduction to Community Education. 3(3,0). This is a survey course designed to provide the student with an overview of the community education movement in the United States. The aspects to be analyzed include how community education offers lifelong learning and enrichment opportunities in education, recreation, social and related cultural services with programs and activities coordinated and developed for citizens of all ages, ethnic backgrounds, and socioeconomic groups.

AED 552. Administration of Adult, Continuing, and Community Education Systems. 3(3,0). The orientation of this course reflects a deep commitment to increasing the administrators capacity to humanize the schools. In this effort, three critical sets of systems, belief, human and organizational systems, which must be dealt with by school administrators are described and analyzed. These systems comprise screens through which educational decision making takes place, and forming part of a large system which comprises the context of the school executive as he works toward administrative effectiveness.

AED 555. Adult Learner. 3(3,0). This course is designed to (a) investigate the various problems related to adult learning; (b) enable students to acquire an understanding of different learning patterns of adults; (c) identify similarities and differences compared with learning of youth; (d) understand how adult educators, through research and practice are approaching solutions for these problems, and (e) how adult education programs are designed to serve the differentiated needs and uniqueness demanded by the adult learning situation.

AED 556. Fundamentals of Teaching in Deprived Areas. 3(3,0). This course is designed to identify the wants, needs and general characteristics of the dis-advantaged adult; (b) an understanding of his needs and general characteristics, and (c) an understanding of materials, procedures, and techniques of motivation and instruction in the major areas of skill development, communication, arithmetic, social living, and science.

AED 557. Teaching the Disadvantaged Adult. 3(3,0). This course is designed to develop (a) an understanding of the circumstances of life for the dis-advantaged adult; (b) an understanding of his needs and general characteristics, and (c) an understanding of materials, procedures, and techniques of motivation and instruction in the major areas of skill development, communication, arithmetic, social living, and science.

AED 558. Family Finance Education for Adults. 3(3,0). This course offers a unique opportunity for modern consumer education for adults and close cooperation of educators, businessmen, and other professionals in providing a vital education service for the community. Also, an examination will be made of the nature of personal and family financial problems, factors affecting adequacy and security of income with special reference to insurance and investment and standards of living as affected by real and commodity income.

INSTRUCTIONAL TECHNOLOGY

ITE 511(Formerly ED 511). Instructional Learning Methods in Reading. 3(3,0). This is a course in the selection and utilization of instructional reading materials in the learning environment, elementary through adult levels. Audio and visual materials and procedures are emphasized with
some attention given to bibliography and reference books for reading teachers. Graduate requirements include a written analysis on methodology and application with an annotated bibliography.

ITE 512 (Formerly ED 512). Preparation of Teacher-Made Instructional Materials in Reading. 3(3,0). This course stresses laboratory preparation of bulletin boards, opaque materials, models, slides, flipboards, illustrating, mounting and laminating, lettering and coloring. Graduate requirements include developing instructional packets of audiovisual aids for teaching a series of reading skills. Prerequisite: ITE 511.

ITE 530 (Formerly ED 530). Advanced Instructional Technology. 3(3,0). This course focuses on systematic ways of utilizing instructional technology, from objectives to evaluation, including resources and conditions to bring about effective instruction utilizing microcomputers and electronic media.

CURRICULUM AND INSTRUCTION

EDCI 523. Curriculum Development in the Elementary School (Formerly ED 515a). 3(3,0). This course is designed to acquaint teachers, principals and supervisors with major purposes and goals of education in relation to our democratic way of life. Trends in curricular change are presented, and consideration is given to principles and methods of curriculum construction and revision in the elementary school. Different types of curriculum are discussed. The course provides the student with a picture of the elementary school as it exists with respect to (a) its pupils, (b) the teacher personnel, and (c) theory and practice and curricular offerings. Students will have an opportunity to prepare units. (F)

EDCI 524 (Formerly ED 515b). Curriculum Development in the Secondary School. 3(3,0). This course is designed to give the teachers, principals, and supervisors a general overview of principles and methods of curriculum development and revision in the secondary school. A survey of the essential features of the curricula of modern junior and senior high schools is included. Some time is given to the preparation of units. The course will provide the student with a picture of the secondary school as it exists with respect to (a) characteristics of its pupils; (b) the teacher personnel; (c) theory and practice of curriculum offerings, and (d) school-community relations. (F)

EDCI 538 (Formerly ED 538). Curriculum in the Middle School. 3(3,0). Curriculum in the Middle School is a study of grouping patterns, goals, and materials of instruction unique to the needs of the child in the fifth, sixth, seventh, and eighth grades. The teacher-education student will also be involved in short- and long-range planning, and the development of skills in classroom management, interpersonal relationships, appraisal and diagnostic techniques for prescription writing, and measurement and evaluation of the individual and program. Graduate students taking this course will be required to engage in a research project in addition to meeting regular course requirements. (F).

EDCI 539 (Formerly ED 539). Instructional Methods for the Middle School. 3(3). In this course, theories of learning dealing with the mental, social, moral, emotional and physical development of the middle school child are implemented through instructional techniques and procedures. Stress is placed upon the appropriateness of the mode-individual, small-group or large-group for the “objective” and the learning style of the individual. The teacher education student demonstrates his competencies with students in the fifth, sixth, seventh, or eighth grades during field experiences.

EDCI 547 (Formerly ED 547). Foundations for Curriculum Development. 3(3,0). The content in this course includes both theory and practice of curriculum development as determined by the sociological, philosophical, and psycho-logical ramifications that manifest themselves as social and cultural change. It includes the nature of knowledge and learning theory, also. The knowledge of the process of curriculum planning and design of the curriculum is the expected outcome. (F,S)

EDCI 750. Introduction to Curriculum Systems (Formerly EAC 750). 3(3,0). The content of this course includes exploration of forces influencing goals and curriculum planning, trends and issues, traditional and emergent curricular designs. Current proposals for change; model for curriculum planning. (F)

EDCI 751. Principles and Procedures in Designing Curriculum (Formerly EAC 751). 3(3,0). Systematic curriculum planning; students develop models for planning, formulate plans, and outline a curriculum design for an educational setting. Theory and techniques of curriculum construction are adapted to special needs of particular schools. Prerequisite: ITE 512. (S)

EDCI 752. Techniques of Instruction (Formerly EAC 752). 3(3,0). Selection criteria and survey of alternative technological and non-technical systems for communicating content to students. This course is designed to develop individual competencies, and define objectives in terms of achievable student competencies.

EDCI 753. Curriculum: Elementary School (Formerly EAC 753). 3(3,0). This course is an introduction to issues, concepts, trends, and major orientations to the elementary school curriculum. Examples of currently used curriculum materials are presented. Prerequisite: ECI 750.

EDCI 754. Curriculum: Middle School (Formerly EAC 754). 3(3,0). This course is an examination of the background, development, and defining characteristics of the middle school. Emphasis is given to the relationship between the variables of community setting, student characteristics, principles of learning and motivation, examples of curriculum and instructional programs and the role of the teacher. Prerequisite: ECI 750.

EDCI 755. Curriculum: Secondary School (Formerly EAC 755). 3(3,0). This course is a study of the modern secondary school curriculum including signifi-cant curriculum issues and movements of the past and present. Specific attention is given to objectives, sequence, major problems and recent developments in each secondary school program area. Prerequisite: ECI 750.

EDCI 757. Curriculum: Advanced Theory (Formerly EAC 757). 3(3,0). This course is a study of the most significant recent developments in curricular concepts and patterns, and it is directed toward a deeper understanding of the theoretical base underlying these developments. Prerequisites: ECI 750 and 751.

EDCI 758. Curriculum: Evaluation (Formerly EAC 758). 3(3,0). This course requires extensive reading about principles and techniques of curriculum evaluation in conjunction with experience in planning a curriculum evaluation. The content includes evaluation of programs including objectives and criteria of pro-gram evaluation, evaluation models, evaluative methodologies, selection of evaluative instruments, collection and analysis of data, preparing program re-ommendations. (F,S)

EDCI 759. Seminar: Curriculum Implementation and Change (Formerly EAC 759). 3(3,0). This course requires a review and evaluation of theories, mod-els, and strategies for change and recognition and use of this knowledge as a practical guide to problem solving. Prerequisites: ECI 750, 751, and 757.

EARLY CHILDHOOD EDUCATION

ECE 502 (Formerly IFD 502). Cognitive and Language Development in Children. 3(3,0). Theories of empirical findings in the development of
think-ing and intelligence. Theories of language acquisition research on syn-
tactic and semantic development and developmental psycholinguistics. (S)

ECE 510 (Formerly IFD 510). Advanced Study of Early Childhood Curricula and Methods. 3(3,0). Students will identify their philosophy of education. Emphasis will be early-childhood program models, curricula and strate-gies as related to research and social needs. (F)

ECE 513. Early Childhood Curriculum. 3(3,0). The purpose of this course is to familiarize prospective kindergarten teachers with basic principles under-lying curriculum planning for children at this level. An attempt is made to syn-thesize the implications of current investigations and to indicate those princi-ples that must be considered in developing a comprehen-sive program.

ECE 514. Early Childhood Methods and Materials. 3(3,0). The course is designed to provide prospective kindergarten teachers with a thorough under-standing of methodological experience and materials appropriate for practical use at this level. Attempts will be made to interpret theories of learning as applied to instruction in terms of actual classroom situations through observa-tions of, and participation with children. Actual work with the child in all learning situations is given equal value through observations, planning, micro-teaching and evaluating procedures.

ECE 522. Assessing and Interpreting Behavior of Young Children. 3(3,0). In this course, opportunities are provided to explore in-depth assess-ment instruments to evaluate the behavior of young children. Emphasis is placed on standardized and achievement tests, diagnostic instrument self-evaluation checklist, etc. The focus is on a variety of methods and tech-niques used to record children’s ability in a variety of settings.

ECE 590. Early Childhood Education Practicum. 3(3,0). This is a course designed to provide prospective kindergarten teachers with labora-tory experi-ence in guiding and supervising kindergarten children under the supervision of a qualified classroom teacher. Emphasis will be placed on the basic equipment and play materials.

ELEMENTARY EDUCATION

ED 522. Diagnostic/Prescriptive Teaching for the Classroom Teacher. 3(3,0). Designed to enable the regular classroom teacher to develop the nec-es-sary assessment skills required to identify strengths and weaknesses in children who manifest a variety of learning and behavioral problems and to delineate the critical skills necessary for success in the academic areas through a diagnostic-prescriptive approach to learning. There will be em-phasis upon adjusting instruction through task analysis and use of interven-tion techniques. (F,S)

ED 527. Classroom Management. 3(3,0). The course focuses on an analy-sis of the sociopsychological dynamics of classroom groups with emphasis on implementing methodologies from behavior modification, socio-emotional and group process theories of classroom management. (F,S)

ED 529. Supervision of Clinical Experiences. 3(3,0). This course is designed especially for cooperating public school teachers who are involved and who would like to become involved with the experience-oriented teach-er perfor-mance program at South Carolina State University. This course has as its ter-minal objective cooperating teachers who have developed expert-ise in the fol-lowing areas: increased knowledge and performance skills in the supervisory role of interns, identification of skills and strategies neces-sary for supervision, improved instruction and evaluation and the mastery of instructional support-ive aspects. ( )

ED 533. Teaching in Urban Schools. 3(3,0). This course teaches diag-nostic and prescriptive approaches to teaching and learning in schools serving the low-income learner; and analysis of various programs that ac-
centuate the edu-ca-tional progress of urban learners, their lifestyles, and their relative edu-ca-tional beliefs. ( )

ED 534. Seminar in Elementary Education. 3(3,0). This course in-cludes seminar discussion meetings and field experiences emphasizing prac-tical aspects of teaching at the elementary level of instruction; organizational pat-terns and new curricula currently operational in elementary schools. Content focus is on children’s literature, curriculum development, language arts, mathe-matics, reading, science, social studies, exceptional students, and other topics generated by student interest. (S)

ED 519. Multicultural Education. 3(3,0). This course is an inquiry into multicultur-al dimension of American education. Comparison of ethnic, racial, religious, and social educational milieus with regard, to cultural and socioeco-nomic differences. A philosophic analysis of the concept of cul-tural pluralism and its broad implications for American education are dis-cussed.

ED 699. Special Topics in Education. (1-0). In this course, topics are selected from various areas in education including trends, methods, and other applicable approaches. Special topics may be repeated to a maximum of six credits provided the content is different. Prerequisite: Approval of staff.

MAT PROFESSIONAL EDUCATION COURSE

ED 499. Directed Teaching/Clinical Practicum. 3(3,0). This semi-ster-long course is designed to provide prospective teachers pursuing the MAT degree with structured clinical experiences in analyzing effective teaching and apply-ing skills acquired in teaching a maximum of two classes under the guidance and supervision of qualified classroom teachers. Empha-sis will be placed on implementing effective classroom management skills, questioning strategies, instructional planning to teach concepts, implementa-tion of instruction and evaluation. This course is part I of the prerequisite to ED 550.

EAR 599. Effective School Research, Measurement, Evaluation, and Assessment. 3(3,0). This course is designed to acquaint MAT students with the methods and techniques of research, measurement, evaluation and assessment used in education. Emphasis will be given to designing ethnographic studies with training and observation of student and teacher behav-iour in the classroom. Statistical techniques and theoretical concepts in edu-ca-tional and psychological test, measurement and assessment will also be addressed. An ethnographic study is a required product.

RED 511. Instructional Learning Methods in Teaching. 3(3,0). Read-ing and Specialized Methods and learning materials used to teach reading through specialized content. The MAT students develop skills in using the content of their certification areas to teach reading skills. They also develop a repertoire of teaching methods for teaching the content.

ED 550. Directed Teaching/Clinical Internship. 3(3,0). This course is a continuation of ED 499. The student assumes full teaching responsibility for three or four classes over a full semester for a maximum of 16 weeks. This unpaid internship is directed by a qualified master teacher in the student’s cer-tification area of study.

RED 506. Studies in Childrens Literature. 3(3,0). A survey of childrens literature with emphasis on innovative approaches in instructional delivery.

ED 603. Comprehensive Examination. 0(0,0). The final examination for the MAT program. The exam requires written responses to questions assessing both professional education and teaching content knowledge. Responses require higher-level thought processes.
PSYCHOLOGICAL FOUNDATIONS

ED 503. Human Growth and Development. 3(3,0). This course is a study of the processes of human growth and developing patterns of behavior through-out the life span. Particular emphasis will be placed on the physical, mental, emotional, and intellectual growth of the individual and the significance of controlled and uncontrolled environmental influences on the behavior and learning processes. (F,S)

ED 506. Adolescent Psychology. 3(3,0). This course is a study of the physical, mental, emotional, intellectual, social, and moral development of the adolescent. It includes involvement with theory and research on behavior and development of the adolescent with emphasis on the implications of these data for education and socialization over the transitional period from childhood in contemporary American society.

ED 518. The History and Philosophy of Education. 3(3,0). This course is a study of the development of social thought and its influences on educational practices and current applications. The course traces the major phases of educational development in world history and emphasizes the impact of cultural changes. (F,S)

ED 545. Learning Theories for Teachers. 3(3,0). This course will enable a student to study contemporary and historically important learning theories and discuss attempts to relate the continually growing fund of scientific information to practical education situations. Sufficient historical and contemporary perspectives are included to enable the student to make informed decisions in choosing a theory or in selecting particular principles from available theories. (F,S)

ED 546. Human Development and Learning Situations. 3(3,0). Human Development and Learning Situations is designed to give the student an opportunity to make an application of human growth principles and concepts in a laboratory with children. The learning process, application of learning principles, and measurement of physical, educational, and psychological characteristics of the learner are studied.

ED 600. Thesis Writing. 3(3,0). This course is designed (1) to assist teachers and administrators to apply research methods to solution of practical problems arising out of classroom instruction and administration, and (2) to acquaint candidates for the masters degree with the systematic knowledge of the tools of research in education. Students planning to write a thesis will present outline for discussion and appraisal. Prerequisite: ED 500 and 501.

ED 601. Thesis Writing. 3(3,0). In this course, students will do independent study of research culminating in the writing of the thesis. Outlines for the thesis or study must be presented and approved in ED 600. Prerequisites: ED 500, 501 and 600.

ED 602. Research Project. 3(3,0). This terminal course consists of writing a project centered around some problem in the area of the candidates teaching or administrative responsibilities.

EPSY 751. Advanced Learning Theories. 3(3,0). This course is designed to assist teachers, counselors, administrators, and other personnel in helping professions in developing skills to critique the various learning theories con-cerned with the development of thinking and imagery processes from early childhood through adulthood. The primary emphasis is on learning models which have implications for program and curriculum development.

READING EDUCATION

RED 507. Advanced Teaching of Reading in the Elementary School. 3(3). A course for teaching reading in the elementary school. Emphasis is placed upon basic reading skills, methods and techniques, research application, field experiences, materials for different types of learners, and evaluation of reading program. (F,S)

RED 508. Diagnosis and Correction of Reading Difficulties. 3(3,0). Reading Education 507, Advanced Teaching of Reading in the Elementary School or Education 517, Advanced Teaching of Reading in the Secondary School are prerequisites. This course is designed for developing diagnostic and treatment techniques for students with reading difficulties. Emphasis is placed upon causative factors, prescribing and constructing treatment programs, and individual and group testing. A confidential case report is required of the youngsters diagnosed.

RED 510. Practicum in Reading. 3(3,0). This course is designed to provide the prescribed treatment for students (K-12) with reading difficulties. The course is centered on teaching and evaluating. A written report is required of each student taught. Prerequisites: Reading Education 507 and 508.

RED 513. Reading Methods and Materials. 3(3,0). This course provides a diversified background in theory, philosophy, research, selection and evaluation of methods and materials to meet individual and group needs.

RED 516. Advanced Teaching of Language Arts in the Elementary School. 3(3,0). A study of language acquisition and its impact upon the cognitive development of learners; the interrelationship of the common skills (reading, writing, listening and speaking); children and adolescent literature, and methods for teaching and learning in the language arts.

RED 517. Advanced Teaching of Reading in the Secondary School. 3(3,0). This course stresses a study of content and procedures in teaching reading to students in junior and senior high schools. Its purpose is to consider basic reading skills and methods in the context of the subject-matter areas in the secondary curriculum.

RED 522. Teaching Reading in the Middle School. 3(3,0). This course is designed to present the unique characteristics of the middle schools and middle school pupils (preadolescents), describe reading content, and develop instructional strategies for the practicing teacher in the middle school.

RED 530. Organization and Supervision of Reading Programs. 3(3,0). In this course, experiences are provided in examining of objectives, materials and teaching procedures; observing reading programs in multilevel situations; creating class and individual projects; and assuming the responsibility for setting up and evaluating reading programs. Prerequisites: RED 507, 508, 510, 513 and 517. This course is designed to provide for certification status for those who will work in supervisory positions in reading at either the elementary or secondary level.

SECONDARY EDUCATION

ED 505. Social Studies for Middle School Teachers. 3(3,0). An inservice course in social studies for the middle school teacher. The course is designed to enable the middle school teacher to investigate, reexamine and develop instructional competencies deemed generic for the middle school. The subject matter for the course will surround concepts and issues found in middle school social-studies textbooks. (SO)

ED 509. The Teaching of Science. 3(3,0). In this course, the objectives of biological and physical sciences in the secondary level will be defined. Methods of instruction and units of subject-matter will be presented. The use of audio-visual aids will be discussed. This course will be taken after consultation with advisor.
ED 511. Methods of Teaching English. 3(3,0). This course is a study of the content and procedures in the teaching of English to students in junior and senior high schools.

ED 512. Teaching of Secondary Mathematics. 3(3,0). This course is a study of contemporary ideas and methods of teaching specific mathematical subjects to students in junior and senior high schools. Its purpose is to cover mathematical principles in the context of the secondary school curriculum. Prerequisite: Graduate standing and the approval of the Department of Mathematics.

ED 517. Teaching the Social Studies in the Secondary School. 3(3,0). This course emphasizes the place of Social Studies in the Secondary School Program; objectives of the Social Studies; grade placement of the specific subjects; integration and fusion. Adaptation of sound methods of teaching in the social studies are suggested. Techniques for the handling of current events and controversial issues are discussed. Source materials such as textbooks, visual and other teaching aids are reviewed.

ED 521. Geometry for Middle School Teachers. 3(3,0). An in-service course in geometry for the middle school teacher. Emphasis will be on the informal development of geometric concepts and properties. Intuitive geometry and constructions are used as a vehicle for introducing the fundamental definitions and theorems.

ED 528. Advanced Methods of Teaching. 3(3,0). An advanced study and exploration of the current instructional strategies and practices in the classroom (K-12) and an examination of the theories and principles of learning which underlie them.

SPECIAL EDUCATION

SPED 550. Nature and Psychology of the Exceptional Child. (Formerly SPED 570. Introduction to Psychology of Exceptional Children.) 3(3,0). An introductory course to study the characteristics and needs of exceptional children, the problems of working with special disabilities and psychological basis of an appropriate educational program. Designed for special education students and for students and administrators who may work with such children in their classes or those who are preparing for developing special classes for exceptional children. (F,S)

SPED 553. Nature and Needs of the Gifted/Talented Children and Youth. 3(3,0). This course will focus on characteristics: intellectual and cognitive functions, creative abilities, socialization, and environmental factors. Emphasis will be placed on observations and demonstrations. (F)

SPED 554. Educational Strategies for Teaching the Gifted and Talented. 3(3,0). This course will present practical approaches in teaching the gifted/talented. A diversified curriculum and educational programming will be utilized. Prerequisite: SPED 553. (S)

SPED 555. Classroom Management for Teachers of the Academically Gifted. 3(3,0). Various curricula models and program approaches will be employed. The selection and use of content materials, procedures, and methods will be to meet the needs of students on different levels. (F)

SPED 556. Practicum in Teaching the Academically Gifted and Talented. 3(3,0). The course will provide actual teaching experience in the classroom with gifted/talented children and youth. Teaching competencies will be evaluated. Critical problems and issues will be explored in seminar sessions. Prerequisite: SPED 553. (S)

SPED 558. Language Arts for the Exceptional Learner. (Formerly SPED 557, 558, 559.) 3(3,0). This course provides the basics for teaching, listening, reading, spelling and writing skills; a diagnostic prescriptive approach will be utilized. Emphasis will be placed on functional usage of grammar (S).

SPED 560. The Gifted in Socio-Educational Perspectives. 3(3,0). Emphasis will be placed on psychological, social and personal factors, identification and development of gifted children and youth. Implications for curriculum planning, teaching strategies, resources, counseling and guidance. Special attention to the needs of the gifted and several areas among the disadvantaged. (F)

SPED 561. Nature and Psychology of the Mentally Disabled. (Formerly SPED 585. Psychology of the Mentally Disabled.) 3(3,0). A survey of the concepts of mental retardation, psychomotor abilities, learning characteristics, diagnosis and the therapeutic aspects of various degrees of mental retardation. Observational experiences will be offered to support background information and realization of the social impact of mental retardation. (F)

SPED 562. Educational Assessment and Appraisal of the Exceptional Student. (Formerly SPED 562. Diagnostic-Prescriptive Teaching.) 3(3,0). Study of specialized tests utilized for educational diagnosis and prescription for learning problems. Emphasis will be placed on methods in observation, diagnosis, intervention and evaluation. Designed for teachers working with the handicapped children. (S)

SPED 563. Parent and Community Participation in Education for the Disabled. 3(3,0). Empirical treatment and selected issues about parent and community relationships. Examination of strategies to enhance parental and community involvement. Role playing will be utilized for demonstration and growth-facilitating purposes. Designed for teachers working with handicapped children and youth. (F,S)

SPED 564. Behavior Management. 3(3,0). Emphasis will be placed on causes and evaluation of emotional disturbance and social maladjustment; aggressive and withdrawn or excessively rigid children motivation and drives; implications for educational planning: Designed for both regular and special education teachers. (F,S)

SPED 565. Curriculum and Methods of Teaching the Educable Mentally Disabled. (Formerly SPED 575. Educational Procedures for the Mentally Disabled.) 3(3,0). The course acquaints students with the role of the teacher, programs, methods and materials used in teaching mildly/moderately disabled children at different maturation levels. Consideration will be given to placement procedures, reports, records and guidance procedures. Prerequisite: SPED 585. (S)

SPED 566. Nature and Needs of the Severely Disabled. 3(3,0). Study of emotional and social development in childhood and adolescence. Emphasis on neurophysiological and environmental factors; motor, sensory and language functions from a developmental perspective. Designed for special education students. (F)

SPED 567. Special Methods for Teaching the Disabled. 3(3,0). General trends in the field of education of the severely handicapped. Study of special methods and techniques of teaching in programs for the severely disabled at day care centers, residential institutions, group homes and home instruction. Designed for teachers, paraprofessionals, and parents. Prerequisite: SPED 566. (S)

SPED 568. Mainstreaming the Mildly/Moderately Disabled. (Formerly SPED 568. Resource Management and the Learner.) 3(3,0). Classroom structure, management problems, materials and curriculum development; organization and administration of the resource room. Designed for resource teachers, kindergarten teachers, elementary and secondary school teachers.
SPED 569. Materials and Methods for Teaching the Trainable Mentally Disabled. 3(3,0). Specific attention will be given to developing learning activities and materials; motor skills, social and vocational skills, task analysis. Prerequisite: SPED 561. (S)

SPED 571. Nature of Learning Disabilities. 3(3,0). This course deals with the influence of psychological and environmental factors associated with personality and cognitive development and interaction between emotional and learning disorders. Particular emphasis will be placed on neurological systems mediating motor, sensory, and language functions from a developmental perspective. (F)

SPED 572. Materials and Methods for Learning Disabilities. (Formerly SPED 572. Educational Procedures for Learning Disabilities. 3(3,0)). A study that provides theories of methodology and curriculum development for learning disabled children. The course includes an analysis of remedial procedures for correcting deviations perceptual-motor and language development. Deficits in academic skill acquisition are explored through emphasis on organization and planning of activities and materials, use of resources, selection of equipment, guidance and placement procedures. Prerequisite: SPED 571. (S)

SPED 573. Practicum in Instruction with Learning Disabilities. 3(3,0). The course provides practice in working with children who have learning problems. Teaching strategies and skills will facilitate growth in understanding pupils behavior and learning patterns. The development of instructional materials and case studies are included as part of the requirements. (F,S)

SPED 580. Art Education for Disabled Children. 3(3,0). Not designed as a regular arts and crafts course, but one in which arts and crafts are integrated into the daily curriculum experience of social living, enjoyment, reading, writing, spelling, and arithmetic for handicapped children on different maturation levels. (S)

SPED 581. Nature of the Emotionally Disabled. 3(3,0). This course is designed for Special Education majors to study theories of the emotionally disabled. Exploration of etiologies, identification procedures, and theoretical constructs will be examined. Research on the emotionally disabled and socially maladjusted with implications for educational and community planning will be reviewed. Prerequisite: SPED 570. (F)

SPED 582. Educational Strategies for the Emotionally Disabled. (Formerly SPED 582. Educational Procedures for Emotionally Disabled.) 3(3,0). Emphasis will be placed on curriculum development, methods and materials, school programming for the emotionally disabled in regular classes, special classes and institutionalized facilities. Designed for special education students and teachers and administrators who work with emotionally disabled children or are preparing to develop programs. Prerequisite: SPED 581. (S)

SPED 583. Practicum in Instruction of the Emotionally Disabled. 3(3,0). This course deals with theory and practice; the development of skills in teaching, selection of activities, materials and techniques adaptable for the education of emotionally disabled children. Case studies, teacher interpretation of psychoeducational assessment data, and the translation of those data into instructional strategies will be utilized. Prerequisites: SPED 581 and 582. (F,S)

SPED 584. Practicum in Instruction for the Mildly/Moderately Disabled. 3(3,0). A course designed for teachers of special education that provides practical experience and observation. Students will have the opportunity to work with a group of educable mentally disabled, trainable mentally or severely disabled children. Emphasis is placed on curriculum development, organization and planning of instructional activities. Prerequisite: SPED 585. (F,S)

SPED 585. Practicum in Instruction for Severely Disabled. 3(3,0). A course designed for teachers who are preparing to work with the mildly/moderately disabled. Emphasis is placed on placement procedures, assessments of adaptive behavior, curriculum development, IEPs, pre-vocational and a vocational skills, methods and materials. (Students will engage in actual teaching of the disabled). (F,S)

SPED 586. Psychological and Sociological Aspects of the Mentally Disabled. 3(3,0). A study of the degrees of retardation, behavior disorders, diagnostic and remedial procedures, personal and social factors affecting the development of the mentally disabled. Significant attention will be placed on the mentally retarded physical, mental, social and emotional adjustment. (F,S)

SPED 587. Physical Education and Recreation for the Mentally Disabled. 3(3,0). This course deals with theory and practice; the development of skills in recreation, selection of activities, materials and techniques of instruction suitable for children of disabled mental development. (F)

SPED 699. Special Topics in Special Education. (1-6). Topics will be selected from various areas in Special Education including trends, methods, and other applicable approaches. Special topics may be repeated to a maximum of six credits provided the content is different. Prerequisite: Approval of staff. ( )

---

ENGLISH

E 500. Backgrounds of Literature. 3(3,0). The purpose of this course is to acquaint the student with the major forms and techniques of literary expression. Material will be selected from various literatures for study and analysis. (This course is especially recommended for students who do not have an undergraduate degree in English). Three credits.

E 503. Shakespeare. 3(3,0). A study of Shakespeare which explores issues and themes in his plays, his continued relevance to contemporary society, his achievement as an Elizabethan and Jacobean dramatist, and his contribution to British literature and the English language. A section of plays from the Comedies, Histories, Tragedies and Romances, as well as selected Sonnets, will be examined in this course.

E 505. A History of the English Language. 3(3,0). This is an intensive course in the origins and development of the English language, from its early beginnings to the modern period. Careful attention is given to the distinguishing characteristics of the three major periods in which significant language change occurred and the causes of these changes: Old, Middle, and Modern English. The syntactic, morpho-logical, and phonological structure of the English at each stage, the native and non-native varieties of English worldwide, and its present status as a world language are all examined.

E 506. Milton. 3(3,0). An intensive study of Miltons poetry, a few selections from his prose, and his development as a thinker, poet, and philosopher. Three credits.
E 507. Literature for Adolescents. 3(3,0). This is a comprehensive course focusing on the broad scope of literature that is appropriate for adolescents, various theories and views are explored relative to effective approaches aimed at this target group. Familiarity with a wide range of adolescent literature is expected of all students, inclusive of the various genres.

E 508. Survey of British Literature. 3(3,0). An in-depth coverage of British literature from the Middle Ages to the nineteenth century. Representative selections are covered from such major writers as Chaucer, Spenser, Shakespeare, Milton, Swift, Pope, and Tennyson. Other notable literary works are treated as well. Students are expected to engage in the analysis, interpretation, and evaluation of literary works, and to do research on assigned topics.

E 509. Survey of American Literature. 3(3,0). A course that deals with the broad range of American literature from the Colonial Period to the twentieth century. Such major writers as Hawthorne, Melville, and Poe are covered, along with such African-American notables as Langston Hughes, Richard Wright, Ralph Ellison, Toni Morrison, and Gwendolyn Brooks. Students are exposed to the various historical periods, themes, and ideas that helped to shape these major literary figures.

E 531. Literary Criticism. 3(3,0). An introduction to literary analysis with particular emphasis upon the terminology, language, and techniques of literary criticism; emphasis placed upon direct examination and study of literary texts; special attention given to developing skills in close reading of a text in poetry, fiction, and drama. The writing of critical papers. Texts selected from significant writings of American, English, and European authors. Students are expected to show proficiency in applying various critical approaches to the interpretation and analysis of literature, and to do research assignments of high quality.

E 532. Language, Grammar, Communication: A Course for Teachers of English. 3(3,0). The purpose of the course is to provide teachers with the fundamentals that they will need to explore, along with their students, the nature of language and the nature English language, particularly its grammar and its meaning systems. Traditional Grammar, American Structural Grammar and Transformational-Generative Grammar are treated as three views of grammar that a teacher should be prepared to encounter in the classroom.

E 699. Special Topics in English. (1-6). Topics will be selected from various areas in English including trends, methods and other applicable approaches. Special topics may be repeated to a maximum of six credits provided the content is different. Prerequisite: Approval of staff.

FRENCH

F 500. French Education for Teachers of English. 3(3,0). An introduction to French for teachers of English with emphasis on developing a positive self-image among migrant workers by creating an awareness and understanding of problems they encounter in the United States of America and acquiring a minimal proficiency in the French language in order to establish a line of communication with migrant workers. Prerequisite: None. (F,S)

F ED 501. Basic French for Teachers. 3(3,0). This course is an introduction to French for elementary and secondary school teachers with emphasis on the understanding of the geography, traditional customs and mores, and contemporary social and political situations through the acquisition of minimal pro-ficiency in reading, speaking, and comprehension of the language to establish a line of communication with people, especially students, from French-speaking ethnicity. Prerequisite: None. (F,S)

SPANISH

SP 500. Spanish Education for Teachers of English. 3(3,0). An introduction to Spanish for Teachers of English with emphasis on developing a positive self-image among migrant workers by creating awareness and understanding of problems they encounter in the United States of America and acquiring a minimal proficiency in the Spanish language in order to establish a line of communication with migrant workers. Prerequisite: None. (F,S)

SP ED 501. Basic Spanish for Teachers. 3(3,0). This course is an introduction to Spanish for elementary and secondary school teachers with emphasis on the understanding of the geography, traditional customs and mores, and contemporary social and political situations through the acquisition of minimal pro-ficiency in reading, speaking, and comprehension of the language to establish a line of communication with people, especially students, from Spanish-speaking ethnicity. Prerequisite: None. (F,S)

DEPARTMENT OF HUMAN SERVICES

COUNSELOR EDUCATION

CED 510. Introduction to Counseling. 3(3,0). This course is an introduction to the counseling profession which operates in a variety of settings. The course examines the development and history of the counseling profession, basic concepts in counseling, and the role and function of the school counselor and other counseling professionals and the settings in which they work. (F,S)

CED 511. Child Growth and Development. 3(3,0). This course is a study of the principal physiological, intellectual, cognitive, emotional, cultural and sociological aspects of child growth and development. Particular emphasis will be placed on the interrelationships between these variable, their influence on behavior, the modifiable range of developmental patterns and implications for guidance and counseling in the elementary school setting. (Sp. only)

CED 512. Elementary School Guidance. 3(3,0). This course provides an overview of the history, principles, issues, practices, personnel, services and skills needed to design and coordinate a comprehensive developmental elementary school guidance and counseling program. Study also includes an overview of the philosophical, educational, sociological, and cultural bases of counseling and guidance services and their relationship to the total school curriculum (Fall only). Prerequisite: CED 510

CED 513. Secondary School Guidance. 3(3,0). This course provides an overview of the history, principles, issues, practices, personnel, services
and skills needed to design and coordinate a comprehensive developmental secondary school guidance and counseling program. Study also includes an overview of the philosophical, educational, sociological, and cultural bases of counseling and guidance services and their relationship to the total school curriculum (F,Sp). Prerequisite: CED 510

CED 514. Counseling Theories and Techniques. 3(3,0). This course provides a more intensive study of the various counseling theories introduced in CED 510. It is further designed to lay the foundation for the development of professional behaviors and skills in the use of techniques and strategies necessary for counseling clients with various concerns related to personal, social, educational, and vocational choices (F,Sp). Prerequisite: CED 510.

CED 515. Psychology of Individual Differences. 3(3,0). A study of the heredity and environmental factors which cause differences in human beings and a study of these differences.

CED 516. Psychological Appraisal of the Individual. 3(3,0). The aim of this course is to help students acquire skills in the collection, interpretation and utilization of comprehensive psychological information about individuals that will aid the professional in providing appropriate services to counselees. (Sp,Sum) Prerequisites: CED 510, ED 500, CED 511 or ED 503.

CED 517. Seminar in Counselor Education. 3(3,0). Current issues and problems in the area of counseling will be researched and discussed in depth.

CED 518. Consultation. 3(3,0). The course provides an overview of the theory, content and processes of consultation by counselors in various educational and human services organizations (Summer only). Prerequisites: CED 510, CED 514, ED 501, ED 503 or CED 511.

CED 519. Basic Counseling Practicum/Elementary. 3(3,0). This course is an applied course where students master individual counseling skills. Enrollees will learn how to conduct a successful counseling interview. Completion of a supervised 50 clock hour field based practicum experience with elementary or middle school aged children is required. (F,Sp) Prerequisites: CED 510 and CED 514.

CED 520. Basic Counseling Practicum/Secondary. 3(3,0). This course is an applied course where students master individual counseling skills. Enrollees will learn how to conduct a successful counseling interview. Completion of a supervised 50 clock hour field based practicum experience with middle school or high school aged children is required. (F,Sp) Prerequisites: CED 510 and CED 514.

CED 523. Supervision. 3(3,0). Designed to familiarize students with the purpose, functions and processes of supervision and to provide beginning-level supervisory interactional skills.

CED 525. Cross Cultural Consideration in Counseling. 3(3,0). The major focus of this course is counseling in culturally pluralistic settings. Included are methods for designing and coordinating culturally responsive developmental counseling programs. (Fall, Sum) Prerequisites: CED 510, CED 514, ED 501, ED 503 or CED 511.

CED 530. Advanced Counseling Practicum/Elementary. 3(3,0). This course is an applied course where students master group counseling skills and techniques. Completion of a supervised 50 clock hour field based practicum experience with elementary or middle school aged children is required. It is to be taken concurrently with CED 543: Group Dynamics: Techniques, and Procedures. (F, S). Prerequisites: CED 510, CED 514 and CED 519.

CED 531. Advanced Counseling Practicum/Secondary. 3(3,0). This course is an applied course where students master group counseling skills and techniques. Completion of a supervised 50 clock hour field based practicum experience with middle or high school aged children is required. It is to be taken concurrently with CED 543: Group Dynamics: Techniques, and Procedures. Prerequisites: CED 510, CED 514 and CED 520. (F,Sp).

CED 540. Career and Life Style Development. 3(3,0). The course aims to help students acquire the knowledge and skills in the identification, selection, administration, and interpretation of occupational, educational, personal, and social information in order to empower counselees for problem solving and decision making in these domains over the lifespan. (F, Sum). Prerequisite: CED 510.

CED 541. Analysis and Interpretation of Group Testing. 3(3,0). This course is a systematic study of the selection, evaluation, administration, and interpretation of group tests of general and specific abilities to include cognitive, affective and psychomotor scales. (F,Sp) Prerequisites: CED 510, ED 500, CED 511 or ED 503.

CED 542. Counseling Internship. 3(3,0). The internship in guidance and/or counseling is organized with the end in view of providing the student with an opportunity to gain actual experiences and provide services, under supervision, in counseling in an approved setting. Prerequisites: All Counselor Education courses. Students must apply for this course before mid-term of the last full semester preceding the semester in which they desire to enroll in the course. Registration only by application.

CED 543. Group Dynamics, Techniques, and Procedures. 3(3,0). A study of the practical and theoretical aspects of counseling small groups. The course provides a basis for the understanding of group structure, typology, evaluative techniques, procedures, and dynamics of group interactions in counseling settings. (F,S)

CED 544. Vocational Development Theory. 3(3,0). This course will involve psychological and sociological aspects of the students Orientation toward the world of work. It will include student interests, mental abilities, values, intrinsic and extrinsic motivation statuses, self-concepts, aspirational level, and fulfillment of student lives. Presently developed theories will be extensively explored, and consideration will be placed on development of healthy individu-als who can adjust to the demands of the changing world of work.

CED 550-10. Seminar: Internship in Elementary School Counseling (1-6). This course requires the student to attend a weekly seminar and to complete a 600 clock school base internship. It is designed to provide each student with an opportunity to gain actual experience as a counselor in an elementary school (K-8) setting. Interns enrolled in this course will join the staff of a school’s counseling and guidance program and rendered services to students under the supervision of a certified school counselor and the university supervisor. Students enrolled in this section of the course are expected to complete 40 hours per week on site for fifteen weeks thus completing 600 hours in one semester. Students may register for 1-6 credits in other sections of the course, (F, S, Sum). Prerequisites: All required counselor education courses, the elementary option courses, and a passing score on the Praxis II Specialty area exam in School Guidance and Counseling. Registration only by application submitted before mid-term of he last full semester preceding the semester in which the student desires to enroll in this course.

CED 550-01. Internship in Elementary School Counseling: Coordination of Guidance Services. 1(0,1). This internship offers students an in-depth supervised experience in schools practicing the coordination of the guidance services including management of resources and data analysis.
CED 550.02. Internship in Elementary School Counseling: Classroom Guidance Delivery. 1(0,1) This internship offers students an in-depth supervised experience in classroom guidance delivery.

CED 550.03. Internship in Elementary School Counseling: Counseling and Responsive Services. 1(0,1). This internship offers students an in-depth supervised experience in schools practicing individual and group counseling.

CED 550.04. Internship in Elementary School Counseling: Appraisal and Career Advising. 1(0,1). This internship offers students an in-depth supervised experience in schools using appraisal results in career and academic advising.

CED 550.05. Internship in Elementary School Counseling: Consultation. 1(0,1). This internship offers students an in-depth supervised experience in consultation services, as they relate to school counseling.

CED 550.06. Internship in Elementary School Counseling: Professional Issues and Advocacy. 1(0,1). This internship offers students an in-depth supervised experience in schools practicing the coordination of Guidance Services. 1(0,1).

CED 551-10 Seminar: Internship in Secondary School Counseling. (1-6). This course requires the student to attend a weekly seminar and to complete a 600 clock school base internship. It is designed to provide each student with an opportunity to gain actual experience as a counselor in a secondary school (7-12) setting. Interns enrolled in this course will join the staff of a school’s counseling program and rendered services to students under the supervision of a certified school counselor and the university supervisor. Students enrolled in this section of the course are expected to complete 40 hours per week on site for fifteen weeks thus completing 600 hours in one semester. Students may register for 1-6 credits in other sections of the course. (F, S, Sum). Prerequisites: All required counselor education courses and the secondary option courses and a passing score on the Praxis II Specialty area exam in School Guidance and Counseling. Registration only by application submitted before midterm of the last full semester preceding the semester in which the student desires to enroll in this course.

CED 551-01. Internship in Secondary School Counseling: Coordination of Guidance Services. 1(0,1). This internship offers students an in-depth supervised experience in schools practicing the coordination of the guidance services including management of resources and data analysis.

CED 550-2. Internship in Secondary School Counseling: Classroom Guidance Delivery. 1(0,1). This internship offers students an in-depth supervised experience in classroom guidance delivery.

CED 551-03. Internship in Secondary School Counseling: Counseling and Responsive Services. 1(0,1). This internship offers students an in-depth supervised experience in schools practicing individual and group counseling.

CED 551-04. Internship in Secondary School Counseling: Appraisal and Career Advising. 1(0,1). This internship offers students an in-depth supervised experience in schools using appraisal results in career and academic advising.

CED 551-05. Internship in Secondary School Counseling: Consultation. 1(0,1). This internship offers students an in-depth supervised experience in consultation services as they relate to school counseling.

CED 551-06. Internship in Secondary School Counseling: Professional Issues and Advocacy. 1(0,1). This internship offers students an in-depth supervised experience in schools to improve legal and ethical decision making skills to include advocacy on behalf of students in the school, community and with businesses.

CED 559. Special Topics in Counselor Education. (1-6). Topics will be selected from various areas in Counselor Education including trends, methods, and other applicable approaches. Special topics may be repeated to a maximum of six credits provided the content is different. Prerequisite: Approval of staff.

REHABILITATION COUNSELING

EDRC 520-01. Introduction to Alcoholism and Drug Abuse (3) This graduate course is designed to provide students with an overview of alcoholism and drug abuse. The course surveys the various causation theories including the disease concept. The physiological, psychological, behavioral and sociological aspects of addiction to the various drugs; treatment issues; regulation and legislation and certification standards will be examined.

EDRC 521-01. Assessment and Treatment of Substance Abuse (3) The purpose of this course is to provide students with knowledge and skill that will maximize access and effectiveness in serving persons with disabilities. The course readings and assignments will help prepare students with the knowledge, skills and ethical sensitivity required to effectively assess and treat persons with substance abuse problems.

EDRC 522-01. Dual Diagnoses: Mental Disorders and Chemical Dependency (3) Through use of lectures, class discussions, guest speakers, attendance at groups and meetings outside of class, and videos, students will examine how mental illness in combination with chemical dependency and/or substance abuse plus other challenges, such as homelessness, impacts individuals, families, and society.

EDRC 523-01. Counseling Linguistically and Culturally Diverse Populations (3) This course will examine the role of language in the construction of identity, particularly ethnic and racial identity. This course will examine the historic factors, current trends, and future challenges.

EDRC 525-01. Counseling Linguistically and Culturally Diverse Populations (3). This course includes the racial, ethnic, linguistic, religious, and economic trends of persons with disabilities in the United States. An analysis of historical factors, current trends, and future challenges will be presented. The course will include case studies, observation, self-reflection, role-play, and critical analysis and thinking will be some of the ways to address the issues. Literature from psychology, education and counseling and other fields will be used as it relates to best ethical practices.

EDRC 526-01. Legislation, Advocacy and Empowerment Rehabilitation of Minonities (3) This course focuses on the empirical as well as the philosophical basis of legislation, advocacy, and empowerment. This course will examine how these three roles play an important role in the life of rehabilitation counselors. Past and current legislation will be presented in its relationship to advocacy and empowerment of persons with disabilities.

EDRC 699. Special Topics in Counselor Education. (1-6). Topics will be selected from various areas in Counselor Education including trends, methods, and other applicable approaches. Special topics may be repeated to a maximum of six credits provided the content is different. Prerequisite: Approval of staff.
The use of effective communication skills. (F,S)

Vocational evaluation, and provision of case services. Prerequisite: Permission of the instructor. (F)

Develop skills in problem-solving and the decision-making process. (F,S)

Ethical issues regarding counseling and direct rehabilitation service delivery are discussed from both a generic and multicultural perspective centered upon research-based concepts, specific skills and strategies. Direct role-playing and micro-counseling skill building exercises are employed along with case study methods and lecture formats. Students are encouraged to develop an awareness of different cultures, learned biases and how they may affect the counseling relationship.

Practicum in Rehabilitation. 1(1,4). Supervised experiences in applying basic rehabilitation counseling skills and techniques through the use of effective communication skills. (F,S)

Knowledge and practice will be provided to enable Rehabilitation Counseling students to develop skills in problem-solving and the decision-making process. (F,S)

Laboratory experiences are provided so Rehabilitation Counseling students may apply their skills and knowledge with clients under supervision. (F,S)

Designed to acquaint students with the history, legislation, principles, methods and techniques in rehabilitation as they are applicable throughout the rehabilitation process, especially in working with the severely disabled. The course includes techniques and methods of case finding, medical, social, and vocational evaluation, and provision of case services. Prerequisite: Permission of the instructor. (F)

This course is designed to provide students with the information and understanding for the appraisal and understanding of the psychosocial and medical aspects of disability and chronic illness, including their nature, causes, functional aspects and treatment. This course provides students with information on severe disabilities and introduces students to the whole-person concept of disability on a person vocationally, social, and his/her family settings.

This course is designed to provide theoretical and practical (clinical) instruction in counseling and ethical aspects of rehabilitation counseling. Ethical issues regarding counseling and direct rehabilitation service delivery are discussed from both a generic and multicultural perspective centered upon research-based concepts, specific skills and strategies. Direct role-playing and micro-counseling skill building exercises are employed along with case study methods and lecture formats. Students are encouraged to develop an awareness of different cultures, learned biases and how they may affect the counseling relationship.

Practicum in Rehabilitation. 1(1,4). Supervised experiences in applying basic rehabilitation counseling skills and techniques through the use of effective communication skills. (F,S)

Knowledge and practice will be provided to enable Rehabilitation Counseling students to develop skills in problem-solving and the decision-making process. (F,S)

Laboratory experiences are provided so Rehabilitation Counseling students may apply their skills and knowledge with clients under supervision. (F,S)

Introduction to Rehabilitation Services. 3(3,0). Designed to acquaint students with the history, legislation, principles, methods and techniques in rehabilitation as they are applicable throughout the rehabilitation process, especially in working with the severely disabled. The course includes techniques and methods of case finding, medical, social, and vocational evaluation, and provision of case services. Prerequisite: Permission of the instructor. (F)

This course is designed to examine and integrate pertinent research and current and future practices in the field of rehabilitation counseling. Identifying these pertinent issues in the field of counseling will help to prepare highly skilled, competent, economically and socially aware graduates to meet the needs of persons with disabilities.

Medical and Psychological Aspects of Disability 3(3,0). This course is designed to provide students with the information and understanding for the appraisal and understanding of the psychosocial and medical aspects of disability and chronic illness, including their nature, causes, functional aspects and treatment. This course provides students with information on severe disabilities and introduces students to the whole-person concept of disability on a person vocationally, social, and his/her family settings.

Assessment. 3(3,0). This course is a survey of methods and techniques utilized in determining vocational potential and the roles of the vocation evaluator and adjustment specialist in the rehabilitation process. Specific procedures and approaches are analyzed including the commercial evaluation systems and such work adjustment techniques as adjustment counseling, writing adjustment plans, and writing performance objective for facility clients.

Vocational Placement in Rehabilitation. 3(3,0). Combines classroom and field experiences to provide students with information about the counselors role in placement, job analysis, job-seeking skills, job development; determination of job readiness, and job reengineering. Field experience complements each of these areas to give the student experientially-validated approach to vocational placement. (F)

Internship in Rehabilitation. 6( ). Students have the opportunity to apply theory to the practice of rehabilitation counseling, case management and/or work evaluation and work adjustment in a rehabilitation setting. Preference is given to settings in which students may work directly with persons with severe disabilities. Internship is provided under the general supervision of program faculty and direct supervision of a Certified Rehabilitation Counselor (CRC) within the agency or faculty. Students must meet regularly with the Clinical Practice Supervisor within the agency to discuss client problems and possible solutions. Must be taken for the entire last semester of enrollment (minimum of 360 clock hours). (F,S)

Case Management and Recording. 3(3,0). This course provides a critical analysis of the case management process. It covers the basic procedures in providing and coordinating human services and the basic principles for recording and reporting such services. (S)

Psychopathology in Rehabilitation. 3(3,0). This course is a systematic study of psychopathology and associated clinical manifestations. It covers the range of age from infancy to old age with an emphasis on psychopathology that manifests itself during the working years.

Psycho-Diagnostics in Rehabilitation Counseling. 3(3,0). This course will explore the etiology of major psychiatric syndromes and disorders as listed in the current Diagnostic and Statistical Manual for Mental Disorders (DSM-IV). Upon completing this course, students will be able to demonstrate a thorough understanding of the diagnostics of Psychopathology, and will be able to provide appropriate treatment recommendations. Finally, this course will examine how mental disorders influence other areas of the rehabilitation process.

Independent Study in Rehabilitation. 3(3,0). Systematic readings and development of individual projects in pertinent rehabilitation areas. No more than six hours may be counted toward the masters degree. This course may be used as an elective only. Prerequisite: Consent of Program Director and instructor. (F,S)

Internship in Orientation and Mobility. 3(3,0). Internship Orientation and Mobility allows the student the opportunity to apply theory to the practice of Orientation and Orientation and Mobility. Preference is given to settings in which students may work directly with persons with severe disabilities. The Internship is provided under the general supervision of program faculty and direct supervision of a Certified Orientation and Mobility Specialist within the agency of facility. Students must meet regularly with the Clinical Practice Supervisor within the agency to discuss client problems and possible solutions. Internship must be taken for the entire last session of enrollment (minimum of 360) clock hours.

Practicum in Orientation and Mobility. 3(3,0). Designed to provide students with an understanding of the methods used by the blind and visually impaired individuals in their travel by using sensory information in the environment. Blindfold and sight simulators are used in the instructional process to emphasize the utilization of the residual senses to perceive, integrate, and react to environmental stimuli in establishing and maintaining safe efficient mobility. The course is further designed to lay the foundation for the development of their skills in teaching blind and visually impaired persons how to develop and use their remaining senses in order that they may be safe, efficient and independent travelers.

Principles of Orientation and Mobility. 3(3,0). An examination and application of the fundamental principles underlying the acquisition of sensory information by severely visually handicapped individuals.

Physiology and Function of the Eye. 3(3,0). The anatomy, structure and function of the eye. Various eye diseases and malfunctions are stressed. The student is given an opportunity to observe all types of eye conditions, eye prostheses and low-vision optical aids. The social, psychological and vocational adjustment of the severely visually handicapped will receive extensive coverage.
EDRC 582-01. Methods of Communication Used by the Blind. 3(3.0).
Acquaints the student with the basic rudiments of braille reading and writing. Familiarization with other means of communication used by the blind, for example, typing script writing, electronic devices and other media.

EDRC 583-01. Methods of Mobility for the Blind. 3(3.0).
Techniques are acquired under conditions which enable the students to gain an insight into the experiences of blind individuals as related to travel skills. Emphasis is placed on the utilization of the remaining senses and their relevancy to interpretation of environmental information.

EDRC 598-01 Community Agency Counseling. 3(3.0).
This course will examine the role of counselors in working with consumers in different agencies. Further, this course will examine the historical, philosophical, societal, cultural, economic, and political dimensions of and current trends in the community and mental health movement. This course will also include case studies, observation, self-reflection, role-play, and critical thinking to address some counseling and agency issues.

EDRC 599-01. Utilization of Community Resources in Rehabilitation. 3(3.0).
Emphasizes the ways by which the community uses its resources and services to meet the needs of handicapped persons, especially the severely disabled; provides for the study and discussion of the nature and organization of community resources as they relate to rehabilitation, availability of community resources through public and private agencies and facilities, problems in the development and utilization of community resources, observational visits to key agencies and lectures by representatives of community agencies.

H 506. African History. 3(3.0). The course surveys African History from the precolonial period to the present time. Major African civilizations and their contributions to Western world civilization are considered. Special attention to be given to major social, economic, and political developments in African History and their effects upon developments in Europe and the United States and vice versa. (FO)

H 699. Special Topics in History. (1-6). Topics will be selected from various areas in history including trends, methods, and other applicable approaches. Special topics may be repeated to a maximum of six credits, provided the content is different. Prerequisite: Approval of staff.

SOCIAL STUDIES

SST 500. Social Studies for Elementary School Teachers. 3(3,0). The basic purpose of this course is to enable the elementary school teacher to investigate, reexamine and develop thorough competence in the social studies that is now offered in elementary school. The subject matter of the course will be based immediately upon the material that appear in the social studies textbooks for grades 1-8; however, it will be extended to include broader concepts. This is made possible through a relatively mature approach to elementary subject matter. (S)

SST 505. Social Studies for Middle School Teachers. 3(3,0). An inservice course in social studies for the middle school teacher. The course is designed to enable the middle school teacher to investigate, reexamine and develop instructional competencies deemed generic for the middle school. The subject matter for the course will surround concepts and issues found in middle school social studies textbooks. (SO)

ED 517. Teaching the Social Studies in the Secondary School. 3(3,0). The place of Social Studies in the Secondary School Program; objectives of the Social Studies; grade placement of the specific subjects; integration and fusion. Adoption of sound methods of teaching in the social studies is suggested. Techniques for the handling of current events and controversial issues are discussed. Source materials such as textbooks, visual and other teaching aids are reviewed. (F)

POLITICAL SCIENCE

PS 500. American National Government. 3(3,0). The emphasis will be on the nature of our democracy, its function and the role of the citizen as a participant in government. (S)

PS 501. Problems in American Government. 3(3,0). A seminar on problems in American government with particular attention to such questions as federalism and those affecting the executive, legislative and judicial branches of the national government. (FO)

PS 502. Comparative Political Systems. 3(3,0). A comparative analysis of major political systems of Western and non-Western world, e.g., Great Britain, France, West Germany, the Soviet Union, Peoples Republic of China, Kenya, Nigeria, the Republic of South Africa. (SO)

PS 699. Special Topics in Political Science. (16). Topics will be selected from various areas in political science including trends, methods, and other applicable approaches. Special topics may be repeated to a maximum of six credits, provided the content is different. Prerequisite: Approval of staff.

SOCIOLOGY

SOC 502. Racial and Ethnic Minorities. 3(3,0). The nature and significance of minority differences (racial, ethnic, religious, etc.) for distribution patterns and social relationships. Dominant-minority group patterns in the United States and elsewhere will be examined.

SOC 504. Social Problems. 3(3,0). A scientific study of the social maladjustments in society which include their nature and causes, and suggestions as to how they might be prevented and corrected.

SOC 505. Sociology of Education. 3(3,0). Social determinants of academic achievement; education, socialization, and the world of work, teacher-student relationships and social class; current issues affecting social aspects of education.
ART

A 502. Teaching Art to Students from Low Socioeconomic Backgrounds. 3(1,2). This course provides procedures for teaching visual awareness from low socioeconomic groups. It stresses preparation of art projects, selection and use of art works and subject matter related to their backgrounds and experiences. Emphasis is placed upon qualitative curriculum planning and strategies designed for building the art potential of elementary and middle school teachers as well as experienced teachers of art. (S)

A 503. Art for Children. 3(1,2). This course provides two and three dimensional laboratory experiences in painting, drawing, graphics, sculpture, and crafts appropriate for children in the elementary school. Emphasis is placed upon developing skill in handling tools and materials with attention given to handling common environmental resources for artistic purposes. Other activities include developing art programs for elementary school discussions, and the special readings. (S)

MUSIC

MU 501. Choral Conducting. 3(3,0). This course is designed to lay a foundation in choral conducting, emphasizing techniques and materials. (S)

MU 502. Music for the Classroom Teacher. 3(3,0). This course is designed to aid the classroom teacher with materials and methods to cope with musical problems that arise in the classroom. Special attention is given to individual problems submitted by members of the class. (F,S)
B 500. Field Biology. 3(1,2). Collection, preservation and identification of animals and plants, and preparation of teaching units based upon local flora and fauna. **Prerequisites:** Biology 101, 103. ( )

B 501. Modern Biology I. 3(3,0). This course is designed to cover the following topics: (a) cell structure and function; (b) animal structure and function; (c) microbial life; (d) the living plant; (e) plant diversification; (f) genetics; (g) evolution and ecology. The lectures will be correlated with selected laboratory experiences. (F)

B 502. Modern Biology II. 3(3,0). Continuation of Biology 501. (S)

B 503. History of Biology. 3(3,0). The development of science in Europe and America through reports on the lives of scientists who made significant contributions, principally in the field of biology. Emphasis on the intellectual and cultural role of science. Lectures, readings and reports. ( )

B 504. Seminar. 1(1,0). Oral reports and discussion of selected topics of research and current advances in biological literature. ( )

B 507. Advanced General Biology. 3(3,0). A course stressing fundamental concepts and principles of biology and emphasis placed on morphology, taxonomy, physiology, ecology and phylogeny of plant and animal groups. **Prerequisites:** Biology 101, 103. (S,E)

B 509. General Physiology. 3(3,0). A course dealing with the functional mechanisms and specializations of vertebrates and invertebrates. Designed for secondary school teachers. **Prerequisites:** Biology 101, 201, General Chemistry, and General Physics. (FE)

B 510. Quantitative Biology. 3(3,0). Theory and use of certain biophysical and biochemical techniques and apparatus in biological studies, including an introduction to radiation biology. **Prerequisites:** Biology 101, 201, General Chemistry and General Physics. ( )

B 511. Plant Biology. 3(3,0). Studies on morphology, physiology and systematic relationship of representatives of the major plant groups. **Prerequisite:** Biology 103. (F,O) High school science classes. **Prerequisite:** Science 520 or concurrent registration. ( )

C 501. Advanced Inorganic Chemistry. 3(3,0). A systematic study of the theory of valence, atomic structure, the periodic system and complex compounds from the standpoint of Werners Coordination Theory.

C 502. Advanced Analytical Chemistry. 3(3,0). A discussion of selected topics in quantitative analysis, including sampling error indi-cators, conductometric and electrometric titrations, electrochemical methods and other analytical procedures. **Prerequisites:** Chemistry 202 and 306. ( )

C 504. Science Seminar. 1(1,0). Presentation and discussion of current scientific topics in which the faculty of the Science Department and graduate students participate. Required of all graduate students. ( )

C 505. Advanced Inorganic Chemistry Laboratory. 4(0,4). This course is designed to give experience in the synthesis of inorganic compounds, based upon the periodic table, valence theory, coordination, oxidation and reduction, and phase equilibria. ( )

C 506. Instrumental Methods of Analysis. 4(0,6). This course is designed to give the student an opportunity to use various types of instruments, learn the theory behind their operation, advantages and disadvantages of each instrument, and a brief summary of their application. ( )

C 507. Theoretical Chemistry for Secondary School Teachers. 3(3,0). Designed as a general review of the fundamental principles and techniques of chemistry. Word descriptions, graphical illustrations and mathematical formulas will be discussed to explain modern theory of chemistry. ( )

C 508509. Modern Chemistry. 3(3,0). The topics covered will include (a) the structure of the atom, types of valence, geometry of molecules, and the periodic table; (b) electrochemical electrolytic cells; (c) introductory notions concerning the energy involved in a chemical reaction. The lecture and laboratory work will be correlated with selected experiments from GBA, CHEM study, and other curricula sources. ( )

**PHYSICS**

P 507. Advanced General Physics. 3(3,0). An introductory course in general physics covering mechanics and kinematics of liquids, solids and gases according to Newtons principles, and heat. Magnetism, electricity, light, and radioactivity will also be discussed. ( )

P 508. Advanced General Physics. 3(0,4). The laboratory work in advanced general physics covering heat mechanics, sound, light, magnetism and electricity. ( )

**SCIENCE**

SC 510. Science for Elementary School Teachers. 3(3,0). The basic purpose of this course is to reexamine the science content offered in the elementary school. Special concern will be given to the concepts offered in the state-approved science textbooks and to accepted methods of teaching these concepts to elementary school pupils. **Prerequisites:** Biology 101 and 103, Chemistry 101 and 102. (S)

SC 520. Science for Junior High School Teachers. 3(3,0). A course designed to implement for teachers of grades seven through nine, a coordinated science program that is scientifically accurate, consistent with good learning theory and well adapted to the age level for which it is intended. **Prerequisite:** At least one year of biological and one year of physical science.

SC 521. Special Techniques in Junior High Science. 3(0,4). A course designed to increase the teachers manipulative skills with laboratory apparatus, techniques, and instrumentation to develop more interesting junior high school science classes. **Prerequisite:** Science 520 or concurrent registration. ( )

SC 699. Special Topics in Science. (1-6). Topics will be selected from various areas in science including trends, methods, and other applicable approaches. Special topics may be repeated to maximum of six credits provided the content is different. **Prerequisite:** Approval of staff.
SC ED 509. The Teaching of Science. (3,0). The objective of biological and physical sciences on the secondary level will be defined. Methods of instruction and units of subject-matter will be presented. The use of audiovisual aids will be discussed. This course will be taken after consultation with advisor. ( )

DEPARTMENT OF CIVIL AND MECHANICAL ENGINEERING TECHNOLOGY

TRANSPORTATION

TRP 520. Urban Transportation Policy Development. (3,0). This course examines U.S. urban transportation policy over the past 50 years and the changing relationship between the federal, state, and local governments. Additionally, it integrates the study of the influence of legislation, regulations, conferences, federal programs, and advances in planning procedures and technology. The course explores the evolution of urban transportation planning in response to changing factors including the environment, energy, development patterns, intergovernmental coordination, and federal transit programs.

TRP 525. Transportation Statistics and Research. (3,0). This course is an introductory research course for graduate-level transportation degree candidates. The learning activities for this course are designed to afford the student a meaningful cadre of research skills needed to empirically solve past, present and future problems in the transportation industry.

TRP 530. Transportation Planning. (3,0). This course examines planning for urban facilities, which include contemporary transportation planning for road, rail, water, air, and new technologies. It also provides a critique of urban, regional, and national planning methodologies and a review of strategic versus tactical planning strategies and current research.

TRP 540. Transportation Economics and Finance. (3,0). Economic and financial dimensions of urban transportation systems, including highways and transit: user fees, tolls, congestion pricing, and fare subsidy policies. The course surveys the major issues in the transportation industries, emphasizing the problems of managing, developing, promoting, and regulating the intercity freight and passenger transportation industries. The issues and problems of 1) highway, airway, airport, and waterway finance and 2) transportation investment and analysis are covered.

TRP 550. Systems Analysis in Transportation. (3,0). This course covers the systems approach and its application to transportation engineering and planning. It offers an examination of the characteristics and operation of transportation systems from several perspectives, including the importance of transportation costs, economic development, public policy considerations, safety, and methodologies related to the analysis of transportation. Computer software (e.g., geographic information systems, transportation modeling packages, and statistical packages) to analyze transportation systems will be used as tools for prediction of flows and level of service, production functions and cost optimization, utility theory and demand modeling. Transportation network analysis and equilibrium assignment, decision analysis, and multidimensional evaluation of transportation projects are also included.

TRP 560. Public Policy and Administration. (3,0). This course integrates theory, policy and politics in an exploration of transportation policy formulation and implementation. The course focuses primarily on the framework of the public policy-making process with a special emphasis theory (e.g., rationalist, incrementalist, pluralist), stages of the policy process, public participation, and policy analysis.

TRP 600 and 601. Transportation Thesis. (6,0). The thesis is required for all Master of Science degree in Transportation candidates and is the final component for the transportation capstone. TRP 600 provides the student with advisor. ( )
Federal, State and local policies and regulations governing the implementation of various transportation projects. In addition, the course examines and compares transportation planning and land use decisions prior to and after the adoption of the Intermodal Surface Transportation Efficiency Act of 1991.

TRP 641. Application of GIS and GPS in Transportation. (3,0). This course is designed to introduce students to many aspects of a geographical information system (GIS) and global positioning system (GPS). The course includes basic GIS concepts, spatial data types, modeling, and management in GIS; theory, operation, application of GPS, and the use of these technologies to solve problems in transportation technology.

TRP 642. Environmental Transportation Policy. (3,0). This course is designed to examine the inextricable, interdisciplinary relationship between transportation and environmental policy. Within this context, students will be exposed to the historical development, fundamental concepts, theory, issues, and policy-making involving transportation land-use planning and environmental laws and regulations. Additionally, underlying values, interests, and political conflicts that influence the balancing of transportation and environmental policy will also explored.

TRP 643. Public Transportation Systems. (3,0). This course provides an in depth examination of public mass transportation systems, including urban rail, bus, para- and specialized transit, rural public transportation, taxis, and intercity passenger services. Course topics cover aspects of planning, construction, and operation; modal features; engineering and design considerations; economic and financial issues; user characteristics; industry organization and management; and advanced technology systems.

TRP 644 Rural Transportation Planning. (3,0). This course identifies techniques, strategies and local transportation programs used in rural communities to address transportation needs. The course reviews and examines the impact of Federal, State and Regional Policies on rural transportation planning programs at the local level. In addition, the course focuses on the roles local public and private agencies play in providing rural transportation service.

TRP 650. Leadership and Management of Transportation Organizations. (3,0). This course uses social-psychological and behavioral systems perspectives in viewing leadership and management in organizations. The course is structured so that students have an opportunity to explore current theory and concepts of leadership. Students will learn some differences between leadership and management and have an opportunity to learn and apply specific skills that will help them become more effective leaders. Particular effort will be made to relate the information to the transportation organization.

TRP 651. International Logistics. (3,0). This course builds on the foundation of introductory operational management courses and covers the essentials of transport systems in business logistics. Topics to be covered include environments of international business, theories of international business, international financial institutions multinational corporations, country evaluations and selection, international strategy and management.

TRP 652. Transportation Business Law. (3,0). This course is designed to examine the law governing the exercise of government authority through institutions that involve administrative agencies. The course primary focus is to analyze the procedures and procedural constraints found in administrative agencies. A special emphasis will be placed on laws governing the actions of the United States Department of Transportation.

TRP 653. Intelligent Transportation Systems. (3,0). This course provides students with information on how intelligent transportation systems are designed and implemented. In addition, the course covers contemporary intelligent system components such as transportation plans and programs, system performance criteria, benefit cost analysis, and partnerships between public and private sectors.

TRP 660. Introduction to Data Base Design Using Object Oriented Programming. (3,0). This course will introduce the students to computer networking and data communication. Students will be introduced to Web page design techniques. Students will design and analyze a hypothetical computer network using computer software.

TRP 663. Data Communication and Computer Networking. (3,0). Students examine the use and management of networks. Tools for supporting the distribution and sharing of system resources and information are included.

DEPARTMENT OF INDUSTRIAL AND ELECTRICAL ENGINEERING TECHNOLOGY

TECHNOLOGY EDUCATION

IE 501. Principles and Philosophy of Technology Education. 3(3,0). This course is concerned with the descriptive principles of vocational and industrial arts education with attention to the social, economic, psychological and political bases as a philosophical rationale. The identification and assessment of current issues and trends are emphasized. (F)

IE 502. Problems and Practices in Vocational Education. 3(3,0). In this course, problems and practices at the national, state and local levels are considered. Organization, financing, standards, personnel and objectives. (F)

IE 505. Industrial and Labor Relations. 3(3,0). This course deals with an analysis of the major problems in industrial and labor relations; labor market analysis and employment, mediation and arbitration; the rights and responsibilities of employers and employees, the major governmental agencies concerned with industrial and labor relations. Prerequisite: IE 305. (S)

IE 506. Occupational Analysis. 3(3,0). This course deals with the techniques of analyzing an occupational area to obtain content for instruction; components such as skills and related technical information derived and organized as a source of material for developing a course of study. (F)

IE 507. Supervision and Administration of Trade and Technology Education. 3(3,0). This course provides a review of the policies of the U.S. Office of Education and relates the policies of the state and local programs of Industrial Education. (S)

IE 508. Problems and Practices of the Coordinator. 3(3,0). The aim of this course is to provide the student with occupational information; meth-
IE 509. Course Making. 3(3,0). This course is concerned with the prepara-tion and organization of instructional materials including outline, courses of study, and audiovisual aids. The course emphasizes the combina-
tion of audiovis-ual technology with programming theory in the design, preparation, and use of self-instructional materials and devices. Prerequi-
site: IE 309. (S)

IE 525. Advanced Construction Principles. 3(3,0). This course focuses on the investigation of principles and practices utilized by the construction indus-try. This course will address the relationship and significance of man, materials, and equipment. Using the latest research and contemporary con-
struction prac-tises, students will assess documents and examples related to modern structural requirements.

IE 570. Advanced Technology Systems. 3(3,0). Technological advance-
ments require technology educators to integrate contemporary equipment, phi-
losophy, and practices into program curriculum. This course provides a platform from which educators will research, discuss, and present such advancements in the areas of communication, construction, manu-
fac-turing, and transportation/power technology and systems.

IE 580. Advanced Technology Principles and Practice. 3(3,0). This is a multiphase symposium integrating curricular development related to the four clusters: communication, transportation, manufacturing, and power/
energy. Presentation of research findings, and the investigation of labora-
tory manage-ment will also be emphasized.

IE 581. Advanced Graphics Technology. 3(3,0). This course provides a unique opportunity for students to research and develop skills which are appro-priate for both the secondary classroom or industrial application. Concepts pre-sented include: (1) a systematic technical study and applica-
tion; (2) curriculum/ research development; and (3) presentation of findings and examination/assess-ment of the resulting practice. This course is a com-
prehensive study of photo-graphic techniques with emphasis placed on presenting the results in a self-expressive manner. Experiences gained through this course are transferable to education or industry.

IE 590. Computer Applications for Technology Education. 3(3,0). This course is designed to provide students with an introduction to com-
puter soft-ware and its use in the technology education program. Applica-
tion software for Macintosh and IBM PC will be used for this course. Soft-
ware packages for the four clusters (communications, transportation/ power, construction, and manu-facturing) will be introduced. The research component will provide generalizable techniques which may be used across clusters.

IE 522. Advanced Product and Structural Design. 3(3,0). The primary focus of this course is the utilization of engineering graphics work stations. The CAD system (AutoCAD) will be used in the planning and designing of products and structures related to concepts emphasized in this course. Research will reit-erate the importance of planning in the design process.

DEPARTMENT OF
MATHEMATICS AND COMPUTER SCIENCE

MATHEMATICS

M 501. Mathematical Analysis I. 3(3,0). An intuitive approach to the con-
cepts and applications of calculus. Topics include analytic geometry, limits, derivative of algebraic and trigonometric functions, applications of
derivatives, and an introduction to anti-derivatives. Prerequisite: Bachelors
degree plus eligibility for teacher certification in mathematics or permission from the department. A background in precalculus is required.

M 502. Mathematical Analysis II. 3(3,0). Continuation of M 501. Top-
ics include definite and indefinite integrals, differentiation and integration of algebraic, trigonometric, logarithmic, and exponential functions, techniques of integration of algebraic, trigonometric, logarithmic, and exponential func-
tions, techniques of integration, and applications of differentiation and inte-
gration. Prerequisite: Bachelors degree plus eligibility for teacher certification in mathematics or permission from the department. M 501 or an equiva-
 lent course is required.

M 503. Calculus for Teachers. 3(3,0). A thorough review and full develop-
ment of topics in elementary calculus and analytic geometry with an empha-
sis on conceptual understanding, but also on improved ways of conveying these topics to students. Essential topics include a review of algebra and trigonometry, elementary functions, limits, derivatives, inte-
grals, applications of derivatives and integrals, modeling, iterative solutions of equations, sequence, and power ant Taylor series. This course will re-
quire demonstrated competence in using calculators and computers technol-
ogy in mathematical applications and problem-solving. Prerequisite: Graduate standing and M 237 or equivalent.

M 504. Probability and Statistics. 3(3,0). An intuitive approach to the con-
cepts and applications of probability and statistical methods applicable in teaching will be used. Topics include counting techniques, elementary
probability, organization and analysis of data, frequency distributions, prob-
ability distributions, sampling techniques hypothesis testing, estimation, correlation analysis, and regression analysis. Prerequisite: Bachelors degree plus eligibility for teacher certification in mathematics or permission from the department. A background in algebra is required.

M 507. Evolution and History of Mathematics. 3(3,0). A study of the his-
torical evolution of concepts in arithmetic, algebra, geometry, and analy-
sis. Prerequisite: Mathematics 237 or equivalent.

M 508. Differential Equation. 3(3,0). Ordinary differential equations with applications, series, solutions, solution by Laplace transforms. Pre-
requisite: M237

M 509. Modern Geometry. (Formerly Projective Geometry) 3(3,0). A study of Euclidean and non-Euclidean geometry. The fundamental concepts and relations of Euclidean geometry developed rigorously on the basis of a set postulates; projective geometry, theorem of Desargues, conics, transfor-
mation theory, affine and finite geometry. Prerequisite: Graduate standing and M 237 or equivalent.

M 510. Logic of Mathematics. 3(3,0). The sentential and predicate cal-
culus and its use in algebra, geometry, and analysis. Prerequisite: Math-
ematics 237 or equivalent.

M 511. Modern Algebra. 3(3,0). This course covers one of the two main areas of modern algebra (abstract algebra and linear algebra). The abstract algebra version is an axiomatic treatment of the basic algebraic systems. In the linear algebra version, emphasis is placed on vector spaces, matrices and linear transformations, bilinear mapping, quadratic and cononical forms, and the simplex method in linear programming. Prerequisite: Mathematics 237 or equivalent.
M 513. Real Function Theory. 3(3,0). This course covers real functions in detail. Topics include functions of one and several variables, applications or Taylor's Theorem, Riemann integrals, Fourier series, Double integrals, volume integrals. Prerequisite: M237 or equivalents.

M 514. Applied Numerical Analysis. 3(3,0). Numerical solution algebraic and transcendental equations, numerical integration; numerical solution of differential equations. Some attention will be given to programming problems for a digital computer. Prerequisites: Mathematics 237 and CS 161 or equivalent.

M 515. Complex Function Theory. 3(3,0). This course covers the theory of complex valued functions of one variable which includes operations with complex numbers, analytic functions, contour integration, and series and sequences of complex numbers. Prerequisite: M237 or equivalent.

MATHEMATICS EDUCATION

MED 500. Contemporary Mathematics for Elementary School Teachers. 3(3,0). A course designed to give instruction in the new language, symbolism, principles, structure and scientific operations of elementary mathematics. Contemporary elementary school mathematics programs will be discussed and evaluated. Attention will be given to course content and present teaching methods.

MED 512. Teaching of Secondary Mathematics. 3(3,0). This course is a study of contemporary ideas and methods of teaching specific mathematical subject matter to students in junior and senior high schools. Its purpose is to consider mathematical principles in the context of the secondary school curriculum. An integral part of the course involves explaining the historical and philosophical nature of mathematics. Prerequisite: Graduate standing and permission form department chair.

MED 520. Geometry for Elementary School Teachers. 3(3,0). A modern view of geometry for in-service teachers. Emphasis will be on the basic ideas of synthetic plane geometry, the generalization of these ideas, and some of their applications.

MED 521. Geometry for Middle School Teachers. 3(3,0). An in-service course in geometry for the middle school teacher. Emphasis will be on the informal development of geometric concepts and properties. Intuitive geometry and constructions are used as a vehicle for introducing the fundamental definitions and theorems.

MED 699. Special Topics in Mathematics Education. (1-6). Topics will be selected from various areas in Mathematics Education including trends, methods, and other applicable approaches. Special topics may be repeated to a maximum of six credits provided the content is different. Prerequisite: Approval of staff.

COMPUTER SCIENCE

CS 506. Introduction to Computer Science. 3(3,0). An introduction to computer programming using flow charts, machine language, symbolic language, and FORTRAN. Computer design and organization. Prerequisite: Graduate standing.

CS 699. Special Topics in Computer Science. (1-6). Topics will be selected from various areas in Computer Science including trends, methods, and other applicable approaches. Special topics may be repeated to a maximum of six credits provided the content is different. Prerequisite: Approval of staff.

SCHOOL OF GRADUATE STUDIES

DEPARTMENT OF EDUCATIONAL LEADERSHIP

EDUCATIONAL ADMINISTRATION

EAM 700. Introduction to Educational Administration. 3(3,0). This is a general school administration course that serves as an introductory course for personnel preparing for administrative positions in educational institutions. The course provides an overview of current conditions and traditional wisdom in school administration. It explores the formal structures that influence public school administration; and it addresses new conditions of administration legal accountability, special student populations, diminishing financial resources. This course also prescribes new roles and behaviors for administrative competence.

EAM 719. Elementary School Principalship. 3(3,0). This course examines duties and responsibilities of the elementary school principal. Focuses on the principal as an instructional leader. It studies the history of principalship and explores legislation affecting elementary schools.

EAM 720. Secondary School Principalship. 3(3,0). This course examines duties and responsibilities of the secondary school principal, the principal as the instructional leader. It studies the history of the principalship and explores legislation affecting secondary schools.

EAM 722. Evaluation of Programs and Personnel. 3(3,0). This course studies the requirements, practices and problems of administrative evaluations of school programs and personnel. It examines both the formative and summative evaluation processes. Students are required to develop an evaluation instrument.

EAM 731. School Community Relations. 3(3,0). This course is designed to analyze elements of good school and community relations in local communities and how they affect educational issues. The concepts of community power structure will be examined and school interest groups will also be identified. Upon the completion of the course, the student will have attained the competencies to administer successful school-community relations programs.

EAM 732. Educational Planning. 3(3,0). This is an introductory course in the theory and methods of educational systems planning. Its purpose is to prepare school administrators to effectively perform the planning function of management. EAM 732 examines the theories, concepts, and principles of the planning process. The course covers: strategic, long-range, and operational planning; evaluating various planning models; planning controls, future-casting; selected group decision-making processes; setting goals and objectives; PERT Charting; Critical Path Method; and GANTT Charting; long- and short-term fiscal plan-ning; and budgeting.
EAM 735. Fundamentals of Management. 3(3,0). This course examines organizations within the context of their social environment and from a systems approach. It gives particular attention to studying organizations relative to leadership roles of the educational administrators. It emphasizes the concepts of complex organizations, social systems, role theory, environmental boundaries, and bureaucracy. Students will undertake the analysis of an educational organization applying the major organizational concepts studied. This course is the initial experience for students in the Component I area.

EAM 736. Personnel Administration. 3(3,0). This course examines the personnel management process in the public schools. It focuses on areas and problems such as teacher supply, recruitment and selection process, inservice training and staff development, teacher welfare policies, the legal rights and liabilities of school personnel, etc.

EAM 737. School Building Planning. 3(3,0). This course studies the problems involved and the procedures utilized in a comprehensive approach to planning and plants, the personnel involved, the roles they play, and the problems related to long-term financing of such facilities. Students examine basic concepts in planning educational facilities as they relate to educational needs.

EAM 738. Schools and the Law. 3(3,0). This course examines the techniques of legal research, the legal relationships between the federal and state governments as they relate to school district organization and administration. Legal case studies in major areas of administrative concerns are examined.

EAM 739. School Finance. 3(3,0). This course offers in-depth study of basic principles of financing of public education; analysis of revenue sources from the local, state and federal levels of government; existing plans of financing and proposed alternatives for financing the public schools; budgeting and internal finance.

EAM 740. Collective Negotiations in Educational Administration. 3(3,0). This course considers the history, analysis, and prospective development of collective bargaining in education. It focuses upon the impact that public policies have upon educational institutions and upon categories of personnel with particular attention to the roles of administrative personnel.

EAM 741. School Business Management. 3(3,0). This course examines the various business functions required in a public school district. These functions (budget preparation, purchasing, accounting, auditing, plant operation and maintenance) are examined with reference to proper execution and management.

EAM 742. Skill Applications in Educational Organizations. 3(3,0). This course examines specific areas of administrative tasks and functions within educational organizations. Faculty members will frequently team with field practitioners.

EAM 745. Operations Analysis in Educational Administration. 3(3,0). This course provides an introduction to management concepts and procedures as they apply to educational organizations known as operations analysis. Concepts and procedures are drawn from operations research, public school finance, and school business administration.

EAM 746. Organizational Development in Educational Settings. 3(3,0). This course exposes students to organizational development theory and an exploration of processes. It involves system members themselves in the active diagnosis and transformation of their own organization. The course is designed for students who are not planning to take EAM 801-802, but who may desire to learn more about organizational development theory and strategies than is offered in the EAM 704 Module.

EAM 750. Supervision and Techniques of Instruction. 3(3,0). This course is an introduction to the function of an educational supervisor. Emphasis is on the improvement of instruction and instructional programs.

EAM 751. Advanced Learning Theory for School Administrators. 3(3,0). This course is designed to assist school administrators in developing skills to critique the various learning theories concerned with the development of thinking, learning, and imagery processes from early childhood through adulthood. The primary emphasis is on learning models which have implications for program development and curriculum design and implementation as well as relevant classroom instruction techniques.

EAM 760. Field Experience: Practicum and Seminar I. 3(3,8). A grade of S or U is received. At least two months before taking the school administration practicum, consultation between the practicum director and the school district superintendent or other appropriate staff must be arranged by the student. This consultation will serve to establish a working relationship to guide the practicum student in assigned administrative duties. It uses log journals and other such observational records as a basis for diagnosis and insight development. The students spend the equivalent of an eight-hour day per week and attend a weekly seminar devoted to analysis and discussion of the literature on organizational change as a foundation for students field experiences. It is required for Ed.S. students after the completion of 21 hours of course work. Required for Elementary and Secondary Principal Certification.

EAM 761. Field Experience: Practicum Seminar II Students are required to prepare an analytical paper as the culminating activity for the Educational Specialist degree. Students may elect to do one of the following: (1) Conduct a field study, small-scale research project, or a pilot study. This study will address a problem which students have identified from their course work or internship. (2) Conduct a project addressing a practical issue using a scholarly base. For example, students may want to design a new curriculum, develop a staff development component, or build an education model. At the end of each semester, students will prepare a presentation to be given in a seminar format to all other students completing EAM 761 that semester, or interested departmental faculty and students and invited guests. This is not a defense of the paper or project, but rather a sharing of results and experiences. Required for Elementary, Secondary School Principal and Superintendent Certification.

EAM 799. Special Topics in Educational Administration Programs. (1-4). Topics in this course are selected from various areas in Educational Administration Programs including trends, methods, and other applicable approaches. Special topics may be repeated to a maximum of six credits provided the content is different. Prerequisite: Approval of staff.

EAM 800. Administrative Role Performance in Educational Organizations. 3(3,0). In this course administrative skills of decision-making, communication, and human relations are practiced under simulated conditions. It uses descriptive, interpretive and conceptual content to provide both the operational and conceptual skills for the improvement of educational organizations. It is a course designed to improve the operation of leadership roles in education.

EAM 801. Diagnostic and Change Interventions and Strategies for Educational Organizations. 3(3,0). This course studies and applies processes for diagnosis to unit organizations. It gives particular attention to assessing organizational health and developing of skills for the assessments. Students will develop and apply at least one diagnostic test in an organization.
EAM 803. Educational Issues and Organizational Response. 3(3,0).
This course focuses on issues directly affecting the organization of the school. It identifies issues, examines their relevance to the function of the school and develops alternative strategies to increase understanding and organizational response. Students are expected to identify, analyze and defend a knowledge-based position and its organizational consequences.

EAM 804. Action Research. 3(3,0).
This course explores theories and methods for combining inquiry and action. The course addresses such questions as “What is the nature of valid information, particularly for an actor in a human system?” “How can such information be generated and tested?” “How can research be used as a vehicle for producing learning and change?

EAM 805. Advanced Methods of Instructional Supervision. 3(3,0).
This course is an analysis of leadership techniques necessary to produce instructional improvement in educational organizations. It examines the technical methodology that distinguishes instructional supervision from other positions of school leadership.

EAM 821. Educational Leadership. 3(3,0).
This course is an advanced course that examines the leadership concepts including decision-making, authority and power, group leadership, conflict management, organizational culture, and school improvement. It focuses on the leader in all these varied aspects of leadership and also includes theory, practice, and skill-building in all six aspects.

EAM 831. School Restructuring and Participation in a Multi-ethnic Community. 3(3,0).
This course is designed to analyze elements of school restructuring and reform and determine the effects of local community relations. It is a course designed so that teachers, administrations, and parents will be able to better address parent/citizen/business participation among teacher-parent partnerships, school curriculum, and school improvement in multi-ethnic community. It will focus on how teachers and administrators may involve wider aspects of the community to deal with student behavior, student discipline, student violence in schools, and student achievement by working with the wider community.

EAM 834. Policy Formulation and Analysis in Educational Administration. 3(3,0).
This course is a study of the factual normative basis of development of educational policies, and the methods of arriving at policy choices.

EAM 843. Law and Educational Policy. 3(3,0).
This course examines the impact of law on the formulation and implementation of educational policy. It analyzes judicial decisions, legal structures which assure accountability review together with professional responsibility and methods of assuring compliance in policy and procedure, with existing law. It deals also with current trends in thought and practice that promote justice in educational policy.

EAM 844. Educational Policy-Making in a State/Local System. 3(3,0).
This course analyzes the school district policy system and the role of the school administrator in it. It discusses the relationship of districts to state policy processes and the constraints imposed by federal laws and court decisions. It evaluates the implications of the state local system for local control, program coordination and resource allocation. It examines the effects of the community expectations and participation in policy-making in districts.

EAM 845. The Superintendency. 3(3,0).
This course examines the duties and responsibilities of the superintendent of schools. It focuses on the superintendent of schools as the instructional leader. The course also includes the sociological and psychological development of superintendent and explores laws and state regulations affecting the superintendent in all of the states.

EAM 847. Optimizing Educational Operations. 3(3,0).
This course studies analytical and evaluative techniques appropriate for judging the effectiveness of educational systems including the setting of system goals and the specification of related measurable objectives, management by objectives, planning and analysis of administrative activities, management information systems, program planning, cost/effectiveness analysis, and program budgeting. Prerequisite: EAM 745.

EAM 849. Analysis of Planning Models in Educational Administration. 3(3,0).
This course considers comprehensive planning systems and model development together with their application and criteria for evaluation as they relate to educational administration. Prior academic experience is recommended, but it is not required. Prerequisite: EAM 732.

EAM 860861. Clinical Seminar: Internship. 3(0,35).
This course provides both breadth and focus with relation to career plans. The student is expected to demonstrate a high-level ability to coordinate intellectual and performance skills. This ability will be reflected in conceptually based methodology for understanding and acting upon administrative experience of the student. A written report and an evaluation of the internship are required at the end of the field experience. A written agreement or “learning contract” approved by the student, field mentor, and faculty member is required. This course is required for all Ed.D. students. Required for Certification at the Superintendent Level.

EDUCATIONAL ADMINISTRATION RESEARCH
EAR 599. Effective School Research, Measurement, Evaluation, and Assessment. 3(3,0).
This course is designed to acquaint MAT students with the methods and techniques of research, measurement, evaluation and assessment used in education. Emphasis will be given to designing ethnographic studies with training and observation of student and teacher behavior in the classroom. Statistical techniques and theoretical concepts in educational and psychological test, measurement and assessment will also be addressed. An ethnographic study is required product.

EAR 701. Data Analysis for Educational Research and Program Evaluation. 3(3,0).
Estimation, graphic methods, hypothesis testing, and explained variance are examined in the context of educational studies. Data analysis techniques and packaged computer programs widely used in educational research and program evaluation are described and illustrated. An introduction is presented to correlation and regression, analysis of variance, and non-parametric procedures.

EAR 710. Methods for Educational Research. 3(3,0).
Methods for experimental and quasi-experimental designs for research are examined. Students actually design and conduct pilot-study using approved subjects.

EAR 800. Computer Package for Educational Research and Program Evaluation. 3(3,0).
Data analysis techniques and packaged programs widely used in educational research and program evaluation are studied.

EAR 803. Data Analysis for Experimental Studies in Education. 3(3,0).
Data analysis techniques most widely used in educational experiments where quantitative measures have been made are examined. Parametric procedures are presented such as t-test, analysis of variance: One, two and three factors, post hoc procedures: Scheffe, Dunn, Turkey, etc. Also, multiple regression analysis and discrimination function procedures.

EAR 804. Survey Research. 3(3,0).
The data analysis techniques most widely used in non-experimental educational research are examined with emphasis on data where multiple measurements are made on individuals such as multivariate procedures.

65
EAR 809. Database Management Systems in Education. 3(3,0). This course studies methods for constructing mathematical models appropriate for educational planning, policy analysis, and evaluation.

EAR 812. Evaluation of Educational Systems. 3(3,0). In this course, students learn the use of empirical models in assessing efficiency of educational and other service systems. Lectures cover individual and collective rationality, centralized planning and decentralized markets, third-party payments and extension of regression analysis to categorical variables.

EAR 899. Dissertation Seminar. 915 This course is required for doctoral students preparing dissertation proposals. Unit credit is awarded according to work accomplished. This course must be taken on a satisfactory/unsatisfactory basis. Prerequisite: Advancement to candidacy and consent of instructor.

ED 500. Introduction to Data Analysis. 3(3,0). This is an introductory course designed to familiarize the students with the basic descriptive and inferential statistical concepts, methods and procedures used in educational research. The descriptive statistics covered in the course include measures of central tendency, variability and zero-order correlation. The inferential statistics covered in the course include Chi-square, T-test, and Simple Analysis of Variance. The student is required to show evidence of mastery of related concepts, methods and procedures through application and interpretation of findings using fictitious data sets. The student is required to write and to run successfully one statistical computer program using available package computer programs designed for use by educators and lay persons (i.e. Statistical Package for the Social Sciences, Statistical Analysis System). This course is a prerequisite for ED 501 (Understanding Educational Research) and EAR 701 (Data Analysis for Educational Research and Program Evaluation).

ED 501. Understanding Educational Research. 3(3,0). This course is intended for non-thesis, terminal, masters-degree students in education. The principal goal of the course is to enable students to become intelligent and critical consumers of research. Topics covered include accessing educational literature, evaluating research reports, understanding statistics and measurement concepts, and types of educational research.

ED 602. Research Project. 3(3,0). This terminal course consists of writing a project centered around some problem in the area of the candidates teaching or administrative responsibilities.
GRADUATE STUDIES COUNCIL

The Graduate Studies Council is composed of 10 graduate faculty members, four graduate student representatives, and the Dean of the School of Graduate Studies, subject to the provisions below. The faculty representatives are chosen from the areas where graduate programs exist, with at least one representative from each college and at least one from the doctoral program. The Faculty Senate elects four representatives, and in the event that new colleges are created with graduate programs, they will be accorded one representative each. To provide continuity on the Council, faculty representatives serve staggered terms, with all graduate faculty representatives elected for three-year terms, except in cases determined by the Faculty Senate. Election of the faculty representatives is in September by the graduate faculty of the individual schools selecting one representative each if a term has ended, and by the Faculty Senate if the terms for the representatives it chooses have expired.

2004-2005 Graduate Studies Council

Dr. Valerie Colyard
Dr. Gail Joyner-Fleming
Dr. Gwendolyn Wilson
Dr. Suresh Londhe
Dr. Bernice Moore-Green

Dr. Hector Butts
Dr. Ghussan R. Greene
Dr. Philip Scriven
Dr. Stanley Harrold
Dr. James Payne

GRADUATE FACULTY

A Graduate Faculty was approved by the University Board of Trustees in September 1959. The Graduate Faculty is composed of the deans of various colleges and chairs of the departments in which graduate courses are offered, and certain members of the regular Academic Faculty. In 1988, new standards for appointment to the Graduate Faculty were approved and two categories of membership were established: (1) Graduate Faculty and (2) Doctoral Research Faculty.

Graduate Faculty. Individuals selected may teach 500- through 700-level courses and may serve on, but are not eligible to chair, doctoral committees. Applicants for appointment must have the following minimum qualifications:

1. An earned terminal degree appropriate for the area of teaching assignments;
2. An academic rank of Assistant Professor or above;
3. A minimum of three years of successful teaching experience in post-secondary institutions;
4. A minimum of three publications in recognized refereed professional journals; or comparable creative works recognized in such fields as art or engineering; or publication of a text in their field; and
5. Experience in directing masters theses, conducting field studies and/or research projects and/or having served as a member on such committees.

Doctoral Research Faculty. Scholars accorded this status are eligible to teach courses in their academic disciplines at all graduate levels, 500800. Applicants for appointment to this status must have the following minimum qualifications:

1. An earned terminal degree appropriate for the area of teaching assignment;
2. An academic rank of Associate Professor or above;
3. A minimum of five years of successful teaching experience in post-secondary institutions;
4. A minimum of six publications in recognized refereed professional journals or publication of a recent textbook in their field;
5. Experience in directing or co-directing doctoral dissertation and/or holding membership on doctoral committees;
6. An established record of respectable research;
7. Evidence of ongoing involvement in research and other scholarly activities; and
8. Evidence of effective leadership skills.

Primary responsibility for designating graduate faculty shall rest with the departmental chair or program director and the faculty of each graduate program, with the approval of the dean of the College and concurrence of the dean of the Graduate School, following the criteria set by the Graduate Studies Council. Each program, department or school may develop criteria supplemental to the above, but may not reduce or alter basic minimum criteria. Applicants recommended by the dean of the School of Graduate Studies must be approved by the Graduate Studies Council, with final appointments made by the Vice President for Academic Affairs. Individual faculty members may submit their own recommendations for Graduate Faculty appointment in writing to their departmental chair submitting evidence required to support the above criteria, appropriate to the level for which applying.
Membership. The 2004 2005 academic year member-ship of Graduate Faculty listed below consists of professors, associate professors and assistant professors.

Tony-Adams Aburémé, Associate Professor, B.S., M.S., Ed.S., Northwest Missouri State University; Ed.D., Jackson State University
*Adams, Barbara, Professor, B.S., Fort Valley State, M.B.A., Atlanta University; Ph.D., Texas A&M
*Adams, Leola, Professor, B.S., South Carolina State College; M.S., Ph.D., Iowa State University
Adongo, Harun, Associate Professor, B.S., M.S., University of Nairobi; Ph.D., University of Arizona
Adzieveski, Kuzman, Associate Professor, B.A., M.A., University of Skopje; M.S., University of Cincinnati; Ph.D., University of South Carolina
*Anderson, James A., Professor, B.S., Prairie View A&M University; MS., Sc.D, New Mexico State University
Boettler, James L., Professor, B.S., Lafayette College; M.S., Ph.D., University of Illinois
Brantley, Helen, Professor, B.S., New York University; M.A., Ph.D., Columbia University
Cassidy, Thomas, Professor, B.A., Bard College; M.A., Ph.D, State University of New York at Binghamton.
Favors, Sarah W., Associate Professor, B.S., Tuskegee Institute; M.S., Ph.D., University of Illinois.
Frishberg, Barry, Professor, B.S., Brooklyn College; M.S., Ph.D. University of Massachusetts/Amherst
Gouveia, Imogene L., Associate Professor, B.A., Long Island University; M.A., Teacher College; Ph.D, University of Georgia
Greene, Ghusan R., Professor/Interim Chair, B.A., Claflin University; M.A., Atlanta University; Ph.D., University of South Carolina
Gregg, Harriette, Associate Professor/Clinic Director, B.A., Hampton Institute; M.A., Michigan State University; M.Ed., Ed.D, Teachers College-Columbia University.
Haller, Raphael H., Associate Professor, B.A., MA., City College of New York; Ph.D., Northwestern University
Harold, Stanley, Professor, B.A., Allegheny College; MA., Ph.D., Kent State University.
Heggins, Martha Jean, Professor, B.S., South Carolina State College; M.S., Bank Street College; Ed.D., Rutgers University
Hine, William C., Professor, B.S., Bowling Green State University; M.A., University of Wyoming; Ph.D., Kent State University
Hugine, Andrew, Professor, B.S., M.Ed., South Carolina State College; Ph.D., Michigan State University
Jenkins, Sharon F., Instructor/Clinic Audiologist, B.A., M.A., South Carolina State College.
Johnson, Alex C., Professor, B.A., Durham University; M.A., University of Kent at Canterbury; M.Phil., University of Leeds; Ph.D., University of Ibadan
Joyner-Fleming, E. Gail, Associate Professor/Interim Dean, B.S., North Carolina A&T; M.S., University of Wisconsin; Ed.D., University of South Carolina
Keller, James E., Associate Professor/Chair, B.S., South Carolina State College; M.A., Clemson University; Ph.D., Ohio State
*Kowalski, Casimir J., Professor, B.S. State University of New York; M.A., Ed.S., Western Kentucky University; Ed.D., Indiana University
Krishna, M.V. Gopala, Professor, B.S., University of Mysore, India; M.Sc., University of Mysore, India; M.S., Clarkson College of Technology; Ph.D., Postdam University
Littlejohn-Blake, Sheila M., Assistant Professor, B.S., M.Ed., South Carolina State College; Ph.D., Florida State University
Londhe, Suresh, Professor/Interim Dean, B.S., Poona University; M.S., Ph.D., Louisiana State University
Lowery, Earlena, Assistant Professor, B.S., Pembroke State College; M.A., Appalachian State; Ed.D., South Carolina State University
McArthur, Walter, Associate Professor, B.S., Tuskegee Institute; M.A., California State University; Ed.D., Atlanta University
Moore-Green, Bernice, Associate Professor, B.A., Barber Scotia College; M.Ed., South Carolina State College; Ph.D., Kansas State University
Mustafa, Muhammad, Professor, H.S.C., Sylhet Government College; B.A., M.A., Dacca University of Bangladesh; M.Ed., University of England
Onumkwo, Emmanuel N., Professor, B.A., University of Durham; M.P.I.A., University of Pittsburgh; M.A., and Ph.D., Georgetown University
Pruitt, William, Professor, B.S., Arkansas AM&N University; M.S., Eastern Michigan University; Ph.D., University of Michigan
Robinson, James C., Associate Professor, B.S., Morehouse College; M.S., South Carolina State College; Ph.D., University of Massachusetts
Scriven, Phillip M., Associate Professor, B.A., Virginia Union University; M.A., Ph.D., Ohio State University
Small, Donald, Associate Professor, B.A., M.A, North Carolina Central University; Ph.D., University of Kansas
*Smalls, Mary L., Assistant Professor/Dean, B.S., South Carolina State University, M.S., S.L., University of South Carolina
Speight, Ronald E., Associate Professor, B.A., M.A., North Carolina Central University; Ph.D., Kansas State University
Staten, David, Assistant Professor/Interim Chair, B.S., M.A., South Carolina State University; Ph.D., University of Iowa
Swami, Umesh M., Associate Professor, B.S., and M.Sc., Gujarat University of India; M.S., University of Iowa
Viswanath, Guttalu R., Professor, B.S., University of Mysore; M.Sc., Karnataka University; M.A., University of Maryland; Ph.D., Catholic University
Wallace, Nathaniel O., Professor, A.B., College of Charleston; M.A., Ph.D., Rutgers University
Wilson, Gwendolyn D., Professor/Acting Chair, B.A., South Carolina State College; M.S., M.Ed., Ed.D, Teachers College-Columbia University
Wilson, Thomas, Professor, B.S., Benedict College; M.Ed., South Carolina State College; Ph.D., University of South Carolina
Woodbury, Carolyn A. J., Assistant Professor, B.S., M.Ed., South Carolina State College; Ph.D., Howard University
Woods, Barbara, Professor, B.A., Emory University; M.A., Cornell University; Ph.D, Emory University

*Temporary Staff

**UNIVERSITY TRANSPORTATION CENTER**
Reinhardt Brown, B.S., M.A., Ed.D., Interim Executive Director
Lairie Butler, B.A., M.A., Program Manager
Natasha Charles, Administrative Assistant
Margie Grove, A.S., Administrative Assistant
James L. Gordon, B.A., M.U.P., Education Coordinator
Lisa Padilla, B.S., M.S., Fiscal Analyst
Lottie Robinson, B.S., Administrative Assistant
Catherine Summes, B.A., M.S., P.M.P., Office Manager
Lamar Tisdale, B.S., Technology Transfer & Training Coordinator

**OFFICE OF SPONSORED PROGRAMS**
Elbert R. Malone, B.S., M.S., Assistant Vice President of Sponsored Programs
Deitra S. Briggman, B.S., Administrative Assistant
Deborah N. Blacknall, B.S., M.Ed., Grants Administrator and Assistant Officer/Assistant Professor
Stephanie E. Blair, B.S., M.A., Grants Coordinator I (Title III)
Tammie Geter, B.S., M.B.A., Grants Admin. II/Programmatic Compliance Officer
Gwendolyn F. Mitchell, B.S., M.S., Grants Administrator II
LaVerne Proctor-Streeter, B.A., M.S., Grants Administrator I/Grant Writer
Tedro R. Rouse, B.A., M.A., Information Coordinator (Title III)

**FLEET MANAGEMENT**
Derrick Green, B.S., Supervisor
Linda Elmore, Administrative Specialist

**COLLEGE OF BUSINESS AND APPLIED PROFESSIONAL SCIENCES**
Robert T. Barrett, Dean, B.S., B.A., University of North Carolina at Chapel Hill; M.B.A., East Carolina University; Ph.D., Virginia Tech

**DEPARTMENT OF ACCOUNTING, ECONOMICS AND AGRIBUSINESS ACCOUNTING PROGRAM**
Barbara L. Adams, Professor, Chair, CPA, B.S., Fort Valley State; M.B.A., Atlanta University; Ph.D., Texas A&M
Om P. Agrawal, CPA, CMA, CIA, Professor B.S, M.S., Ph.D., Jiwaji University
Joseph Onyeocha, CPA, Assistant Professor, A.A., College of Technology, Calabar, Nigeria; B.S., Wilberforce University; M.B.A., Wright State University
AGRICULTURAL AND ECONOMICS

David Karemera, Professor, B.S., University of Burundi; B.S., University of Zaire; M.S., North Dakota State University; Ph.D., University of Nebraska-Lincoln

Harry W. Miley, Jr., Visiting Associate Professor, B.S., Ph.D., University of South Carolina.

Muhammad Mustafa, Professor, B.A., M.A., Dacca University; Diploma, ISVE, Italy; M.Ed., University of New England; Ph.D., Wayne State University

Paul K. Rienstra-Munnicha, assistant Professor; B.A., University of Waterloo; M.A., McMaster University; Ph.D., University of Guelph

Haile M. Gebre-Selassie, Coordinator, B.S., M.S., Ph.D., Oklahoma State University

DEPARTMENT OF BUSINESS ADMINISTRATION

Carlson Austin, Assistant Professor, B.S., Boston University; M.B.A., Harvard Graduate School

Robert T. Barrett, Dean, B.S., B.A., University of North Carolina at Chapel Hill, M.B.A., East Carolina University, Ph.D., Virginia Tech

Enoch K. Bereho, Professor, B.Sc., University of London; M.Sc., University of East Africa; M.P.A., M.B.A., National University of California; Ph.D., University of California

Shirley M. Black, Assistant Professor, B.S., Florida State University; J.D., University of Miami; LLM, Florida University

Jocelyn D. Evans, Associate Professor, B.A., Barat College; M.B.A., Washington University, Ph.D., University of South Carolina

David J. Jamison, Associate Professor/Acting Chair, B.A., Howard University, M.A.), Ph.D., University of Florida.

Innocent Nkwocha, Assistant Professor, B.S., Benedict College; M.B.A., Rutgers University; D.B.A., Nova Southeastern University

Kathy S. Quinn, Assistant Professor, B.A., M.Ed., Ed.D., University of South Carolina

Marion R. Sillah, Associate Professor, B.S., Tuskegee University; M.B.A., University of Michigan; Ph.D., University of South Carolina

Ashok K Singh, Professor, I.Sc., U.P. College; B.S., University of Gorakhpur; M.S., Agra University; Ph.D., Oregon State University

Ora Spann, Associate Professor, B.S., Wilberforce University, M.S., MLHR; University of Dayton, Ph.D., Ohio State University

DEPARTMENT OF FAMILY AND CONSUMER SCIENCES

Eanes, Angella Young, Assistant Professor, B.S., Lee University, M.A., Church of God Theological Seminary, M.S., Ph.D., University of North Carolina at Greensboro

Katrina Ervin, Assistant Professor, B.S., S.C. State University; M.S., Ph.D., Florida State University

Idris, Rafida, Associate Professor, B.S., M.S., University of Dhaka, M.P.H., University of Hawaii, Ph.D. Louisiana State University

Ethel G. Jones, Associate Professor/Chair, B.S., South Carolina State College; M.S., Iowa State College; Ph.D., Iowa State University

LaToya N. Johnson, Visiting Instructor, B.S., S.C. State University; M.Ed., Columbia College

Dannie L. Keepler, Instructor, B.S., Clark College; MAT, University of New Mexico

Sheila M. Littlejohn, Associate Professor, B.S., M.Ed, South Carolina State College; Ph.D., Florida State University

Bonita Y. Mansor, Assistant Professor, B.S., Wayne State University; M.S., Texas Southern University; Ph.D., Kansas State University

DEPARTMENT OF BUSINESS ADMINISTRATION

Miriam J. Evans, Assistant Professor, B.A., Columbia College, M.Ed., South Carolina State University

Natasha N. Ferguson-Dennis, Instructor, B.S., M.S., Winthrop

Barry Frishberg, Professor, B.S., Brooklyn College (1972); M.S., Ph.D., University of Massachusetts/ Amherst.

Patricia A. Frye, Associate Professor/Program Coordinator, B.S., M.A.P.E., University of Florida; P.E.D., Indiana University

Clemmie F. Hill, Associate Professor, B.A., Philander Smith College; M.S., Indiana University, Ed.D., University of South Carolina

Crystal S. Nixon, Assistant Professor, B.S., South Carolina State University, M.S., University of Wisconsin-LaCrosse, D.S.M., United States Sports Academy

Dwight A. Varum, Associate Professor, A.S., Atlanta Metropolitan

Kimberely A. McClain, Instructor, B.S., S.C. State University; M.S., Florida State University

William H. Whitaker, Jr., Assistant Professor, B.S., North Carolina A&T State University, M.S., Michigan State University, Ph.D., University of Kentucky

Joanne M. Wood, Associate Professor, B.S., M.S., Southern Illinois University; Ed.D., University of Tennessee

NURSING

Georgia K. Arnold, Instructor, B.S.N., Medical University of Charleston; M.S.N., Medical University of Charleston

Carrie Sanders-Dantzler, Assistant Professor, M.S.N/ed., University of Phoenix

Bobbie Perdue, Professor and Director, B.S.N., Vanderbilt University; M.S.N., Wayne State University; Ph.D., New York University; Post Doctoral Fellow, University of Pennsylvania

Gregory Raines, Instructor, B.S.N., University of Charleston, W.V.; M.S.N./MHA, University of Phoenix

Gwendolyn Carmille Simmons, Visiting Professor, M.S.N. Nurse Midwifery, University of Kentucky; Doctoral Candidate, Southern University

Monica Ward-Murray, Associate Professor, B.S.N., Medgar Evers College, C.U.N.Y., M.A., Teacher College, Columbia University; Ed.D., Teachers College, Columbia University

Ester Wilkinson, Assistant Professor, B.S.N., M.S., Syracuse University

Sylvia A. Whiting, Professor, B.S.N., Medical University of South Carolina; M.S.N., Texas Woman’s University, Ph.D., University of South Carolina

Mary Wylie-Quil, Instructor, B.S.N., University of South Carolina; M.S.N., Regis University

SPEECH PATHOLOGY AND AUDIOLOGY

Lorraine A. Adcox, Instructor/Clinical Supervisor, B.A., Montclair State University; M.S., Teachers College-Columbia University
Debra Frishberg, Instructional/Clinical Supervisor, B.A., City University of New York; M.A., University of Massachusetts
Harriette Gregg, Associate Professor/Clinic Director, B.A., Hampton Institute; M.A., Michigan State University; M.Ed., Ed.D., Teachers College Columbia University
Sharon F. Jenkins, Instructor/Clinical Audiologist, B.A., M.A., South Carolina State College
Gwendolyn D. Wilson, Professor/ Chair, B.A., South Carolina State College; M.S., M.Ed., Ed.D., Teachers College - Columbia University.

DEPARTMENT OF MILITARY SCIENCE
LTC Heyward Stockhouse, B.S., M.S., Chair/Professor of Military Science
LTC Karl McCloud, B.S., Executive Officer
CPT Edwin Aycock, B.A., M.A., Recruiting Officer
CPT Juan D. Cobbs, B.S., APMS
MSG Bradley Schneier, APMS
Pamela J. Hinson, A.A. D/JC, Human Resource Technician
Johnathan Blanding, D/JC, Supply Technician

DEPARTMENT OF MILITARY SCIENCE
LTC Heyward Stockhouse, B.S., M.S., Chair/Professor of Military Science
LTC Karl McCloud, B.S., Executive Officer
CPT Edwin Aycock, B.A., M.A., Recruiting Officer
CPT Juan D. Cobbs, B.S., APMS
MSG Bradley Schneier, Senior Military Instructor (SMI)
SFC Fredrick Garnett, APMS
Pamela J. Hinson, A.A. D/JC, Human Resource Technician
Johnathan Blanding, D/JC, Supply Technician

COLLEGE OF EDUCATION, HUMANITIES AND SOCIAL SCIENCES
E. Gail Joyner-Fleming, Associate Professor/Interim Dean, B.S., North Carolina A & T; M.S., University of Wisconsin; Ed.D., University of South Carolina

DEPARTMENT OF EDUCATION
Dolewars W. P. Anderson, Assistant Professor, B.S., Prairie View A & M University; M.Ed., Southern University
Helen Brantley, Professor, B.S., New York University; M.A., EdM., Columbia University; Ed.D., Columbia University Teacher College
Bessie Davis Cooke, Associate Professor, B.S., Claflin University; M.Ed., Howard University; Ph.D., Louisiana State University
Gloria Haynes, Assistant Professor, B.S., Mississippi Valley State; M.S., University of Mississippi, Ed. S.; Ph.D.; University of Mississippi
Albert Hayward, Associate Professor, B.S., Voorhees College; M.S., Ph.D., Atlanta University
Omari L. Dyson, Assistant Professor, B.S., University of South Carolina; M.S., Purdue University, Ph.D., Purdue University
M. Evelyn Fields, Associate Professor, B.S., M.Ed., Ph.D.; University of South Carolina
George E. Hicks, Associate Professor, B.S., Paine College; M.Ed. South Carolina State College; Ed.S., Ed.D., South Carolina State University
George Johnson, Assistant Professor, B.A., University of Massachusetts; M.Ed., Cambridge College; M.A.T., University of South Carolina; Ph.D., University of South Carolina
Loretta Leaptart, Assistant Professor, B.S., M.Ed., University of South Carolina; Ed.D., Nova University
Walter McArthur, Associate Professor, B.S., Tuskegee Institute; M.A, California State University; Ed.D., Atlanta University
Bernice Moore-Green, Associate Professor, B.A, Barber Scotia; M.Ed., South Carolina State College; Ph.D., Kansas State University
Janice Belton Owens, Assistant Professor, B.A., Benedict College; M.Ed., Ph.D. (1993), University of South Carolina
Bessie Powell, Assistant Professor, B.S., Thomas Ellison State College; M.A, South Carolina State University; Ed.D., University of Sarasota
William Pruitt, Professor, B.S., Arkansas A.M.N.; M.A, Eastern Michigan University; Ph.D., University of Michigan
Anne M. Rakip, Assistant Professor, B.A., Western New England College; M.S., Fitchbug State College; Ed.D., University of Massachusetts
Marion Robinson, Assistant Professor, B.S., M.Ed., South Carolina State University; Ed.D., University of Georgia
Ronald E. Speight, Associate Professor, B.A., M.A., North Carolina Central University; Ph.D., Kansas State University
Reginald Williams, Assistant Professor, B.A., Duke University; M.A., South Carolina State University

FELTON LABORATORY SCHOOL
Teranesa Carter-Bartley, B.S., Early Childhood Education; M.Ed., Counselor Education
Joann R. Berry, B.A., English; M.S.W, Social Work
Sandra Bickerstaff, B.S., Science Education; M.Ed., Science Education
Patricia Bradley, B.A., Elementary Education; M.L.S., Library Science
Elsie Brown, B.S., M.Ed., Ed.D, Education Leadership
Stacey Franklin, B.S., MAT, Elementary Education
Henry Graham, B.S., Computer Science; M.A., Speech Pathology and Audiology
Vernell Haire, B.S., Home Economics; M.Ed.
Roberta Heyward, B.S., Elementary Education; M.Ed., Counselor Education-Elementary and Secondary
Robin Jefferson, B.A., Elementary Education; M.Ed., Integrated Studies
Donald Lee, B.S., Music Education; M.Ed., English Education
Stephen A. Martin, B.S., Physical Education; M.A., Rehabilitation Counselor
Gwen Nall-Nilampti, B.S., M.A., Early Childhood Education
Mary E. Ravenell, B.A., M.E.D, M.D.
Henry Robinson, B.A, M.S., Elementary Education
Gwendolyn Sewer, B.A., Art Education - K-12
Darla Shaw, B.S., M.S., Early Childhood Education
Antonio Smalls, B.S., Elementary Education
Millicent Stackhouse, B.S., Marketing; M.A., Special Education (Learning Disabilities and Mental Retardation)
Georgette Stewart, B.S., Elementary Education; M.A.T. Reading
Michelle Stokes-Glover, A.S., B.S., M.Ed.
Jeanette Sweat, B.A., M.Ed., Early Childhood Education
Rebecca Zeigler, B.S.; Early Childhood Education: M.Ed.

DEPARTMENT OF ENGLISH AND MODERN LANGUAGES
Butler Brewton, Associate Professor, B.A., Benedict College M.A., Montclair State University; Ph.D.Ed.D. English, Rutgers University
Mary L. Cassidy, Associate Professor, A.B., Cornell University; M.L.S., Columbia University; M.F.A., University of North Carolina
Greensboro; Ph.D., State University of New York at Binghamton University
Thomas J. Cassidy, Professor, B.A., Bard College; M.A, Ph.D., State University of New York at Binghamton.
Gisela Del R. Carreras, Assistant Professor, B.A., Ph.D., University of Puerto Rico.
Mary E. Cheesboro, Professor, A.B., Talladega College; M.A.T., University of Illinois; Ph.D., University of South Carolina
Rosemarie Doucette, Instructor, A.A., Triton College; B.A., Northeastern University; M.A., University of Illinois.
Sarah W. Favors, Associate Professor, B.S., Tuskegee Institute; M.S., Ph.D., University of Illinois.
Allen H. Fleming, Assistant Professor, B.A., M.Ed., South Carolina State College.
Celia V. Gilmore Hezekiah, Assistant Professor, B.A., M.Ed., South Carolina State College.
Valerie Goodwin, Instructor, M.A., University of South Carolina; A.B., Duke University.
Ghussan R. Greene, Professor/Chair, B.A., Claflin University; M.A., Atlanta University; Ph.D., University of South Carolina.
Gil Harris, Instructor, B.A., Shaw University, M.S., North Carolina A&T University.
Janice L. Hawes, Assistant Professor, B.A., University of Texas; M.A., University of Texas; Ph.D., University of California.
Diane N. Hulett, Assistant Professor, B.A., Centre College of Kentucky; M.A., University of Kentucky; Ph.D., University of Kentucky.
Josh Hemlee, Instructor, B.A., South Carolina State; M.A., University of South Carolina.
Beverly Jamison, Assistant Professor, B.A., M.Ed., South Carolina State College.
Alex C. Johnson, Professor, B.A., Durham University; M.A., University of Kent at Canterbury; M.Phil., Leeds University; Ph.D., University of Ibadan.
Mary W. Jordan, Assistant Professor, B.A., M.A., South Carolina State College.
Carlena Kohn-Davis, M.A.T., B.A., South Carolina State University.
Heather Matthiesen, Assistant Professor, B.A., Hiram College; M.A., Ph.D., State University of New York at Binghamton.
Goodwin McArthur, Assistant Professor, B.A., South Carolina State College; M.A., University of South Carolina; Ph.D., University of Cincinnati.
Cynthia E. Page, Instructor, B.A., M.A., South Carolina State College.
Arah Pinson, Instructor, B.A., East Carolina University; M.Ed., South Carolina State University.
Shafiqur Rahman, Professor, B.A., M.A., Dhaka University; Ph.D., Simon Fraser University.
Reginald Rampone, Assistant Professor, B.A., Washington and Lee University; A.M., Boston College and Brown University; Ph.D., The University of Rhode Island.
Harriett Roland, Associate Professor, B.A., South Carolina State College, M.A., University of South Carolina, Ph.D., University of Florida.
Suakari B. Salone, Associate Professor, B.A., M.A., Ph.D., University of California.
Angela Shaw-Thornburg, Assistant Professor, B.A., Wofford College, M.A., Ph.D., Rutgers University.
Ruben Silvestry, Assistant Professor, B.A., University of Puerto Rico; M.A. San Diego State University; Ph.D., University of Texas at Austin.
Yvonne Sims, Assistant Professor, B.A., M.A., University of South Carolina; Ph.D., Bowling Green State University.
Henry Mark Summerrall, Instructor, B.A., M.A.T., University of South Carolina.
Christopher Thornburg, Instructor, M.A., Middlebury College; B.S., Wofford College.
Nathaniel 0. Wallace, Professor, A.B., College of Charleston; M.A., Ph.D., Rutgers University.
Elizabeth H. Wilson, Instructor, B.A., M.A., South Carolina State College.

DEPARTMENT OF HUMAN SERVICES
COUNSELOR EDUCATION
Charlotte R. Hamilton, Assistant Professor, B.A & M.A., Appalachian State University; Ph.D., University of Virginia.
James C. Robinson, Associate Professor, B.A., M.Ed., South Carolina State University; Ed.D., University of Massachusetts.
Philip M. Scriven, Associate Professor/Coordinator, B.A., Virginia Union University, M.A., Ph.D., Ohio State University.
Carolyn A.J. Woodbury, Assistant Professor, B.S., M.Ed., South Carolina State University; Ph.D., Howard University.

CRIMINAL JUSTICE
Margie Ballard-Mack, Assistant Professor, B.A. Clark College; M.C.J., University of South Carolina.
Andre J. Thompson, Assistant Professor, B.S., South Carolina State College, M.S., Indiana University of Pennsylvania.
Giselle L. White-Perry, Assistant Professor/Interim Coordinator, B.S., Armstrong State College; M.C.J., University of South Carolina, M.A., University of Georgia.

REHABILITATION COUNSELING
Cassandra DeWalt, Assistant Professor/Interim Chair, B.A. Newberry College; M.Ed. University of South Carolina; Ph.D., University of Iowa.
Bridget Hollis-Staton, Assistant Professor, B.S., Albany State University; M.A., South Carolina State University; Ph.D., Southern Illinois University.
Shirley A. Madison, Assistant Professor, B.S. and M.A., South Carolina State University; M.A., Western Michigan University.
Michelle Maultsby, Assistant Professor, B.A., Southern Illinois University; M.S. Southern Illinois University; Rh.D. Southern Illinois University.
David Staten, Assistant Professor/Coordinator, B.S., M.A., South Carolina State University; Ph.D., University of Iowa.

SOCIAL WORK
Marie H. Artis, Assistant Professor, B.S., South Carolina State College; M.S.W., University of Maryland.
Christine R. Boone, Professor, B.A., North Carolina College; M.S.W. Rutgers University; D.S.W., Howard University.
Bassey Ekpono, Associate Professor, B.A., Paine College, M.S.L.S., Atlanta University; M.S., Valdosta State College; M.S.W., Ph.D., Atlanta University.
Juanita Mansell, Assistant Professor, B.A., Saint Joseph College; M.S.W., University of South Carolina.
Eva Mary Luchie-Njoku, Assistant Professor, B.S., Fisk University; M.S.W., Ed.D., University of South Carolina
Donnis K. Zimmerman, Associate Professor, B.A., Morris Brown College, M.S.W., University of Georgia

DEPARTMENT OF SOCIAL SCIENCES

Dorothy Brown, Assistant Professor, B.A., M.A., Ph.D., University of South Carolina.
Marguerite Garvey, Assistant Professor, B.A., Marygrove College; M.A. University of Guyana; M.Ed., University of Toronto; Doctor of Arts in Humanities, Clark Atlanta University.
Stanley Harrold, Professor, B.A., Allegheny College; M.A., Ph.D., Kent State University.
William C. Hine, Professor, B.S., Bowling Green State University; M.A., University of Wyoming; Ph.D., Kent State University.
Dior Konate, Assistant Professor, B.A., M.A., DEA, University of Cheikh Anta Diop; Ph.D., University of Wisconsin-Madison.
Learie B. Luke, Assistant Professor/Coordinator of the History Program, B.A., Andrews University; B.A., Caribbean Union College; M.A., Morgan State University; Ph.D., Howard University.
Jutta Scott, Associate Professor, B.A., University of Oklahoma; M.A., Ph.D., Indiana University.
George Richardson, Visiting Assistant Professor, B.A., Mars Hill College, M.A., Florida State University, Ph.D., University of South Carolina.
Barbara Woods, Professor, B.A. Emory University; M.A., Cornell University; Ph.D., Emory University.

POLITICAL SCIENCE

Sherral Brown-Guinyard, Visiting Assistant Professor, B.A., College of Charleston; M.P.A., University of South Carolina.
Benedict N. Jua, Interim Chair, Assistant Professor of Political Science, B.A., M.A., Southern Illinois University, Ph.D., State University of New York.
Willie M. Legette, Associate Professor, BA, Claflin College; M.A., Ph.D., Clark Atlanta University.
Norma H.E. Miller, Assistant Professor/Coordinator of the Political Science Program, B.A., M.A., Ph.D., Howard University.

PSYCHOLOGY

Edwin D. Ayers, Professor, B.A., Johnson C. Smith; M.A.T, Winthrop (1974); M.Ed., South Carolina State College; Ph.D., Atlanta University.
Tonya Hucks-Bradshaw, Assistant Professor, B.A., University of Michigan, M.A., Ph.D., University of Cincinnati.
Linda LaPointe, B.A., M.A., Ph.D., University of South Carolina.
Douglas J. Miller, Associate Professor/Coordinator of the Psychology Program, B.A., M.S., Ph.D., Ohio University.

SOCIOLGY

Carol Apt, Associate Professor, B.A., Indiana University; M.A., Boston University; Ph.D., Northeastern University.
Leonard V. Goodwin, Associate Professor, B.A., Morehouse College; M.A., Atlanta University; Ph.D., Columbia University.

DEPARTMENT OF VISUAL AND PERFORMING ARTS

ART

Stephen Crall, Assistant Professor, B.A., Eastern Michigan University; M.A., University of South Carolina.
Ariel Singleton, A.A., Campus Activity Board Coordinator and Advisor
James L. Douglas, Recreation Assistant /Weekend Manager
Kimberly LeDee, Assistant Professor, B.A., Dillard University; M.A., Howard University
Frank Martin, Instructor, B.A., Yale University; M.A., City University of New York
Leslie Rech, Assistant Professor, B.A., University of Illinois, M.F.A., University of South Carolina
Jonathan Walsh, Associate Professor, B.A., College of Charleston, M.F.A., Concordia University

MUSIC

Richard E. Beckford, Area Coordinator, G.R.S.M., Graduate of the Royal Academy of Music; M.M., University of Southern Mississippi; D.M.A., Louisiana State University
Joseph R. Celmer, Visiting Instructor, B.M., Illinois State University; Ph.D., Indiana University
Ms. Rosetta Dingle, Assistant Professor, B.S., South Carolina State University; M.Ed., Valdosta State University
Edward B. Ellis, Director of Bands, B.A., Morris Brown College; M.M.Ed., Georgia State University
Edward Graham, Professor, B.M, Youngstown St. University; MM., D.M., Indiana University
Robert M.F. Grenier, Associate Professor, B.M., University of Western Ontario; D.M.A., University of Rochester
Roland E. Haynes, B.M.(Jazz), University of South Carolina, Technology Instructor
Mary Jenkins, B.S., Administrative Specialist
Joel C. Johnson, Instructor, B.A., South Carolina State University; M.M., Norfolk State University
Robert Lawrence, Jr., Assistant Band Director, B.A., M.MED, E.D.S, Troy State University
Julia M. Quick, Professor, B.S., University of Minnesota; M.A, San Francisco University; M.FA., D.M.A., University of Iowa.
Edward A. Ricks, Visiting Instructor, B.S., M.M, Norfolk State University
Lameriel Ridges, Instructor, B.A., University of South Carolina; M.M., University of Cincinnati

El-Rayah Abdalla Osman, Associate Professor/Coordinator of the Sociology Program, B.S., University of Gezira; M.S., International Islamic University; M.A., Ph.D., Brown University.
I.P. STANBACK MUSEUM AND PLANETARIUM
Ellen N. Zisholtz, Assistant Professor/Director I.P. Stanback Museum and Planetarium, B.A., City College of the City University of New York; M.A., (Arts Administration) New York University
Elizabeth Mayo, Planetarium Manager, Instructor, B.S., West Virginia University; M.S., Ph.D., University of Kentucky
Ingrid Owens, Program Manager, B.S., South Carolina State University; M.B.A., Claflin University
Darryl Murphy, Exhibitions and Collections Manager, B.A., Virginia Union University; M.S., State University of New York at Buffalo
Brenda Miller, Administrative Specialist, B.S., Jersey City State College

COLLEGE OF SCIENCE, MATHEMATICS AND ENGINEERING TECHNOLOGY
Kenneth D. Lewis, Dean, A.B., Rutger College; M.S.E., Stanford University; M.A., University of Illinois at Urban-Champaign; Ph.D., University of Illinois at Urban-Champaign

DEPARTMENT OF BIOLOGICAL AND PHYSICAL SCIENCES
BIOLOGY
Donald Anadu, Assistant Professor, B.S., University of Nigeria; M.S., University of London; Ph.D., Oregon State University
Ajoy G. Chakrabarti, Professor, B.Sc., B.S., Calcutta University; MS, Tuskegee Institute; Ph.D., Atlanta University
Nathaniel Gant, Instructor, B.S., South Carolina State College; M.A., Atlanta University
Judith D. Salley-Guydon, Professor/Chair, B.S., South Carolina State College; M.S., Ph.D., Ohio State
David Scott, Professor, B.S., M.S., Oklahoma University; Ph.D., Indiana University
Waltena Simpson, Assistant Professor, B.S. South Carolina State College; M.S., Clark Atlanta University; Ph.D., Boston University
James B. Stukes, Associate Professor, B.S., Morehouse College; M.S., Ph.D., Atlanta University
Ronald Whitmore, Visiting Laboratory Instructor, B.S., South Carolina State College; M.S., South Carolina State University
John B. Williams, Professor, B.S., University of Rhode Island; Ph.D., North Carolina State University

CHEMISTRY
Joe N. Emily, Assistant Professor, B.A., Lafayette College; B.A., College of Charleston; Ph.D., University of South Carolina
Nasrollah Hamidi-Vadeghani, Visiting Assistant Professor, B.S., Pars College; B.S., University of Chile; Ph.D. Pontificia Universidad Catolica de Chile
Johnnie J. Jenkins, Jr., Associate Professor/Chemistry Program Coordinator, B.S., South Carolina State College; Ph.D., Howard University
Rahina Mahtab, Associate Professor, B.S., M.S., University of Dhaka Bangladesh; Ph.D., University of Oxford, U.K.
Elbert Malone, Assistant Professor, B.S., Alcorn State University; M.S., North Carolina A & T
Ruhullah Massoudi, Professor, B.S., M.S., Tehran University; Ph.D. University of Georgia

PHYSICS
Wagih G. Abdel-Kader, Associate Professor, B.S., Ain Shams University; M.S., Ph.D., Clarkson University
Jennifer L. Cash, Assistant Professor, B.S., Ph.D., University of Wyoming
Frank Robinson, Instructor, B.S., M.S., University of South Carolina.
Daniel M. Smith, Associate Professor, B.S., M.S., Howard University; Ph.D., Northeastern University
Donald K Walter, Professor, B.S., University of Illinois; M.S., Louisiana State University; M.S., Ph.D., Rice University

DEPARTMENT OF CIVIL AND MECHANICAL ENGINEERING TECHNOLOGY
CIVIL ENGINEERING TECHNOLOGY
Di-Wen Chen, Assistant Professor, B.S., Engineering Survey, Beijing Mining Institute, Beijing, China; M.S., Civil Engineering, University of California, Berkeley, CA Ph.D.; Geotechnical Engineering, University of California, Berkeley, CA
Ali Akbar ELiadorani, Assistant Professor/Academic Program Coordinator, B.Sc., University of Mazanderan, Iran; M.A.Sc., University of Waterloo, Canada; Ph.D., University of British Columbia
Denise S. Grant, Assistant Professor, B.S., Civil Engineering; Clemson University; M.S., Civil Engineering, Clemson University
Tom Whitney, Professor, B.S., South Carolina State College; M.S., University of California Berkeley; Ph.D., University of California at Los Angeles

MECHANICAL ENGINEERING TECHNOLOGY
Saeed L. Banizaman, Associate Professor, B.S., University of North Carolina; M.S., University of South Carolina; RE.
Stanley Ihekweazu, Professor/Chair, M.Sc., Higher Institute of Mechanical and Electrical Engineering; MS, Ph.D., South Dakota School of Mines and Technology; C.Mfg.E
Hamid Naseri-Neshat, Associate Professor, M.S., Oklahoma State University; Ph.D., University of Iowa; PE.
Charles J. Warner, Visiting Assistant Professor, B.S., Southern University; MS., Naval Post Graduate School

NUCLEAR ENGINEERING
Musa B. Danjadi, Associate Professor, M.S., Ph.D., University of Illinois, M.S., B.S, Ahunudu Bello University, Nigeria
Kenneth C. Okafor, Associate Professor, Ph.D., Ohio State University; MSNE, Georgia Institute of Technology; BS Alabama A&M University
DEPARTMENT OF INDUSTRIAL AND ELECTRICAL ENGINEERING TECHNOLOGIES
ELECTRICAL ENGINEERING TECHNOLOGY
James A. Anderson, Professor, B.S., Prairie View; M.S., Sc.D., New Mexico State University, RE.
Hasanul A. Basher, Professor, B.S., University of Rajshahi, Bangladesh; M.S., Ph.D., Clarkson University
Saliman A. Isa, Professor, H.T.E.D. B.S., College of Technology, Nigeria; M.S., Ph.D., Syracuse University
Abdul M. Miah, Professor, B.S., M.S., Bangladesh University of Engg. and Technology, Ph.D., Wayne State University

INDUSTRIAL ENGINEERING TECHNOLOGY
Jae-Dong Hong, Professor, B.S., Korea University; M.S., Ph.D., Pennsylvania State University
Derral R. Linder, Visiting Assistant Professor, B.S., Clemson University; M.S.I.E., Clemson University

INSTITUTE OF  TECHNOLOGY & TECHNOLOGY EDUCATION
Charles W. Zeigler, Assistant Professor, Diploma, O.C. Technical College; B.S., M.S., South Carolina State University; Ph.D., Ohio State University
Clarence W. Hill, Instructor, B.S., Jackson State University; M.S., South Carolina State University, Ph.D., The Union Institute.

DEPARTMENT OF MATHEMATICS AND COMPUTER SCIENCE
MATHEMATICs
Harun Adongo, Associate Professor, B. S., M.S., University of Nairobi; Ph.D., University of Arizona
Kuzman Adzievski, Professor, B.A., M.S., University of Skopje; M.S., University of Cincinnati; Ph.D., University of South Carolina
Willie J. Briggs, Assistant Professor, B.S., M.Ed., South Carolina State College.
Nicholas A. Cluster, Instructor, B.S., M.A.T., South Carolina State University (On Leave for Academic Study)
Vermell W. Green, Instructor, B. S. J., Voorhees College; M.S., Atlanta University
James E. Keller, Associate Professor/Chair, B.S., South Carolina State College; M.S., Clemson University; Ph.D., Ohio State University
MV. Gopala Krishna, Professor, B.S., M.Sc., University of Mysore, India; M.S., Clarkson College of Technology; Ph.D., Potsdam University
Sam McDonald, Assistant Professor, B.S., M.Ed., South Carolina State College; M.S., University of South Carolina
Leon E. Myers, Assistant Professor, B.S., M.Ed., South Carolina State College
Paulette Nicholson, Instructor, B.S., Claflin University, M.Ed., South Carolina State University
Brian Soderstrom, Instructor, A.S., Jamestown Community College; B.S., State University of New York; M.S., Carnegie-Mellon University
Umesh M. Swami, Associate Professor, B.S., M.Sc., Gujarat University of India; M.S., University of Iowa
Joseph T. Tahsou, Associate Professor of Mathematics, Makerere University; M.Sc., University of Dublin; Ph.D., Texas Tech.
Rita Jackson Teal, Associate Professor, B.S., Tennessee State University; M.A., University of Michigan; Ed. D., Memphis State University

COMPUTER SCIENCE
James L. Boettler, Professor, B.S., Lafayette College; M.S., University of South Carolina; Ph.D., University of Illinois
Stevo Bozinovski, Associate Professor, B.E.E., M.Sc., University of Zagreb, Ph.D., University of Massachusetts/Univ. of Zagreb
Ramesh M. Choudhari, Assistant Professor, M.S., University of Bombay; B.E., Indiana Institute of Science; M.S., University of New York at Buffalo
Damian Clarke, Instructor of Computer Science, B.S., South Carolina State University; M.S., George Washington Univ.
Cynthia T. Davis, Instructor, B.S., Benedict College; M.S., Atlanta University
Young-Gyun Kim, Assistant Professor, B.S., M.S., Han-Yang University; M.S., Ph.D., University of South Carolina
Xiaoma Liu, A.S., B.S., M.E., Computer Systems Manager
Claus B. Marshall, Instructor of Computer Science, B.S., South Carolina State University; M.S., Clemson University
James L. Myers, Assistant Professor, B.S., South Carolina State College; MS, University of Illinois; Ph.D., University of Georgia
Ivan Radev, Associate Professor, B.S., M.S., Technical University of Sofia, Bulgaria; M.S., Ph.D., University of Louisiana
Jafar S. Sadighi, Instructor, B.S., University of Teheran; B.S., South Carolina State University; M.S., Univ. of South Carolina
Mrutyunjaya Swain, Assistant Professor, B.Sc., MCA, Utkal University
Nikunj Kishore Swain, Professor, B.Sc., M.Sc. Eng., R.E. College, India; M.S., North Carolina State University, Ph.D., University of North Dakota, PE.
Zlatko Zografski, Associate Professor, B.Sc., University “Ss. Cyril and Methodius”, M.Sc, University of Zagreb; Ph.D., Strathclyde University/ University of Ljubljana

INSTITUTIONAL ASSURANCES
AND NOTICES

EQUAL EDUCATIONAL OPPORTUNITY
POLICY

South Carolina State University has filed with the federal government an Assurance of Compliance with all requirements imposed by or pursuant to Title VI of the Civil Rights Act of 1964 and the Regulation issued thereunder, to this end that no person in the United States shall, on the grounds of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program or activity of this institution receiving federal financial assistance. Under this assurance, this institution is committed not to discriminate against any person on the grounds of race, color or national origin in its admission policies and practices or any other policies and practices of this institution relating to the treatment of students and other individuals, including the provision of services, financial aid and other benefits, and including the use of any building, structure, room, space, materials, equipment, facility or other property. Any person who believes himself, or any specific class of individuals, to be subjected to discrimination prohibited by Title VI of the Act and Regulation issued thereunder may, by himself or a representative, file with the Secretary of Education or with this institution, or both, a written complaint.

CONFIDENTIALITY OF STUDENT RECORDS
ANNUAL NOTICE TO STUDENTS

Annually, South Carolina State University informs students of the Family Educational Rights and Privacy Act of 1974. This Act, with which the institution intends to comply fully, in ways designated to protect the privacy of education records, to establish the right of students to inspect and review their education records, and to provide guidelines for the correction of inaccurate or misleading data through informal and formal hearings. Students also have the right to file complaints with the Family Educational Rights and Privacy Act Office (FERPA) concerning procedures to be used for compliance with the provision of the Act can be found in the Offices of Records and Registration and Student Services.

CERTIFICATION OF CATALOG CONTENTS

I certify that this catalog bulletin is true and correct in content and policy and states progress requirements for graduation.

Dr. Rita Teal
Interim Vice President for Academic Affairs
